EDUCATION

University of Wisconsin-Green Bay

Green Bay, WI

B.S. in Computer Science (**Software Engineering** Emphasis)

August 2022 – December 2025

• CGPA: **3.75/4.0** | Highest Honor | Dean's List | **100% Phoenix Award**

• **Relevant Coursework:** Parallel & Distributed Programming, Machine Learning, Software Engineering, Theory of Algorithms, AI

EXPERIENCE

Student PEEP Intern

February 2023 – December 2025

The Weidner Center

Green Bay, WI

• Engineer **ETL pipelines** to load ticket buyer data into **Salesforce**, increasing data accuracy and supporting marketing campaigns

• Design and maintain the official Weidner **website**, integrating live update pipelines that reduced content publishing time by 50%

Software Developer Intern

May 2025 – August 2025

Schneider

Green Bay, WI

• Developed a **Redis Management Client Library** in **Spring Boot**, enabling real-time key metrics visualization in **Dynatrace**

• Redesigned and optimized the **React application**, fixing bugs and improving **UI/UX**, boosted employee adoption and reduced error reports

• Helped migrate offer management automation applications to **Azure**, reducing deployment time and enhancing scalability

Software Developer Intern

February 2025 – April 2025

Brown County

Green Bay, WI

• Collaborated on the development of an **Enterprise Resource Planning (ERP)** system, implementing **Odoo** as open-source software

• Utilized **Python** for **backend development** and **PostgreSQL** for efficient database management

Research Assistant

August 2024 – December 2024

WiSys Technology Foundation

Madison, WI

• Developed a **vision model** for road crack detection using hybrid **deep learning**, improving accuracy by 30% compared to manual analysis

• Annotated and curated datasets using **Label Studio**, ensuring data quality and enhancing model performance

Data Engineer Intern

May 2024 – August 2024

Faith Technologies Incorporated

Menasha, WI

• Designed and deployed scalable **Azure data pipelines**, reducing reporting latency and enabling faster data-driven decisions

• Created interactive **Power BI dashboards**, providing real-time insights into emissions and attendance data, saving reporting hours

• Developed AI-powered chat agents using **GPT-4 and MS Copilot Studio**, empowering field workers with instant safety and guidance

Teaching Assistant / Computer Science Intern

January 2024 – May 2024

Department of Computer Science, University of Wisconsin-Green Bay

Green Bay, WI

• Instructed and assisted students in **Python, debugging, and data analysis**, improving average student lab performance

• Diagnosed and tested security labs (**SQL Injection, CSRF, Buffer Overflow**), strengthening learning modules and supporting faculty

PROJECTS & CERTIFICATIONS

Full-Stack Developer Certification | Codecademy

May 2025 – August 2025

• Completed intensive training in Spring Boot, React, **Node.js**, and **REST API development**

Connecting Front-End to Back-End Certification | Codecademy

May 2025 – August 2025

• Designed and implemented **RESTful APIs** connecting client-side applications to **backend** services

Data Engineer Certification | Codecademy

May 2025 – August 2025

• Completed **60+ projects** in **Python, SQL, PySpark, and MongoDB**, focusing on scalable data pipelines and **big-data** management

Typing Speed Game | Capstone Project

January 2025 – May 2025

• Developed a Monkeytype-style typing game in **JavaFX** with real-time scoring to enhance typing speed and accuracy

Music Emotion Prediction | Machine Learning Course Project

January 2025 – May 2025

• Built machine learning models (**Decision Tree, KNN, K-Means**) to classify songs by emotion, revealing patterns in music perception

Resume & Job Description Matching System | Artificial Intelligence Course Project

September 2024 – December 2024

• Created an **NLP-driven system** to compare resumes and job descriptions, helping students better align applications with postings

LEADERSHIP & EXTRACURRICULAR

Resident Mentor

January 2023 – December 2025

Housing & Residential Education, University of Wisconsin-Green Bay

Green Bay, WI

• Guide and mentor 100+ residents through workshops and events, improving student engagement and retention

Founder/President

August 2024 – August 2025

Nepalese Students' Association (NSA), University of Wisconsin-Green Bay

Green Bay, WI

• Founded, led, and spearheaded the first Nepali student association, which increased campus cultural awareness.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, C++, JavaScript, C, C#

Frameworks & Libraries: Spring Boot, React, JavaFX, Android Studio, Redis, Power BI, WordPress

Developer Tools & Cloud Platforms: Git, GitHub, Docker, Kubernetes, Jira, Red Hat, Dynatrace, Azure, AWS (EC2), Copilot & OpenAI Studio

Software Engineering: Agile Methodology (Scrum), Full-Stack Development, API Design & Testing, CI/CD, Database Management
