

Bhavya Batra

Software Development Engineer II — Moveinsync

☎ +91 8447932504 ✉ bhavyabatra04@outlook.com 🌐 [bhavyabatra](https://bhavyabatra.com)

Technical Skills

Languages: Java, Python, SQL, NoSql

Developer Tools/Frameworks: Spring Boot, Microservices, JDBC, JPA, Hibernate, Apache Kafka, GraphQL, Camunda, REST APIs, DCron, Redis, ELK Stack, JUnit, Mockito, Mock MVC, Postman, Git, Bitbucket, Jira, Cursor AI, Claude, OpenAI API, Linux, Data Structures, PostgreSQL

Cloud & DevOps: AWS (EC2, S3, Redshift, SageMaker, Lambda, Cloudwatch), Kubernetes, Docker, Jenkins, CI/CD, Prometheus, Grafana

Professional Experience

Moveinsync Technology Solutions Pvt. Ltd

January 2025 – Present

Software Development Engineer - II

- **Cross-Functional Engineering:** Collaborated across multiple engineering teams to deliver scalable backend, cloud, and system-wide solutions with measurable business impact.
- **Workinsync Resource Metrics Dashboard:** Revamped backend architecture and APIs for the admin dashboard, cut response times almost in half, significantly improving performance and user experience.
- **Backend Stack Upgrade:** Enhanced performance and compatibility by upgrading from Java 11 to Java 21.
- **Deployment Optimization:** Streamlined CI/CD pipelines using Kubernetes, automating deployment workflows and reducing application downtime by **85%**, while improving system reliability and release efficiency.
- **Database Design & Optimization:** Refactored schema design and implemented indexing strategies in PostgreSQL, reducing query execution time by up to **60%** for high-traffic endpoints and improving overall system responsiveness.
- **Technical Design Leadership:** Mentored the team, guiding feature development solutions and addressing general technical queries, while promoting scalable architecture and clean code practices.
- **Sprint Delivery & Release Stabilization:** Led sprint planning and team stand-ups, reduced sprint spillover by **30%** and stabilizing release cycles.

Moveinsync Technology Solutions Pvt. Ltd

May 2022 – December 2024

Software Development Engineer - I

- **Visitor Management System:** Built a 0-1 visitor management platform to streamline check-ins and track 3K+ external guests weekly, improving operational efficiency and access control.
- **Meeting Room Booking:** Developed a robust room booking system integrated with Outlook and GSuite, facilitating 5K+ bookings/month with a **75%** reduction in scheduling conflicts and improved user satisfaction.
- **External Integration for Access Management:** Integrated SFTP-based attendance sync for system employees, enabling real-time booking management and visibility within WorkInSync; minimized manual intervention and administrative overhead by **40%**.
- **Enhanced WorkInSync Office Booking:** Innovatively designed and combined a Hybrid Parking Module, boosting parking management efficiency by **50%** and refined allocation and tracking.
- **Modified System Performance:** Integrated Elasticsearch and Logstash, accelerating query speeds and log accessibility, advancing system performance by **65%**.
- **Vulnerability Management & Remediation:** Resolved **50+ VAPT** vulnerabilities through code refactoring, Sonar issue remediation, and secure coding documentation—leading to a **43%** reduction in security risks.

Achievements

- **Falcon - Fire In The Belly (2023, 2024):** Recognized two years in a row for exceptional ownership, impact, taking challenges with a high degree of availability, and drive.
- **Moveinsync Internal Hackathon – Most GTM Ready Product:** Awarded for designing and prototyping an innovative, market-ready solution with strong go-to-market potential and business viability.
- **Moveinsync Dream Team 2024:** Recognized for exceptional team collaboration, on-time project delivery, and cross-functional coordination contributing to successful product outcomes.
- **Joint Secretary, Alexis – Social Service Club, Bennett University:** Spearheaded campus-wide volunteer initiatives and community engagement programs, mobilizing 50+ students to drive educational outreach, donation drives, and awareness campaigns focused on social responsibility and positive impact.

Education

Bennett University, Greater Noida

B.Tech in Computer Science

CGPA: 8.68

- **Relevant Coursework:** Data Structures and Algorithms, Cloud Computing, Python, OOPs with Java, Advanced DBMS, Probability and Statistics, High Performance Computing
