

Darsh Patel | Software Engineer

IL, USA | +1 (630) 394 4288 | darshpatel15092@gmail.com | [LinkedIn](#)

SUMMARY

Software Engineer with 4+ years of experience building scalable backend services, cloud-native applications, and production APIs across enterprise environments. Strong expertise in Python, Java, AWS, and CI/CD automation. Proven record of improving system performance, reducing infrastructure costs, and delivering reliable services in agile teams. Experienced in microservices architecture, cloud migrations, and performance optimization for high-availability systems.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript (ES6+), SQL

Backend & APIs: FastAPI, Django, Spring Boot, RESTful APIs, OAuth 2.0, JWT, Microservices Architecture

Cloud & DevOps: AWS (Lambda, EC2, S3), Docker, GitHub Actions, Jenkins, Terraform, CI/CD Pipelines

Databases: PostgreSQL, MS SQL Server, Oracle, MongoDB

Testing & Monitoring: PyTest, Selenium, Prometheus, Grafana

Frontend (Working Knowledge): React.js, HTML5, CSS3, Bootstrap

Tools & Platforms: Git, JIRA, Visual Studio, Eclipse

Methodologies: Agile/Scrum, System Design, Performance Optimization

PROFESSIONAL EXPERIENCE

Alphabet Inc, IL, USA

Dec 2024 - Present

Software Engineer

- Designed and developed modular backend services using Python and FastAPI, improving request throughput and reducing service latency by 35%.
- Refactored API layers to support OAuth 2.0 and JWT-based authentication, strengthening platform security and access control.
- Migrated legacy monolithic components to microservices architecture, improving horizontal scalability by 50% and enabling independent deployments.
- Systematized CI/CD pipelines using GitHub Actions, Docker, and Terraform, reducing release cycles by 45% and minimizing deployment errors.
- Optimized AWS infrastructure including Lambda, EC2, and S3, achieving a 30% reduction in cloud operating costs while maintaining performance SLAs.
- Implemented proactive monitoring and alerting using Prometheus and Grafana, maintaining 99.9% uptime across production services.
- Increased mechanized test coverage from 70% to 92% using PyTest, improving release confidence and reducing regression defects.
- Collaborated with product managers and QA teams in agile sprints, improving on-time feature delivery by 20%.

IBM Corporation, India

Jun 2021 - Jul 2022

Software Engineer

- Built and maintained full-stack applications using Django, React.js, and PostgreSQL, improving application response times by 30%.
- Developed and deployed 20+ RESTful APIs, reducing client-side load times by 25% and improving frontend-backend integration.
- Refactored legacy codebases into reusable modules, increasing code reuse by 60% and simplifying long-term maintenance.
- Optimized PostgreSQL queries for high-traffic workloads, reducing data retrieval time by 50% for applications serving over 10,000 users.
- Implemented CI pipelines using Jenkins, reducing production defects by 40% through computerized testing.
- Improved frontend performance by 40% through React lazy loading, bundle optimization, and Webpack tuning.
- Worked closely with cross-functional teams, maintaining 95%+ sprint goal completion across multiple releases.

Oracle Corporation, India

May 2020 - May 2021

Software Engineer

- Automated internal reporting workflows using Python, saving over 12 hours per week in manual effort.
- Built data validation and cleaning utilities using Pandas and NumPy, reducing processing errors by 50%.
- Developed GUI-based automation tools using Tkinter to streamline repetitive operational tasks.
- Created reusable Selenium test scripts, improving regression testing efficiency by 60%.
- Authored technical documentation and maintained internal knowledge bases, accelerating onboarding timelines by 25%.
- Designed and documented 10+ internal REST services, improving system integration and developer productivity.

EDUCATION

Master of Science Computer Science

Nov 2024

DePaul University, IL, USA

Bachelor of Technology Computer Engineering

May 2021

Ganpat University, India
