EDUCATION

LNM Institute of Information Technology

B.Tech in Communication and Computer Engineering | CGPA: 7.65/10

Jaipur, Rajasthan

07/2021 - 04/2025

EXPERIENCE

E2E Networks

Software Engineer

New Delhi

07/2025 - Present

- Developed end-to-end backend for **YugabyteDB** managed database service, enabling slow query logging, real-time monitoring, and automated backup and restore functionality.
- Architected the end-to-end backend and microservices architecture for a serverless **Function-as-a-Service** (FaaS) platform providing AWS Lambda-style compute capabilities.
- Integrated **Prometheus** observability to expose real-time CPU and memory metrics for customer functions.
- Implemented real-time log streaming for FaaS workloads using **Fluent Bit** and **Elasticsearch**.
- Enabled request-level billing accuracy by integrating **Zipkin distributed tracing** to measure execution time of individual FaaS requests.

E2E Networks

Software Development Intern

New Delhi

01/2025 - 06/2025

- Enhanced the **container registry** service by introducing token-based access, allowing customers to create and manage multiple registries per project.
- Extended the managed **Kubernetes** service with **security group** support for customer-defined network isolation.
- Automated host inventory tracking using **cron** jobs and **Metabase SQL** dashboard, reducing manual intervention by 99%.
- Extended **Kubernetes** and **Security Group** support to the E2E customer SDK.

Zapp Invest

Full Stack Developer

Jaipur

10/2022 - 03/2023

- Contributed as a **founding developer** to a startup idea that secured INR 100,000 funding and ranked 5th at the Disrupt competition.
- Implemented a **JWT**-based user authorization, OTP verification system, and a rate-limited system.
- Developed multiple RESTful APIs and **MySQL models** to support CRUD operations.
- Created 10+ **React components**, like the startup card, user dashboard, and blog section.
- Optimized microservices interaction with **RabbitMQ**, achieving 35% faster response.

PROJECTS

Huddle01 | GitHub

- Secured 3rd place and a **\$100** prize among 350+ participants at LNMHacks hackathon.
- Developed a web-based **video conferencing application** using Huddle01 SDK.
- Enabled **real-time transcription** and **grammar-checking** features to enhance user experience.

TECHNICAL SKILLS

Languages: C++, Python, SQL, JavaScript

Technologies: Django, Celery, Kubernetes, Docker, Ansible, Prometheus, Grafana, Zipkin, Elasticsearch (ELK), OpenTelemetry, MySQL, MongoDB, Git, React, Node.js, RabbitMQ, AWS

Coursework: Data Structures and Algorithms, DBMS, Object-Oriented Programming, Operating Systems

ACHIEVEMENTS & LEADERSHIP

- Specialist (max 1407) on [Codeforces](https://www.codeforces.com/profile/dustin) (codeforces.com/profile/dustin).
- 4 star (max 1811) on [CodeChef](https://www.codechef.com/users/ak7270090) (codechef.com/users/ak7270090), top 2% globally.
- Rated Knight (max 1945) on [LeetCode](https://leetcode.com/u/ak7270090/) (leetcode.com/u/ak7270090), top 4% globally.
- Achieved 3rd place out of 350+ participants and a \$100 prize in the LNMHacks hackathon.
- Organized a web development workshop with 20+ attendees as a Microsoft Learn Student Ambassador.
