PROFESSIONAL SUMMARY

Results-driven **AWS Cloud Engineer** with over 2 years of experience designing, deploying, and automating secure, scalable cloud infrastructures on **Amazon Web Services (AWS)**. Proven track record in optimizing performance, reducing deployment time by 40%, and improving cost efficiency across multi-tier environments. Adept at leveraging **Terraform, Ansible, and CloudFormation** for Infrastructure as Code (IaC), implementing **DevOps best practices**, and maintaining high-availability architectures.

CORE SKILLS

- **Cloud Technologies:** AWS (EC2, S3, RDS, Lambda, VPC, IAM, CloudFormation, Route 53)
 - **Automation & IaC:** Terraform, AWS CloudFormation, Ansible
 - **DevOps Tools:** GitHub Actions, CI/CD Pipelines, Docker
 - **Monitoring & Security:** CloudWatch, Prometheus, Grafana, ELK Stack, KMS, IAM Policies
 - **Networking:** VPC, VPN, Load Balancers, DNS Management
 - **Programming:** Python, Bash
 - **Operating Systems:** Linux, Windows
-

PROFESSIONAL EXPERIENCE

Microline Information Systems – Hyderabad, India

Cloud Engineering Intern | Apr 2021 – Sep 2021

Junior Cloud Engineer | Oct 2021 – Apr 2023

- Designed and deployed AWS infrastructure using EC2, RDS, and VPC, achieving a **30% performance improvement** in application response time.
- Automated provisioning and configuration using **Terraform** and **Ansible**, reducing manual errors and deployment time by **40%**.
- Implemented **IAM roles, KMS encryption**, and strict access controls, strengthening security compliance across cloud environments.

- Optimized S3 bucket usage with **lifecycle management policies**, cutting storage costs by **20%**.
 - Configured **CloudWatch alarms** and **Prometheus dashboards** for real-time monitoring and proactive incident response.
 - Collaborated with development teams to migrate on-prem applications to AWS using **CI/CD pipelines**, ensuring zero downtime.
-

ACADEMIC PROJECTS

Secure Multi-Agent Learning System using AWS and Python

- Built a **serverless architecture** using AWS Lambda, S3, and RDS to manage and store student data securely.
 - Integrated IAM-based access control and encryption mechanisms to maintain compliance with data privacy standards.
 - Automated ingestion workflows using Python scripts for seamless data management.
-

CERTIFICATIONS

- **AWS Certified Cloud Practitioner**
 - **AWS Certified AI Practitioner**
 - **Cyber Threat Management**
 - **Endpoints Security**
 - **Networking Basics & Network Defence**
 - **Introduction to Cybersecurity**
-

EDUCATION

Master of Science in Computer Science – Rivier University, USA

Bachelor of Science in Computer Science – Krishna University, India

ADDITIONAL INFORMATION

- **Languages:** English, Telugu
- **Work Preference:** Open to relocation & remote work
- **Interests:** Cloud Automation, AWS Security, Infrastructure Optimization
