

Erasmus MUH

Richardson, TX 75080 | +1(945)2175004 | racemuh@gmail.com

SUMMARY

Java Software Engineer with 4+ years of experience designing and developing scalable backend web applications using Java and Spring Boot, building RESTful APIs, and Microservices, with 2+ years of hands-on experience building and deploying cloud-based solutions on AWS.

- **Languages & APIs:** Java, Scala, Spark, Spring Boot, Hibernate/ORM, REST API, JSON, Python, Microservices
- **AWS:** S3, EC2, EMR, Aurora, Apache Airflow
- **Databases:** MySQL, Oracle, MariaDB, Aurora.
- **Frameworks:** Maven, Gradle, Jenkins, Git/Gitlab, Bitbucket, JUnit, Mockito, Postman
- **Tools & IDEs:** Eclipse, Visual Studio Code, Rally, Jira, IntelliJ
- **OS:** macOS, Windows

PROFESSIONAL EXPERIENCE

Availity

Jul 2023 – Dec 2025

Java Software Engineer

- Designed, developed, and maintained Java-based microservices for enterprise healthcare data platforms.
- Developed RESTful APIs using Spring Boot, to enable reliable integrations between distributed backend systems
- Built RESTful APIs using Spring Boot to support secure, scalable system integrations.
- Implemented data access layers using Hibernate/JPA (ORM), mapping domain models to relational databases.
- Applied Java 8+ features (Streams, Lambdas, Optional, etc) to improve code quality, readability, and performance.
- Managed database schema versioning and migrations using Flyway, maintaining consistency across environments.
- Used IBM MQ for asynchronous messaging/communications between distributed services.
- Built and deployed cloud applications on AWS, leveraging S3, EMR, Aurora, and Apache Airflow.
- Utilized Apache Spark and Scala for large-scale data processing and analytics workflows in AWS.
- Used SQL to perform data analysis, validate datasets, and troubleshoot production issues.
- Used Git with GitLab and Bitbucket for source control, branch management, and code reviews.
- Conducted code reviews and collaborated with cross-functional teams to deliver production-ready backend services.
- Worked within an Agile/Scrum environment, participating in sprint ceremonies using Jira.
- Leveraged Amazon Q to improve development productivity, unit test coverage, and debugging efficiency.
- Provided on-call production support via PagerDuty, diagnosing and resolving production incidents.
- Monitored and troubleshoot applications using Splunk dashboards to identify performance bottlenecks and resolve production issues.

UnitedHealth Group – Optum

Jan 2022 – Jul 2023

Full Stack Java Developer

- Developed and enhanced healthcare web applications using Java, Spring Boot, Spring Data JPA, and React.
- Designed and implemented RESTful APIs and microservices architectures to enable secure data exchange.
- Worked with both relational (SQL) and NoSQL databases, optimizing queries and data access layers.
- Conducted debugging, performance tuning, and root-cause analysis to resolve application defects.
- Wrote unit and integration tests using JUnit and Mockito, improving code coverage and release stability.
- Participated in CI/CD pipelines using Jenkins and Docker, supporting automated builds and deployments.
- Created and maintained API documentation using Swagger/OpenAPI.
- Collaborated closely with product owners, QA, and business stakeholders to deliver features aligned with business requirements.
- Followed Agile SDLC practices, contributing to sprint reviews, backlog grooming, and continuous improvement initiatives.

EDUCATION

Master of Science in Energy Engineering, University of Tlemcen	Nov 2015 - Sep 2017
○ Energy systems research, design, modeling, analysis, and optimization	
Bachelor of Science in Chemistry, University of Buea	Nov 2009 - Dec 2012

TRAINING

Per Scholas Dallas – Java Training Bootcamp	Jun 2021 – Jan 2022
○ Core Java, Java EE, OOP, Collections, Streams, Multithreading	
○ Spring Framework, Spring Boot, REST APIs, Microservices	
○ SQL, JDBC, JPA, ORM	
○ CI/CD with Jenkins, Maven, Gradle	
○ Agile/Scrum, SDLC/STLC, SonarQube	
○ Frontend basics: HTML, CSS, JavaScript, Bootstrap	
Continuous Learning (Udemy, Pluralsight, Coursera)	2017 – Present
○ Advanced Java, Spring, Spark & Scala	
○ React & Microservices	
○ Apache Kafka & AWS	
○ Agile & DevOps best practices
