SUMMARY

Full Stack Developer with 3+ years of experience building scalable web and mobile applications using React, Next.js, TypeScript, and Node.js. Strong background in digital accessibility (WCAG/ARIA), clean architecture, automated testing, and integration of AI and LLM-based solutions. Experience in agile environments, CI/CD, and microservices, with a focus on quality, performance, and real user impact.

EDUCATION

Masters Degree in Systems Analysis and Development

FIAP (Completed – 2026)

Technical Degree in Biotechnology

ETECAP (Completed – 2019)

SKILLS

Languages: JavaScript, TypeScript, SQL (MySQL), Semantic HTML5, CSS/SASS.

Frameworks & Libraries: React, React Native, Next.js, Nest.js, Node.js, Bootstrap.

Tools & DevOps: Git, GitHub, Docker, Linux.

Databases: MySQL, MongoDB, Prisma ORM, PostgreSQL.

Agile Methodologies: Scrum, Kanban.

Testing & Quality: Vitest, ESLint, Sonar.

Web Development: Responsive design, Accessibility (WCAG, ARIA), RESTful APIs.

Best Practices: SOLID Principles, Clean Code, Clean Architecture.

AI Knowledge: Prompt Engineering for Large Language Models (LLMs), integration of AI APIs (e.g., OpenAI, Anthropic) into full stack applications, agent-based architectures.

PROFESSIONAL EXPERIENCE

Full Stack Software Developer (March de 2024 – Present)

At NCI Innova – Software Development Company (Remote – Campinas, SP)

- Development of full stack applications using React, React Native, Next.js, Node.js, and TypeScript.
- Implementation of CI/CD pipelines with GitHub Actions, improving deployment reliability and speed.
- Integration of RESTful APIs, including AI- and LLM-based services.
- Development of microservices with Node.js and Express, integrated with MongoDB.
- Implementation of automated tests (Jest, Vitest, React Native Testing Library).
- Creation of accessible interfaces following WCAG and ARIA standards.
- Application of SOLID principles and Clean Architecture.
- Adoption of Clean Code/Clean Architecture and modularization (router/service/repository).
- Work within agile teams using Scrum and Kanban.
- Experience with B2B products focused on quality, scalability, and usability.
- Technical requirements gathering and definition of full stack project architecture from conception through implementation.
- Active participation in code reviews, providing and receiving technical feedback to continuously improve code quality.

Software Development Apprentice (March/2023 – March/2024)

At NCI Innova – Software Development Company (Remote – Campinas, SP)

- Participation in internal Full Stack training focused on React, TypeScript, Node.js, and Express.
- Hands-on experience in API development, SQL modeling, and backend development using Prisma ORM.
- Creation of automated tests using Vitest.
- Use of Git/GitHub for version control and collaboration in CI environments.
- Exploration of introductory AI concepts and API integration in training environments.

COURSES & CERTIFICATIONS

Web Development – Base Social (120 hours – 2022)

Award-winning project: Development of an e-commerce application with API integration.

JavaScript and TypeScript – From Basic to Advanced – NCI Academy/Udemy (146 hours – 2023)

Development of full stack applications using React, Node.js, Express, and Next.js.
