Professional summary

Frontend Developer with 3 years of experience specializing in Web3, blockchain-enabled interfaces, and modern JavaScript ecosystems. Strong background building DeFi products, UI architectures, and decentralized application features using React, Vue, TypeScript, GraphQL, and Web3 tooling. Skilled in collaborating with cross-functional teams, improving product performance, and delivering user-centric solutions aligned with business goals. Fluent in English and experienced in Agile/Scrum environments, enabling effective communication with international engineering teams.

Technical skills

Languages:

JavaScript (Advanced), TypeScript (Intermediate), HTML5, CSS3, SASS, JSON, SQL (Basic), Solidity (Basic for Web3 integrations)

Frameworks & Libraries:

React, Vue (Vue2), Next.js, Redux, Tailwind CSS, Vuetify

Web3 & Blockchain:

Web3.js, Account Abstraction, Multisig Wallet Compatibility, Smart Contract Integrations, DeFi UI Development

Tools & Platforms:

Firebase, GraphQL, Git, GitHub, REST APIs, Agile/Scrum

Other:

Responsive UI Development, Component Architecture, UI Performance Optimization, UX Collaboration

Professional experience

Frontend Developer | Tropykus

Remote | 05/2022 – Present

- Developed and optimized the Tropykus DeFi platform using Vue2, Vuetify, and Sass, enhancing UI responsiveness and supporting thousands of recurrent users.
- Led the frontend build of a DeFi MVP enabling SMBs to save in U.S. treasury bonds, request flexible credits, and provide loan services to employees.
- Implemented Account Abstraction and multisig wallet compatibility, improving onboarding speed by 25%.
- Built core product modules with React, TypeScript, Tailwind CSS, Firebase, and GraphQL, accelerating user-testing cycles by 30%.
- Collaborated closely with Product, Design, and Backend teams to deliver scalable UI components and ensure seamless end-to-end integration.

- Delivered direct technical support to users through Telegram, maintaining an average response time under 10 minutes and improving issue resolution rates.

Senior Sales Trader | Itaú Colombia

Bogotá | 04/2014 – 04/2018

- Managed commercial relationships with corporate clients, strengthening strategic partnerships and increasing service adoption.
- Structured financial hedging products for interest rate and FX risk mitigation, enhancing client retention and portfolio performance.
- Provided specialized advisory for high-impact financial operations involving large enterprises.

Projects

Tropykus DeFi MVP – SMB Treasury & Credit Platform

Stack: React, TypeScript, Tailwind CSS, Firebase, GraphQL, Web3

- Designed and developed the complete frontend interface for a blockchain-based MVP allowing SMBs to access treasury products and flexible funding.
- Improved user flow clarity and reduced friction during onboarding, resulting in higher engagement during pilot testing.

Education

Full Stack Web Developer – Henry

01/2022 – 04/2022

MSc in Finance | Industrial Engineering – Universidad de los Andes

2011 – 2013

Industrial Engineer – Universidad de los Andes

2001 – 2006

Certifications

- Advanced Web3 Wallet Security – Cyfrin
