SUMMARY

Junior Software Engineer with 2+ years of experience supporting U.S.-based software companies and remote product teams in building and improving modern SaaS web applications. Skilled in developing responsive frontend components using HTML, CSS, JavaScript, and React, implementing UI updates from mockups, contributing to bug fixes, and collaborating with senior engineers through code reviews and team design discussions. Known for curiosity, attention to detail, and clear communication in fast-paced development environments.

PROFESSIONAL EXPERIENCE

ArenaCloud Software LLC – San Mateo, California, USA (Remote)

Junior Software Engineer | Frontend & UI Development (March 2024 – Present)

- Developed and maintained frontend components for SaaS web applications using HTML, CSS, JavaScript, and React.
- Implemented UI enhancements based on design mockups and guidance from senior engineers.
- Contributed to bug fixes across application layers, improving usability and consistency.
- Participated in requirement discussions, code reviews, and team design sessions.
- Documented implementation changes clearly for maintainability and collaboration.

NorthBridge SaaS Systems – Austin, Texas, USA (Remote)

Frontend Developer Assistant | React & Web Application Support (January 2023 – February 2024)

- Assisted in translating prototypes into structured, maintainable frontend code under mentorship.
- Developed reusable React components and supported UI improvements.
- Supported troubleshooting, debugging, and simple unit testing for improved reliability.
- Collaborated with stakeholders to align frontend changes with product needs.

ClearPath Digital Products – Seattle, Washington, USA (Remote)

Junior Web Engineer | Frontend Features & Bug Fixes (June 2022 – December 2022)

- Implemented frontend updates and resolved UI-related issues across web platforms.
- Applied responsive design principles for consistent multi-device experiences.
- Assisted senior developers with documentation and release readiness tasks.
- Gained hands-on experience with Git workflows and engineering best practices.

EDUCATION

Bachelor of Science in Software Engineering – Zetech University, Kenya (Completed 2021)

TECHNICAL SKILLS

- Frontend: HTML, CSS, JavaScript (ES6+), Responsive Design
- Frameworks: React, component-based UI development
- Programming: Java, Object-Oriented Programming concepts
- Databases: SQL, relational database fundamentals
- Tools: Git, GitHub, VS Code
- Testing: Unit testing basics, debugging, QA support
- Collaboration: Code reviews, documentation, agile teamwork across U.S. time zones
