Summary

Recent Software Engineering graduate with hands-on experience in backend development, database design, and API development. Skilled in Java, Python, PHP, SQL, and modern web technologies. Proven ability to build RESTful services, implement Test Driven Development (TDD), and design complex data models. Strong communicator with leadership background and cross-functional team experience. Open to both remote and in-office Software Engineer opportunities.

Education

Henry Ford College, Dearborn, MI

Associate in Applied Science Degree, Computer Information Systems — GPA: 4.0

Graduated: Dec 2024

Bu-Ali Sina University, Hamedan, Iran

Bachelor of Science Degree, Software Engineering

Summer 2011

Technical Projects

- Developed a fully functional Java Web Service using Spring Boot and Gradle; created REST APIs for database interaction, with TDD and unit tests.
- Designed and implemented a gourmet store database using Oracle Data Modeler and Microsoft SQL Server Management Studio.
- Built a Python application to manage a baseball team roster (add, remove, edit player details).
- Created a responsive restaurant menu website using HTML, CSS, and PHP.
- Developed Ask & Answer website as a final university project (HTML, CSS, MySQL, PHP); received a score of 19.5/20.
- Participated in a backend team project for a life coach platform, integrating APIs with a mobile and desktop app using Symfony, PHP, Postman, and database connectors.
- Gained experience using GitLab and Microsoft Visual Studio Code for collaborative development.

Work Experience

Women Director, TV Talk Shows Section Manager

Rawafid Satellite Channel — Qom, Iran | 2013–2019

- Led content production and cross-functional team for talk show programs.
- Implemented strategies to enhance viewer engagement and program quality.
- Designed multimedia assets using Adobe Creative Suite to support broadcast programs.

Graphic Designer

Dua Satellite Channel — Qom, Iran | 2010–2013

- Designed graphics and multimedia content for various broadcast programs.
- Created engaging visual designs using Adobe Photoshop, Illustrator, Premiere, and After Effects.
