Profile Summary

- Software Engineer with 3+ years of experience designing, developing, and maintaining scalable web applications and back-end services using Java, Spring Boot, React, Angular, and PostgreSQL. Experienced in optimizing APIs and database queries to improve performance, building secure data access layers, integrating with cloud platforms, and collaborating with cross-functional teams to deliver high-quality software solutions in Agile environments.

Education

- **University of North Texas**
Masters of Science in Computer Science *Dallas, Texas*

Experience

- **Humana** **January 2025 – Present**
Java Full Stack Developer *Arlington, Texas*
 - Architected and deployed scalable microservices using Spring Boot and AWS Lambda, improving system throughput by 30%.
 - Integrated machine learning APIs into primary Java application, enabling real-time predictive insights.
 - Modernized legacy monolithic features into a decoupled React.js frontend architecture, reducing technical debt by 25%.
 - Implemented OAuth2 and Okta security protocols to safeguard patient information, ensuring compliance with HIPAA regulations.
 - Mentored junior developers during code reviews, maintaining 90%+ code coverage with JUnit and Mockito.
- **Accenture (JPMC)** **August 2022 – December 2023**
Associate Java Developer *Hyderabad, India*
 - Developed modular RESTful web services using Spring Boot and Java 11, reducing manual entry errors by 15%.
 - Implemented CI/CD pipelines with Jenkins and Docker for seamless deployment.
 - Engineered responsive UI components using Angular and TypeScript, increasing portal engagement by 20%.
 - Optimized PostgreSQL queries and indexing, decreasing data retrieval latency for high-volume reports.
 - Participated in Agile design sessions and scrum ceremonies to deliver scalable technical solutions.
- **Starbucks** **February 2022 – July 2022**
Java Developer *Hyderabad, India*
 - Developed modular Java components for internal resource management tool, improving team efficiency by 10%.
 - Resolved legacy code issues within Spring framework to stabilize environment.
 - Created unit test cases using JUnit, increasing code reliability by 15%.
 - Integrated RESTful APIs with UI components for consistent data flow.
 - Participated in code reviews and workshops to enforce modern version control practices using Git.

Technical Skills

- **Languages and Frameworks:** Java, Spring Boot, JavaScript, TypeScript, React.js, Angular, Hibernate, RESTful Web Services, Microservices.
- **Software Development Life Cycle:** Back-End Development, Front-End Development, Web Applications, Client Applications, SDLC Compliance, Agile Methodologies.
- **Testing and QA:** Unit Testing, JUnit, Mockito, Test-Driven Development, Continuous Integration, CI/CD Pipelines.
- **Databases:** PostgreSQL, MySQL, Oracle DB, SQL, Database Optimization, Data Security.
- **Tools and Platforms:** Git, Jenkins, Docker, AWS, Linux, Source Control, Build Systems.

Certifications

AWS Certified Developer – Associate (DVA-C02).
