SUMMARY

Backend Software Engineer with ~4 years of experience designing, scaling, and operating Java and Spring Boot microservices for enterprise e-commerce platforms. Proven ability to own backend systems end-to-end, enforce complex business rules, and improve system correctness, reliability, and performance in high-volume production environments. Experienced in collaborating cross-functionally, contributing to system design decisions, and delivering backend solutions that directly impact customer trust and business outcomes. Excited to bring expertise to Vectra Staffing.

EXPERIENCE

*Macy's, **Software Engineer***

Mar 2022 - Jan 2026

- Designed and delivered Early Refunds backend capabilities, increasing repeat purchase rates by 15% by implementing robust backend solutions.
- Reduced Marketplace refund processing time by 75% by modernizing refund orchestration services and improving service coordination.
- Achieved a 95% reduction in lost units by implementing robust tracking, validation, and reconciliation logic, ensuring system correctness and reliability.

*GenSpark, **Full-Stack / Backend Developer (Client: Macy's)***

Aug 2021 - Mar 2022

- Built and supported enterprise backend services using Java, Spring Boot, and GCP, contributing to large-scale commerce and returns systems.
- Demonstrated strong problem-solving skills by quickly ramping up on enterprise tooling and codebases, ensuring efficient and reliable backend solutions.
- Transitioned into a full-time Software Engineer role at Macy's, showcasing adaptability and proficiency in backend development.

*GenSpark, **Contract Developer***

Mar 2021 - Mar 2022

- Completed a 12-week intensive engineering program focused on enterprise software development, gaining hands-on experience with AWS, Linux, and Python.
- Demonstrated strong communication skills by effectively explaining technical concepts to non-technical stakeholders, enhancing team collaboration.
- Developed and implemented backend solutions, improving system efficiency and reliability.

EDUCATION

Kennesaw State University

*Bachelor of Applied Computer Science • **Information Technology***

Wiregrass Georgia Technical College

*Associate Degree • **Computer Programming***

LICENSES & CERTIFICATIONS

Introduction to AWS for Non-Engineers

AWS Certified Cloud Practitioner — Exam Preparation

SKILLS

Java • Spring Boot • Microservices • REST APIs • Backend System Design • Distributed Services • MongoDB • Google Cloud Platform (GCP) • AWS (foundational services) • Agile / SDLC
