Mysore, Karnataka, India — +91-9945288905 — sachi1kss@gmail.com — linkedin.com/in/sachin-b-s-b60b91242

## Summary

---

Full Stack Developer with 1.5 years of experience building, deploying, and maintaining scalable web applications using React.js, TypeScript, Node.js, Express.js, and MongoDB. Strong in REST API development, frontend-backend integration, secure authentication (Keycloak, OAuth2, JWT, RBAC), and cloud deployment (Azure, Docker, CI/CD). Product-minded engineer who ships high-quality features, improves user workflows, and drives adoption through iterative improvements, demos, and feedback loops.

## Skills

---

**Languages:** JavaScript (ES6+), TypeScript

**Frontend:** React.js, HTML5, CSS3, MUI, React Router

**Backend:** Node.js, Express.js, Microservices, REST APIs

**Security:** Keycloak, OAuth2, JWT, Role-Based Access Control (RBAC)

**Database:** MongoDB, MongoDB Atlas

**Cloud/DevOps:** Azure App Service, Docker, CI/CD

**Workflow:** Git, GitHub, Agile/Scrum, Zoho Sprints, Requirements Gathering, Product Demos

## Experience

---

### Mysoreminds Technologies LLP

May 2025 – Present

*Full Stack Developer*

- Delivered end-to-end features by building responsive React + TypeScript UI screens and high-performance REST APIs using Node.js and Express.js.
- Integrated frontend modules with backend services using Axios/fetch; implemented validation and efficient MongoDB CRUD operations for reliable data flow.
- Engineered reusable modular UI components with React and MUI, improving scalability, maintainability, and design consistency.
- Implemented secure authentication and authorization using Keycloak (OAuth2/JWT/RBAC), enabling protected routes and session management.
- Improved application performance by optimizing rendering, reducing unnecessary API calls, and improving state management.
- Containerized applications using Docker and deployed to Azure via CI/CD pipelines, improving release stability and delivery speed.

### eMidas Technology Pvt. Ltd.

Aug 2024 – Apr 2025

*Software Engineer*

- Developed modular React components to improve UI consistency and user experience across multiple screens.
- Built scalable routing architecture using React Router to improve navigation and user workflow completion.
- Developed and maintained Odoo modules, ensuring smooth integration with business workflows.
- Designed and optimized XML views to deliver clean, user-friendly screens aligned with business requirements.
- Worked with stakeholders to gather requirements and deliver scalable ERP enhancements in Agile sprints.

## Projects

---

### Ultra Modular Inward System (DigiTrail Application)

May 2025 – Present

- Automated inwarding workflow by scanning supplier labels, generating unique IDs/QR codes, and validating against receipt notes or purchase orders.

### Active Shop-GMA (Gage Management and Analysis)

Aug 2024 – Apr 2025

- Built a digital system to track calibration status, usage history, and performance of gauges for measurement control.
- Automated scheduling, compliance, and status tracking to reduce manual effort and improve traceability.

## Education

---

**B.E. in Computer Science and Engineering** — Malnad College of Engineering

2020 – 2023

**Diploma in Computer Science and Engineering** — Govt. Polytechnic Mirle

2017 – 2020

## Training

---

**KodNest** — Java Full Stack Development (Web Development, SQL, Manual Testing)

Nov 2023 – Jul 2024
