SUMMARY

Experienced Senior Software Engineer with over 20 years of expertise in creating scalable, enterprise-level applications

Specializes in .NET (Core and Framework), Ruby on Rails, React, Angular, and Node Proven track record in crafting end-to-end solutions for cloud-native environments, leveraging Azure and AWS to support mission-critical services Expert in Agile methodologies, Test-Driven Development (TDD), and Continuous Integration/Continuous Deployment (CI/CD) pipelines, adept at delivering full-stack software solutions Proficient in C#, ASP.NET, JavaScript, TypeScript, SQL, and associated front-end and back-end technologies

WORK EXPERIENCE

CYBERDYNE SYSTEMS, INC,

02/2001 – Present | New York

Senior Software Engineer / Architect / Consultant

Ongoing consulting business

EBEAM SERVICES INC., *Principal Software Engineer / Architect*

06/2016 – Present

Designed, developed, and implemented electron beam power IOT real-time monitoring (historian) using SQL server, MVC5 .NET Core, KEP server, Azure VMs and Power BI + api

Established time-series data summary using conditional triggers converted into warehouse data for visualization of industrial Cathode Ray Tube power metrics and Dosimetry control charts

SQL Server partitions for long, efficient time series retrieval

Skills: C#, .NET Framework, Power BI, KEP, Azure, MSSQL

GenRe, *IT Consultant*

05/2023 – 02/2024 | Stamford, CT

Manage applications to adhere to international regulations

Application testing using Tricentis Tosca (AS1 certified)

Skills: JavaScript, TypeScript, React, Angular, C#, .NET Framework, ASP.NET MVC, Kubernetes, Jenkins, Docker, AWS, Tosca

ARTIUM TECHNOLOGIES LLC, *Principal Software Engineer*

06/2022 – 10/2022 | SANTA MONICA, CA

Specialized in extreme programming, test driven development and intensive rotating pair programming Integration project to aid software development teams written in Ruby on Rails, ActionCable,

ActiveRecord, ReactRedux, Typescript, Angular, Docker, Postgres, Rspec, Jest, Cypress delivered under precise agile project management protocol and Github actions

Led cross-functional teams to align technical and business objectives, driving a 20% increase in time-to-market for key products

Occasionally run standup, iteration planning and retrospective meetings

Skills: JavaScript, TypeScript, React, Node, Angular, Ruby on Rails, Docker, C#, ASP.NET

BANK OF AMERICA, *Senior Software Engineer*

09/2017 – 06/2022 | Jersey City, NJ

Responsible for maintaining two top-tier critical applications: React, Angular, C#, NET and SQL. Currently, lead 15 developers and eight teams to transition the system to Agile

Resolved cross-department conflicts during the transition to Agile by fostering collaboration and enhancing communication between engineering and product teams

Worked closely with cross-functional teams to ensure seamless migration of legacy applications to a cloud-native infrastructure using Kubernetes, Docker, and AWS services

Managed CI/CD pipelines with Jenkins and integrated Kubernetes for automated deployments, significantly improving deployment speed and minimizing errors

Developed complex suites of business-critical web applications

Skills: JavaScript, TypeScript, React, Node, Angular, C# .NET framework, ASP.NET MVC, Kubernetes, Jenkins, Docker, AWS, SQL

RAINDROP INNOVATIONS, *Software Engineer*

04/2017 – 10/2017

Setup Azure global deployment directly from Visual Studio documenting the process for clients using append Blobs, Monitor and Log Analytics

Skills: C#, .NET, Azure, Docker

NITTA CASINGS INC, *Senior Software Engineer*

02/2016 – 10/2016

Requested by the CEO to deliver software to improve processes at an aged plant

Designed and implemented a comprehensive manufacturing metrics visualization tool using React for front-end user interface and ASP.NET Core Web API for the backend

The integration of Azure services helped deliver realtime data insights that enabled better decision-making

Built application using .NET , Angular to provide interactive, real-time metrics visualization for end-users, improving data comprehension and operational transparency

Skills: JavaScript, TypeScript, Angular, Node, C#, ASP.NET MVC, Docker, D3.js, Azure

GASLIGHT SOFTWARE, *Full Stack Engineer*

12/2013 – 04/2014

Performed Agile project management and test driven development (TDD) and pair programming while working on Subway's POS system in Windows UI application in C# .NET Framework

Utilized unit testing and mocking to apply red-green TDD to new features on an extensive project

Skills: C#, .NET Core, Angular, Azure, Docker, Jest, Cypress

UNIVERSITY OF CINCINNATI, *Senior Full Stack Engineer*

10/2012 – 07/2013

Contracted to complete ten projects to help the information systems division catch up on a backlog of work

Projects included ASP.NET MVC, C#, SQL Server, and JavaScript combined Twitter Bootstrap with MVC, and utilized Cenzic Hailstorm to harden sites

In addition, performed database design and development using SQL Prompt, updated student class registration, proposed and added a student impersonation role for staff, migrated the system from ASPX to MVC and completed the Agile project in Jira

Enhanced the student registration portal by modernizing its UI, migrating backend services to ASP.NET MVC for better performance and scalability

Introduced a new student impersonation feature, allowing staff to troubleshoot student issues directly, significantly reducing support tickets

Skills: : C#, ASP.NET , .NET framework, .NET core, ASP.NET Web API, React, Angular 10, TypeScript, JavaScript, Node, Azure, AWS

EDUCATION

Dartmouth College, *Bachelor's Degree, Physics and Mathematics Bachelor's Degree Physics and Mathematics, Physics Teaching Assistant. Skiing.*

Brown University, *Physics Ph.D. program*

Activities and societies: Physics for Artists Lab Instructor. Low Temperature Physics Bose Condensate

University of Cincinnati Carl H. Lindner College of Business, *MBA Program*

SKILLS

Programming Languages — C, C++, Java, C#, JavaScript, TypeScript, Ruby, Java, SQL., **Cloud Platforms** — Azure (Virtual Machines, Azure DevOps, Monitor, Blob Storage), AWS (EC2, S3, Lambda), Google Cloud Platform (GCP), **Other Technologies** — Linux, Power BI, KEServer, OAuth, Microservices Architecture, JSON, XML, **Frameworks & Libraries** — ASP.NET, .NET Core, .NET Framework, MVC, MVC5, React, Angular, Node.js, Ruby on Rails, **DevOps & CI/CD Tools** — DevOps & CI/CD Tools: Jenkins, Docker, Kubernetes, Git, GitHub Actions, Bitbucket, Azure DevOps, Jira, **Frontend Technologies** — React, Angular , Redux, HTML5, CSS3, Bootstrap, TailWindCSS, MUI, JavaScript, TypeScript, Hooks, Component Lifecycle, Router, SPA, JSX, Next.js, Virtual DOM, State Management, Custom Hooks, Styled Components, **Databases** — SQL Server, MySQL, PostgreSQL, MongoDB, **Backend Technologies** — ASP.NET Core, ASP.NET MVC, .NET Web API, Node.js, REST APIs, GraphQL, gRPC, **Testing & Agile Tools** — TDD, RSpec, Jest, Cypress, xUnit, MSTest, Mocking frameworks, Jira, Azure Boards

CERTIFICATIONS

- Azure Developer, Microsoft Certification
- Linux Administration Certificate, University of Illinois
- Parallel Processing Seminar, Stanford University
- Building Cloud Computing Solutions at Scale, Coursera
- Blockchain Specialization, Coursera
- Programming with Google Go Specialization, Coursera
- Applied Data Science Program, MIT
- Developing SQL Databases, Microsoft

QUALIFICATIONS

AREAS OF EXPERTISE

Software Development, High-Level and UI Design, Engineering Design, Development Support, Research and Development, Strategic Planning, Contract Negotiations, Employee Engagement, Project Estimation, Project Planning and Management, Continuous Process Improvement, Architecture, Database, Training and Development, Mentoring

PROFESSIONAL SKILLS ACUMEN

Project Management, R&D, Rapid Growth, SaaS, Scrum, Startup Environment, System Development & Implementation Systems, Systems Design & Engineering, Systems Development, Systems Integration, IaaS, Technology, Web Development, Strategy, Engineering Management, Operating Distributed Systems, Product Development, Product Management, Digital Media, Speed, Data Storage, Troubleshooting, Business Operations, Frameworks, Full Stack Development, Competitive yet Collaborative, Algorithms, Remote Support, Autonomy, Complex Projects, Data Structures, Data Visualization, Collaborating with Engineers, Frictionless User Experience Design, Responsive Web Design, Web Applications, Web Servers, Web Services, Architecting, Computer Science, CTO, Data Models, Infrastructure, Integrations, Product Managers, Quality Standards, Technical Tools, Web Products

LEADERSHIP & PERSONAL SKILLS ACUMEN

Team Leadership, Leadership Development, Ethics, Integrity, Customer-Vendor Relations, Customer Relationship Management (CRM), Mentoring, Motivation, Problem Solving, Communication, Motivation, Set Goals, Coaching, Empowerment, Professionalism, Change Management, Accountability, Trustworthy, Personable, Creative, Resilient, Consistent, Collaborative, Urge and Willingness to Learn, Vision, Usability
