SUMMARY

Backend-focused Software Engineer with 2+ years of professional experience building scalable Java and cloud-based applications. Strong expertise in Spring Boot microservices, RESTful APIs, AWS services, and CI/CD pipelines. Proven ability to improve system performance, reduce latency, and deliver secure, production-ready solutions in Agile environments. Seeking Backend / Cloud Software Engineer roles.

TECHNICAL SKILLS

- Java, Python, SQL, JavaScript, Spring Boot, Spring MVC, Hibernate, JPA, RESTful APIs, Microservices, JDBC, React.js, MySQL, PostgreSQL, MongoDB, DynamoDB, AWS EC2, AWS S3, AWS Lambda, Docker, Jenkins, GitHub Actions, CI/CD Pipelines, Maven, Gradle, Terraform, Postman, Secure API Development, JWT, OAuth2, HIPAA Compliance, JUnit, Mockito, Unit Testing, Log4j, IntelliJ IDEA, Git, GitHub, Jira, Agile Scrum

PROFESSIONAL EXPERIENCE

Humana | Florida

Jan 2025 - Present

Software Engineer

- Developed and maintained Java Spring Boot microservices supporting enterprise healthcare applications, improving system performance and reliability.
- Built and deployed containerized services using Docker and AWS (EC2, S3, Lambda), achieving 99.9% uptime.
- Implemented secure REST APIs with JWT authentication and OAuth2 authorization in compliance with enterprise security standards.
- Enhanced CI/CD pipelines using Jenkins and GitHub Actions, reducing deployment time by 25%.
- Collaborated in Agile teams, participating in sprint planning, code reviews, and continuous integration to deliver high-quality releases.

Jocata Financial Advisory and Technology | India

Jan 2022 - Jun 2023

Associate Software Engineer

HYD

- Designed and developed Java-based backend applications using Spring Boot, Hibernate, and REST APIs for financial data platforms.
- Implemented microservices architecture and optimized SQL queries using JDBC, reducing API latency by 25%.
- Integrated frontend components (React.js / Angular) with backend services using JSON and AJAX.
- Built and maintained CI/CD pipelines with Jenkins, Maven, and Docker, deploying applications to AWS cloud infrastructure.
- Improved code quality and system stability through unit and integration testing using JUnit and Mockito.

EDUCATION

Florida Atlantic University

Aug 2023 - May 2025

Master of Science, Computer Science

Boca Raton, Florida

CMR Engineering College

2018 - Aug 2022

B. Tech, Computer Science

Hyderabad, India

CERTIFICATES

- Introduction to Software Engineering – Coursera
- Machine Learning with Python – Coursera
