Summary

Backend Software Engineer with a master's degree in Cybersecurity and strong experience designing, developing, and deploying scalable, secure, and reliable server-side applications. Skilled in clean architecture, RESTful API design, database modeling, and cloud deployment across Azure and AWS environments. Proven ability to deliver robust backend solutions that enhance system performance, maintainability, and overall product quality. A collaborative problem-solver committed to writing high-quality, well-structured code and continuously adopting modern technologies to address complex business needs.

Skills

Expert: C# • ASP.NET • Node.js • SQL • Git • GitHub

Advanced: AWS • Azure • CI/CD • Testing • jest • Object-Oriented design • React Native • MongoDB • Spring Boot

Work Experience

Backend Engineer

Feb 2024 – Present

Spinnel • Full-time

Ramallah, Palestine

Technologies: ASP.NET • SQL • Git • GitHub • Azure

- Designed, implemented, and deployed scalable ERP backend modules using ASP.NET Web API, improving system performance, modularity, and data consistency across enterprise workflows.
- Optimized high-impact SQL Server queries, indexes, and stored procedures, significantly reducing response times and improving overall database throughput and reliability.
- Partnered with cross-functional teams to gather technical requirements and architect backend solutions that streamlined core business operations and integrated seamlessly with existing systems.
- Troubleshoot and resolved critical backend issues, enhancing service stability and contributing to measurable improvements in system uptime and client satisfaction.

Backend Engineer

Sep 2021 – Feb 2024 • 2 yrs 5 mos

Ultimit Advanced Turnkey Solutions • Full-time

Rawabi, Palestine

Technologies: ASP.NET • SQL • AWS • Git • GitHub

- Developed and deployed multiple high-performance backend services and APIs using ASP.NET Web API, ensuring scalable, secure, and maintainable server-side application architecture.
- Engineered and optimized SQL Server schemas, queries, and stored procedures, improving application performance, reducing query execution time, and maintaining robust data integrity across systems.
- Integrated frontend requirements by transforming UI/UX specifications into efficient backend endpoints and data models, ensuring reliable communication between client and server layers.
- Collaborated closely with cross-functional teams using Figma, GitHub, and Agile methodologies, improving delivery speed and ensuring backend solutions aligned with product and business objectives.
- Participated in sprint planning, code reviews, and daily stand-ups, contributing to continuous improvement and the delivery of stable, production-ready backend features.

Intern Full-Stack Web Developer

Apr 2021 – Aug 2021 • 4 mos

AXSOS Academy • Internship

Ramallah, Palestine

Technologies: HTML/CSS • Django • Java • MERN Stack • SQL

- Completed an intensive 4-month full-stack development bootcamp focused on problem-solving, algorithms, and web fundamentals, demonstrating rapid learning and adaptability.
- Developed and deployed multiple full-stack web applications using Flask, Django (Python), Spring Boot (Java), and MERN (MongoDB, Express, React, Node.js).
- Strengthened expertise in MVC architecture, RESTful API design, and frontend–backend integration, resulting in clean, scalable project implementations.
- Led and collaborated with peers during coding projects and assessments, earning recognition for team leadership and consistent performance.
- Delivered successful final projects across stacks, showcasing proficiency in end-to-end development and real-world application design.

Intern Full-Stack Web Developer

Oct 2020 – Feb 2021 • 4 mos

Ministry of Education • Internship

Ramallah, Palestine

Technologies: SQL • ASP.NET • HTML/CSS • Network • Git

- Developed and maintained internal web applications using ASP.NET MVC, contributing to improved internal workflows and process automation.
- Built and styled responsive, user-friendly interfaces that enhanced usability across multiple devices.
- Assisted senior developers in debugging, testing, and deployment, ensuring stable and efficient software releases.
- Applied foundational knowledge of MVC architecture, Entity Framework, and RESTful API development, strengthening full-stack development skills through practical experience.

Projects

Portfolio

Technologies: SQL • ASP.NET • Next.js • Azure • TypeScript • Tailwind CSS

- Secure user authentication and registration with encrypted and hashed sensitive data.
- Role-based authorization separating admin and user privileges.
- Dynamic portfolio builder with customizable widgets and layouts.
- Publicly shareable profile links for networking and visibility.
- Built-in email contact system enabling seamless user communication.
- Advanced search allowing guests to find users by name, email, or phone number.
- Enhanced UI/UX design focused on clarity, responsiveness, and accessibility.
- Automated email notifications for new messages and activity updates.
- Flexible design suitable for multiple industries, not limited to tech.
- Optimized backend performance ensuring fast load times and scalability.
- Responsive design for all screen sizes and devices.
- Thoroughly tested components and secure APIs ensuring data integrity.

Education

Master's degree: Cyber Security

Oct 2021 – Oct 2023 • 2 yrs

Uskudar University
Istanbul, Turkey

Bachelor's degree: Computer Science

Oct 2016 – Feb 2021 • 4 yrs 4 mos

Arab American University
Jenin, Palestine

Languages

Arabic (Native or bilingual proficiency)

English (Native or bilingual proficiency)

Turkish (Professional working proficiency)
