

Simon Mpoy

Software Developer

248-993 4916

simon.mpoyus@gmail.com

Summary

Full-stack Software Engineer with 5+ years of experience designing, building, and maintaining secure, scalable web and mobile applications. Strong expertise in Java and Spring Boot for backend services, including RESTful APIs, multithreading, and performance optimization. Highly proficient in Angular and Ionic for developing responsive, component-based user interfaces, with hands-on experience upgrading large production applications across multiple major framework versions. Comfortable working across the full stack, from database design and SQL optimization to CI/CD pipelines and cloud deployments, within Agile, cross-functional teams.

Technical Skills

Frontend: Angular (v7–v19), React, Ionic, Tailwind CSS, HTML5, CSS3, JavaScript, TypeScript

Backend: Java, Spring Boot (2 & 3), Node.js, REST APIs, Microservices, Multithreading

Languages: Java, TypeScript, Python, C#

Databases: MySQL, PostgreSQL, SQL Server

Cloud & DevOps: AWS, Git, CI/CD pipelines, Jira, Agile/Scrum

Experience

Elevance Health (Remote, California) - Software Developer

April 2022 – Present

- Led the end-to-end migration of the Amaze mobile application from Angular 8 to Angular 15 with Ionic, improving application performance, reducing build times, and significantly enhancing long-term maintainability.
- Upgraded backend services from Spring Boot 2 to Spring Boot 3, resolving Jakarta EE breaking changes and improving runtime efficiency, security posture, and standards compliance.
- Audited and modernized backend dependencies, patching known vulnerabilities and reducing overall security exposure by approximately 90%.
- Maintained and enhanced a full-stack Patient Portal built with Spring Boot, Angular, and Ionic, delivering new features, resolving production issues, and improving user experience and performance.
- Migrated the FAL Portal web application from Angular 7 to Angular 19, addressing deprecated APIs, resolving breaking changes, and eliminating critical security vulnerabilities.
- Collaborated closely with product owners, QA, and DevOps teams in an Agile environment, participating in sprint planning, code reviews, and continuous delivery.

- Implemented an authentication and authorization flow using SiteMinder for a File Management System built with Angular (frontend) and .NET (backend), enabling secure single sign-on (SSO), role-based access control, and compliance with enterprise security standards.
- Contributed to the implementation of ETL workflows for data management, including data extraction, transformation, and transfer across systems to support reporting, operational insights, and downstream integrations.

UST Global (Remote, California) - Software Developer

August 2020 – April 2022

- Developed and maintained features for an Angular/Ionic iOS application used daily by 500+ clinicians, ensuring reliability, usability, and performance.
- Provided day-to-day production support, troubleshooting issues, fixing bugs, and deploying updates with minimal downtime.
- Maintained and enhanced Spring Boot backend services backed by SQL Server, supporting mission-critical healthcare workflows.
- Designed and implemented a document processing module that supported image upload, editing, and electronic signature submission, improving operational efficiency and user experience.

Revature (Florida) - Junior Software Developer

November 2019 – August 2020

- Built two full-stack applications (Interview Tracker and Expense Reimbursement System) using Java Spring Boot, Angular, and AWS RDS.
- Implemented RESTful APIs, database schemas, and responsive UI components, gaining hands-on experience across the full development lifecycle.
- Strengthened core skills in Java, SQL, and frontend development while working in an Agile team environment.

Education

Revature (Florida) - Full Stack Developer Bootcamp

January 2020

Tshwane University of Technology (Pretoria, South Africa)

Baccalaureus Technologiae - Computer Systems

July 2012 (Graduated with CUM LAUDE) - 3.5 GPA

Tshwane University of Technology (Pretoria, South Africa)

National Diploma Engineering - Computer Systems

December 2010 (Graduated with CUM LAUDE) - 3.61 GPA

Awards

Awarded the Chancellor's Medal: Top-performing graduate in the Faculty of Information and Communication Technology - 2010
