SUMMARY

Software Developer with 1+ years of experience designing, developing, and deploying scalable software systems across web and cloud platforms. Strong foundation in data structures, algorithms, object-oriented programming, and full-stack development. Experienced in building frontend interfaces, backend services, REST APIs, and cloud-native applications using Java, Python, JavaScript, React, Node.js, and AWS/Azure. Passionate about writing clean, maintainable code and solving real-world problems end-to-end.

EDUCATION

University of Illinois Springfield <i>Master of Science in Computer Science</i> GPA: 4.0	Aug 2023 -- Dec 2025 Springfield, IL
Matrusri Engineering College, Osmania University <i>Bachelor of Engineering in Computer Science Engineering</i> Gold Medalist	Aug 2019 -- Jun 2023 Hyderabad, India

EXPERIENCE

Graduate Assistant -- Software & Web Developer <i>University of Illinois Springfield</i>	Sep 2024 -- Dec 2025 Springfield, IL
Developed and optimized full-stack web components using HTML, CSS, JavaScript, and backend integrations, improving task completion rates by 18% .	
Maintained and enhanced 25+ production Drupal-based web pages with improved performance, accessibility, and content structure.	
Implemented role-based access controls and approval workflows, reducing processing time by 30% .	
Debugged application issues and resolved broken links, backend errors, and navigation failures, reducing incidents by 40% .	
Associate Engineer -- Cloud & Software Operations <i>Cloud4C Services Private Limited</i>	Jun 2023 -- Aug 2024 Hyderabad, India
Supported enterprise-grade applications deployed on AWS and Azure, ensuring system reliability and scalability.	
Managed AWS EC2, S3, IAM, and CloudWatch resources, reducing downtime incidents by 20% .	
Monitored Azure VMs, networking, and storage using Azure Monitor and Log Analytics to maintain SLA compliance.	
Collaborated with application, database, and security teams to resolve backend, API, and infrastructure issues.	
Software Development Intern <i>IEEE Pantech E-Learning</i>	Sep 2022 -- Dec 2022 Hyderabad, India
Developed full-stack applications using Java, JSP, Servlets, and PostgreSQL with secure authentication and session management.	
Designed backend logic, database schemas, and admin workflows to support scalable content management.	
Improved system performance and reduced manual operations by 50% .	

PROJECTS

ChatConnect -- Real-Time Chat Application <i>Full Stack Development</i>	2024 React, Node.js, Socket.IO, MongoDB
Built a real-time chat application with WebSocket-based communication supporting concurrent users.	
Implemented authentication, online status indicators, and responsive UI components.	
Interactive eBook Platform <i>Full Stack Web Application</i>	2023 Java, JSP, PostgreSQL
Developed a secure eBook platform with user registration, cart functionality, and order tracking.	
Designed normalized database schemas and optimized SQL queries for performance.	
CloudFileUploader <i>Backend & Cloud Storage</i>	2022 Node.js, Express, AWS S3
Built REST APIs for secure file uploads up to 50MB and integrated AWS S3 for scalable storage.	
Configured IAM policies and validated endpoints using Postman.	

Airport Mapping Database System

Database & Web Application

2021

MySQL, HTML, CSS, JavaScript

Designed a searchable web interface with advanced filters and JWT-based authentication.

Improved query performance and reduced page load times by **25%**.

Medical Insurance Cost Prediction

Machine Learning Project

2023

Python, Pandas, Scikit-learn

Built a linear regression model to predict insurance costs using structured datasets.

Performed data preprocessing, visualization, and model evaluation using R-squared metrics.

TECHNICAL SKILLS

Programming Languages: C, C++, C#, Java, Python, JavaScript, Data Structures and Algorithms

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Responsive Design, Accessibility

Backend: Node.js, Express.js, Java Servlets, RESTful APIs, Authentication (JWT, Sessions)

Databases: PostgreSQL, MySQL, MongoDB, Database Design, Query Optimization

APIs & Integration: REST APIs, WebSockets, Third-Party API Integration

Cloud & Storage: AWS (EC2, S3, IAM, CloudWatch), Azure (VMs, Monitor), Cloud Storage Concepts

DevOps & tools: Docker, CI/CD Basics, Git, GitHub, Postman, Microsoft Office

AI / ML Foundations: Machine Learning Basics, Data Processing, Model Training, Python for AI

Software Engineering: OOP, Design Principles, SDLC, Agile/Scrum, Debugging, Unit Testing, Functional Testing

CERTIFICATIONS

AWS Certified Solutions Architect – Associate

AWS Certified Cloud Practitioner

Docker Essentials: Developer Introduction

Java Foundations

Career Essentials in Software Development

Oracle Database Programming with SQL
