

Pramod Akkinapalli

Senior Software Engineer | Java, Spring Boot, AWS

Core Technologies: Java 21, Spring Boot, AWS, Microservices, React, Angular, Docker, Kubernetes

832-729-9099 | Pramod.akk2404@gmail.com | www.linkedin.com/in/p4pramod

PROFESSIONAL SUMMARY

Senior Software Engineer with 11+ years of experience building scalable, cloud-native applications using **Java (17/21), Spring Boot, AWS**, and modern frontend frameworks including **Angular and React**. Strong background in **microservices, RESTful APIs, distributed systems**, and data-intensive platforms supporting **millions of daily transactions**. Proven ability to deliver **high-performance, secure, and maintainable solutions** in Agile, product-driven teams.

TECHNICAL SKILLS

Backend: Java (17/21), Spring Boot, Spring Security, Hibernate/JPA, Microservices, REST APIs

Cloud & DevOps: AWS (Lambda, API Gateway, S3, DynamoDB, RDS, OpenSearch, SNS, SQS), Docker, Kubernetes, CI/CD, Jenkins, GitHub Actions

Frontend: React, Angular, Vue.js, JavaScript, TypeScript, HTML, CSS

Databases: MySQL, Oracle, MongoDB, DB2

Automation & Testing: Cypress, Jest, Selenium, JUnit, TestNG, Mockito, Postman

Tools: Git, Maven, Jenkins, SonarQube

EDUCATION

Master's in Software Engineering — University of Houston, Clear Lake, TX (2013–2014)

Bachelor of Technology in Computer Science Engineering — JNTU, Hyderabad, India (2007–2011)

PROFESSIONAL EXPERIENCE

Vonage Business Inc, Remote

Senior Software Engineer | Aug 2022 – Present

Project: Unified Portal

Vonage Business Communications (VBC) is a cloud-based unified communications platform providing voice, messaging, WhatsApp, and video services with reporting and analytics for business customers.

- Contributed to the development of **cloud-native reporting and analytics platforms** supporting **10M+ daily transactions**.
- Designed and developed **Java 21 Spring Boot microservices** and **AWS serverless APIs**, with a strong focus on scalability and reliability.

- Improve API performance by **30%** through caching and query optimization.
- Worked on multiple frontend initiatives using **React and Angular**, contributing to UI enhancements and modernization across different applications.
- Implement near real-time and scheduled data pipelines using **AWS EventBridge and CloudWatch**.
- Worked on multiple frontend initiatives using **React and Angular**, contributing to UI enhancements and modernization across different applications.
- Built and maintained **CI/CD pipelines** using Jenkins and GitHub Actions.
- Design scalable storage using **S3, DynamoDB, and RDS**. Enable fast search with **Amazon OpenSearch**.
- Implemented **distributed tracing and logging** for microservices using CloudWatch and OpenSearch to enhance observability.
- Mentored **junior engineers**, conducting code reviews and knowledge-sharing sessions to improve team productivity.
- Collaborated with product and QA teams to **deliver features ahead of schedule**, supporting multiple business units.

Tech Stack: Java 21, Spring Boot 3.x, Spring Security, Git, MySQL, AWS Lambda, API Gateway, S3, SNS, SQS, DynamoDB, CloudWatch, EventBridge, IAM, RDS, Route 53, Node.js, Jenkins, Kubernetes, Docker.

Fifth Third Bank, Cincinnati, OH

Full Stack Java Developer | Oct 2018 – Aug 2022

Project: Open Consumer

- Developed backend services using **Spring Boot** and frontend features using **React** for digital account opening platforms.
- Built reusable React components and integrated Redux-based data flows.
- Developed and consumed RESTful services and implemented security using **Spring Security**.
- Created AWS Lambda functions for automation and scheduling.

Tech Stack: Java, Spring Boot, ReactJS, AWS Lambda, SNS, S3, MySQL, DB2, Jenkins

J.B. Hunt Transport Inc, Bentonville, AR

Sr. Full Stack Java Developer | Apr 2018 – Sep 2018

Project: Route Planner

- Developed REST APIs using **Spring Boot and Hibernate** for route optimization workflows.
- Built AngularJS proof-of-concepts and implemented client-side validations.

Tech Stack: Java, Spring Boot, Hibernate, AngularJS, MySQL, Tomcat, ActiveMQ

Nationwide Mutual Insurance, Columbus, OH

Java Developer | Dec 2016 – Feb 2018

Project: Automated Work Distributor

- Developed backend modules using **Spring Boot and Hibernate** and exposed REST APIs.
- Built UI components using **Angular** and JSP.

Tech Stack: Java, Spring, Hibernate, Angular 4, Oracle, WebSphere

State of Maine, Augusta, ME

Sr. Java Developer | Jul 2015 – Nov 2016

Project: Phoenix / MAPSIS

- Worked on enterprise applications using **Java, Spring, Hibernate**, and REST APIs for large-scale government systems.
- Implemented **OAuth2-based authentication using JWT tokens**, CI pipelines with Jenkins, and MongoDB integrations.

Tech Stack: Java, Spring, Hibernate, Angular 2, MongoDB, WebLogic

Liberty Mutual Insurance, Portsmouth, NH

Sr. Software Developer | Aug 2014 – Jun 2015

Project: CFI NextGen

- Built backend services using **Spring MVC and SOA**, integrating SOAP and REST-based services.
- Implemented business workflows, rules engines, and enterprise integrations in regulated insurance environments.

Tech Stack: Java, Spring MVC, Dojo.js, SOAP, BPEL, Oracle, WebSphere
