

Ishan Rajvi

Data Engineer

Fort Worth, Texas 76114 | ishandrajvi19@gmail.com | +1 (682) 277-2793 | [LinkedIn](#)

Skills:

- **Data Engineering:** ETL/ELT Processes, Data Pipeline Development, Data Warehousing (Snowflake, Redshift, BigQuery), Data Modeling, SQL & Query Optimization, Data Quality & Governance, Cloud Platforms (AWS, Azure, GCP)
- **Programming Languages:** Python, SQL, PySpark, Scala
- **Big Data Technologies:** Apache Spark, Databricks, Airflow, Azure Data Factory, Kafka, Hadoop, Hive
- **Databases:** MySQL, Oracle, SAP HANA, MongoDB
- **Machine Learning:** Pandas, NumPy, Logistic Regression, Correlation Analysis, Scikit-Learn, TensorFlow, PyTorch
- **Tools & Protocols:** Git, Jenkins, Docker, Kubernetes, Confluence, JIRA, HTTPS, SMTP, DNS, SSH, TCP/IP
- **Data Visualization:** Tableau, Power BI, Looker, QuickSight

Experience:

Data Engineer

Pfizer | USA

08/2025 – Present

- Design, build, and optimize scalable **ETL/ELT data pipelines** using **Spark**, **Airflow**, and cloud-native tools across multi-cloud environments.
- Develop and maintain modern **data warehouses** in Snowflake or **BigQuery** with efficient data modeling and CI/CD automation.
- Implement real-time data streaming and governance frameworks using **Kafka** and **Databricks** to enable reliable, analytics-ready data.

Data Engineer

Hexaware Technologies | India

06/2022 – 07/2023

- Architected and deployed scalable, end-to-end **data pipelines** in a multi-cloud environment, leveraging **Azure Data Factory**, Synapse Analytics, and **AWS services (S3, Glue)** to process terabytes of data daily.
- Engineered a modern **data warehouse** in **Snowflake**, designing scalable schemas and optimizing **data flows** to support **complex analytics** and **business intelligence**.
- Implemented robust **CI/CD** using **Azure DevOps**, automating deployment, testing, and monitoring of **ETL** jobs to ensure high **availability** and **data quality**.
- Mentored junior engineers on engineering best practices and established a data quality framework to monitor the **health** and **reliability** of **production data systems**.

Data Engineer

Karbh IT Solutions | India

06/2021 – 05/2022

- Designed and implemented automated batch **data pipelines** in an **Azure environment**, using **Python** and **Apache Spark** to integrate **data** from **various sources**, including **SQL** databases and third-party **APIs**.
- Developed and **optimized complex SQL-based data transformation pipelines** and **collaborated with analysts** to deliver analytics-ready **datasets**, improving overall **performance** by **27%**.
- Built and maintained **data models** in the **data warehouse**, creating a reliable and consistent source of truth that powered **Power BI** and **Tableau dashboards**.

Data Engineer Intern

Karbh IT Solutions | India

03/2021 – 05/2021

- Assisted in developing and documenting **Python** and **SQL-based ETL pipelines** for structured **data ingestion**, **cleaning**, **validation**, and **reporting**, ensuring **data accuracy** and **supporting analytics** team operations.

Education:

Master of Science, Computer Science

08/2023 – 05/2025

The University of Texas at Arlington | Arlington, TX, US

Bachelor of Engineering, Computer Engineering

07/2018 – 06/2022

L.D. College of Engineering | India
