## PROFESSIONAL SUMMARY

---

- Computer engineering with 12+ years of experience including 5+ years of experience in banking and financial services, specifically in credit and debit cards processing services.
- 5+years of experience analyzing, designing, developing, and testing web applications, using Spring Framework and Security, Java, Thymeleaf, JQuery, Junit5, etc.
- 7+ years of experience on analysis, development, testing and documentation of application systems using RPGIII, RPGLE, SQLRPGLE, CLLE, ILE RPG (free), DB2, SQL/400, DDS and SDA. Highly familiar with online transaction processing and iSeries platform
- 2+ years of experience in health care insurance, specifically in claims domain
- 3+years of experience in forward capacity auctions (Electricity applications), migrating structs applications to spring.
- Excellent troubleshooting and problem-solving skills with a high level of attention to detail and Ability to learn new skills in a short time and execute changes efficiently and effectively
- Dynamic, responsible, honest, cooperative and dependable, ability to work under pressure and ability to work both independently and as a team.

## TECHNICAL SKILLS

---

- **Programming Languages:** Java/JEE, Java core, C#, JavaScript, jQuery, Thymeleaf, HTML5, CL/400, C/400, Python, RPG/400, ILE RPG (free), SQLRPGLE, SQL, SQL/400
- **Files:** XML, XSD, JSON, Yamel
- **Frameworks:** Spring Boot, Spring MVC, Struts, .NetCore
- **Platforms:** Windows and AS400(iSeries)
- **RDBMS:** Oracle, DB2/SQL and Microsoft SQL Server
- **Applications:** MASTERCARD and VISA Credit Simulators, IBM Client Access, Aldon LMi, FTP Manager, Forward Capacity Auctions Eclipse and Visual Studio

## WORK EXPERIENCE

---

### Summary

- Designed, developed, certified and tested software applications based on the user needs.
- Modified software applications to correct errors, or to improve their performance.
- Provided technical support to the users for application problems.

**KBI** (*Kansas Bureau of Investigation*), **via Innova**

**Aug 2023 to Feb 2025**

**Job Title:** .Net/C# Developer

**C#, .Net Framework, JavaScript, HTML5, CSS, Bootstrap, git, Microsoft SQL Server, DevOps, Swager, Postman and Visual Studio, XML, XSD, JSON.**

Analyze, improve and develop ABIS applications and KIBRS (Kansa Incident-Base Reporting System) using, .Net Framework, .Net 6.0, ASP .Net and, C#

- Developed and tested ABIS (Automated Biometric Identification System) applications based on .Net.
- Created automated tests for each task assigned.
- Designed, analyzed, developed, and tested new RESTfull application to handle RapBack requests and new KASFR Reporting application.
- Designed, analyzed, developed, and tested UI for KIBRS (Kansa Incident-Base Reporting System) application.
- Delivered high quality software following the client standard for continuous deployments.

## ISO New England, via Innova

Sep 2019 to Jul 2023

**Job Title:** Java Developer

**Java 8, Spring Security, Spring boot, Spring MVC, Thymeleaf, jQuery, JavaScript, HTML5, CSS, Bootstrap, Ajax, MyBatis, Junit5, Mockito, cucumber, selenium, Jira Task, git, Bitbucket, Code Ready Studio, Oracle, JBoss, Jenkins, SonarQube Oracle DB, Stored Procedure, XML, JSON, Yamel.**

Analyze structs applications and convert them to Spring Framework using Java 8, Spring Security, and latest UI design patterns.

- Develop and test forward capacity auctions applications based on structs applications.
- Create automated tests for each converted module.
- Deliver high quality software following the client standard for continuous deployments.

## NCJIS, via Innova

**Job Title:** Java Developer

Jul 2019 to Sep 2019

**Java 8, Spring Security, Apache Camel, Apache CFX, JBoss, MSSQL, DevOps, Code Ready Studio, XML, XSD, JSON.**

Develop middleware application to transform niem files.

- Developed new applications to transform Niem and Lexs files to xml or json files.
- Created SOAP messages and RestApi to send Json files from middleware applications to SOAP Webservices.

## Mayo Clinic, via Innova

**Job Title:** Java | AS400/RPG Developer

Oct 2016 to Jul 2019

- **AS/400, CL/400, C/400, RPG, RPGIII, RPGLE, ILE RPG (free), SQLRPGLE, SQL, SQL/400, Store Procedure, DB2, DDS and SDA, Java, HTML, CSS, TFS, Eclipse and WebSphere.**

Provide level 2 and level 3 support of standard, operational processes. Make programming modifications related to both production support as well as discretionary enhancements in response to user requests.

- Java development for the Mayo Clinic health solution portal.
- Implement SAML 2.0 single sign on (SSO) from the Mayo Clinic Health Solutions portal to the pharmacy portal.
- Developed new iterative screens to allow the Mayo Clinic Business and Networking area to configure parameters like **EDI rules**, In/out of network indicators and **CPT/HCPC codes** exclusions for a new client company.
- Developed the needed changes of the Mayo Clinic Networking area on the Fee Schedule process to support new file's structure and new logic for in/out of network allow amount.
- Automatized process to generate PCA Provider reports allowing the Mayo Clinic Business area generating such as report in a short period of time.

## Consorcio Credicard, Caracas, Venezuela

Dec 2008 to Apr 2014

**Job Title:** Analyst III

**AS/400, C/400, CL/400, C/400, RPG, RPGIII, RPGLE, ILE RPG (free), SQLRPGLE, SQL, SQL/400, Store Procedure, DB2, DDS and SDA.**

Analyzed, developed and improved Credit Authorization and Risk Management applications

- Developed the needed changes in the Authorization Systems to allow Consorcio Credicard to validate the credit cards' PIN for Visa and MasterCard.
- Provided and implemented the prepaid platform, allowing Consorcio Credicard to offer a large number of prepaid products with debit cards to banks and companies.
- Analyzed, prepared and tested the changes generated by Visa's and MasterCard's new semestral releases over Credit Card Authorization systems.

## EDUCATION

**Saint Charles Community College**, St Charles, Missouri

Jan 2016 – July 2016

*Certificates of Specialization (Programming C.S.) (Graduation with Highest Honors)*

**ELS Language Center**, St Louis, Missouri

Jun 2014 – Jun 2015

*English for Academic Purposes, Level 112 Masters*

**Universidad Nacional Experimental Rómulo Gallegos**, Guárico, Venezuela

Feb 2003 – Dec 2008

*Bachelor of Science in Computer Systems Engineering (Graduation with Honors)*

## TRAINING AND CERTIFICATION

Oracle Certified Associate, Java SE 7 Programmer

Advanced SQL Programming on iSeries

Aldon LMi/Developers

IBM, Application Development E-Business

Udemy: Angular, React, Apache Kafka, Microsoft Azure

## LANGUAGES

**Spanish** - Fluent in reading, writing, listening, and speaking.

**English** - Full professional proficiency
