

Surarapu Sai Hemanth Kumar Reddy

Software Engineer

USA | +1 404-789-9176 | surarapusaihemanthkumarreddy@gmail.com | [LinkedIn](#)

Professional Summary

Innovative Software Engineer with almost 3 years of hands-on experience designing, developing, and deploying scalable backend and full-stack systems. Architected and delivered 50+ high-performance applications by leveraging React.js, Node.js, Spring Boot, and Laravel, supporting up to 100K users. Accelerated API throughput by 45%, decreased query response times by 30%, and improved platform scalability by 60% via microservices, Docker, and Kubernetes. Expert in REST API design, CI/CD automation, cross-platform optimization, and collaborative Agile delivery.

Professional Experience

Software Engineer, HyperNex Technologies, USA

Nov 2024 – Present

- Automated 100+ end-to-end scenarios using Selenium, Python, and Pytest, scaling test coverage from 50% to 90% in 6 months.
- Built modular regression suites that slashed QA cycle time by 35%, reducing production bug leaks by 40%.
- Established bug classification protocol in Jira, raising defect traceability accuracy to 95%+.
- Executed RCA on high-priority defects, eliminating 50%+ recurring issues across sprints.
- Embedded Postman API testing in CI pipelines, reducing API downtime by 20% and stabilizing external integrations.

Software Engineer, Infosys Ltd., Hyderabad, India

Nov 2021 – Jul 2023

- Developed and deployed 15+ distributed microservices using Spring Boot, Node.js, and Kafka, reducing system downtime by 45%.
- Engineered high-availability APIs (REST/SOAP) that improved data transfer speed by 30% and ensured 99.9% uptime.
- Integrated GitHub Actions, Jenkins, and Docker into CI/CD workflows, cutting release time by 60% and deployment failures by 35%.
- Configured Terraform for AWS and Azure multi-cloud provisioning, lowering cloud spend by 25% and enhancing scalability.
- Deployed production workloads on AKS using Helm and Kubernetes, increasing traffic resilience during peak loads.

Software Engineer, Xyphramin Technologies, India

Sep 2020 – Oct 2021

- Orchestrated Kafka-based streaming pipelines processing over 2M messages/day, elevating system responsiveness by 20%.
- Leveraged JUnit, Cucumber (BDD), and Mockito to increase test coverage by 40% and catch critical bugs 2 sprints early.
- Implemented cross-device compatibility matrix, ensuring 100% UX consistency across mobile and desktop platforms.
- Conducted JMeter-based performance profiling, uncovering bottlenecks and boosting throughput by 25%.
- Partnered with product owners to optimize customer journeys, slashing post-release issues by 30%.

Projects

Federteme – E-commerce Spa Management Portal

- Designed** a spa booking system processing 10K+ monthly transactions using Laravel and SQL Server, improving efficiency by 25%.
- Refined** ORM queries and payment logic, improving checkout conversions by 20% and cutting error rate by 30%.

Mini Cruise – Travel & Cruise Booking System

- Developed a high-traffic reservation platform managing 47K+ annual cruise bookings using Laravel, JavaScript, and AJAX.
- Integrated real-time inventory tracking, decreasing booking conflicts by 45%, and revamped frontend to raise engagement by 30%.

Technical Skills

- Frontend Development:** React.js, Redux, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Material UI, HTML5, CSS3, Storybook
- Backend Development:** Java (Spring Boot), Node.js, Express.js, C#, Python (FastAPI, Flask), RESTful APIs, GraphQL, Microservices, .NET Core
- Cloud & DevOps:** AWS (EC2, Lambda, S3, RDS, CloudWatch, API Gateway), Microsoft Azure (AKS, Azure Functions, Blob Storage), Docker, Kubernetes, Terraform, GitHub Actions, Jenkins, ArgoCD, Helm, CI/CD Pipelines
- Databases & Storage:** PostgreSQL, MySQL, MongoDB, Redis, Amazon DynamoDB, Elasticsearch, Azure SQL
- Testing & Quality Assurance:** JUnit, Jest, Cypress, Selenium, Cucumber (BDD), Mocha, Chai, Mockito, TestNG
- Event Streaming & Messaging:** Apache Kafka, RabbitMQ, AWS SNS/SQS
- Version Control & Collaboration Tools:** Git, GitHub, GitLab, Bitbucket, Jira, Confluence, Slack
- AI & Machine Learning (Basic):** TensorFlow, Scikit-learn, OpenAI APIs, Hugging Face Transformers
- Operating Systems & Platforms:** Linux (Ubuntu, CentOS), Windows, MacOS, UNIX Shell Scripting
- Methodologies & Practices:** Agile (Scrum/Kanban), TDD (Test-Driven Development), BDD (Behavior-Driven Development), SDLC, DevSecOps, SRE (Site Reliability Engineering) Awareness

Education

- Master of Science in Computer Science** Aug 2023 – Dec 2024
Kennesaw State University, Georgia, USA
- BE in Electrical and Electronics Engineering** Jun 2017 – May 2021
Tirumala Engineering College, Andhra Pradesh, India
