Software Engineer | Java | Spring Boot | Angular | AWS | Microservices Development

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience designing, developing, and deploying scalable, high-performance applications using Java, Spring Boot, Angular, and AWS. Proven ability to build microservices, modernize legacy applications, optimize database queries, and enhance CI/CD pipelines—achieving measurable improvements in performance, reliability, and user experience. Adept at Agile delivery, cloud-native development, automation, and cross-functional collaboration.

CORE SKILLS

- **Backend Development:** Java 8/11, Spring Boot, Spring MVC, Hibernate, REST APIs
- **Frontend:** Angular 10+, JavaScript, TypeScript, HTML5, CSS3, Bootstrap
- **Cloud & DevOps:** AWS (EC2, S3, Lambda, CloudWatch, Route 53), Jenkins, Docker, Git, GitHub Actions, Bitbucket
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Testing & QA:** JUnit, Mockito, Selenium, Postman, Swagger/OpenAPI
- **Tools & Methodologies:** Maven, Jira, SonarLint, GitFlow, Agile Scrum

PROFESSIONAL EXPERIENCE

Hartford Financial Service Group | Software Engineer

Jan 2025 – Present

- Built Spring Boot microservices that reduced transaction latency and improved backend throughput.
- Modernized legacy JSP UI by migrating to Angular 12, resulting in improved responsiveness and customer satisfaction.
- Integrated third-party APIs into billing workflows, improving automation and data accuracy.
- Implemented AWS S3 and CloudWatch for secure document storage and proactive monitoring.
- Developed JUnit/Mockito test suites achieving **85%+ coverage**, reducing production defects.
- Automated deployments via Jenkins CI/CD pipelines, reducing release delays by **30%**.
- Conducted code reviews using SonarLint and enforced GitFlow for consistent code quality.

Creative Newtech Ltd | Software Engineer

Feb 2021 – Jul 2023

- Developed REST APIs using Spring MVC and Hibernate for insurance claims and policy applications.
- Built responsive user interfaces using Thymeleaf, Bootstrap, and JavaScript.
- Optimized MySQL queries, improving system performance by **40%** on large datasets.
- Designed Jenkins pipelines for QA/UAT builds, increasing deployment reliability.
- Integrated payment and notification APIs into core application modules.
- Automated system backups with shell scripts, improving reliability and reducing manual workload.
- Mentored junior developers on Java fundamentals, Git workflow, and API testing.

PROJECTS

Online Course Registration & Attendance Portal

- Built a full-stack portal using Spring MVC and MySQL with secure role-based authentication.
- Delivered responsive UI supporting admins, faculty, and students; recognized for clean architecture.

EDUCATION

Master of Information Systems | Indiana Institute of Technology, USA

Bachelor of Computer Science Engineering | Joginapally B.R. Engineering College, Hyderabad, India

CERTIFICATION

- AWS Certified Cloud Practitioner
- AWS Certified Solutions Architect – Associate
