SUMMARY

- 4+ years of experience developing scalable applications using **C#, .NET Core, ASP.NET MVC, and Web API**.
- Strong front-end expertise with **Angular/React, JavaScript, TypeScript, HTML5, CSS3, Bootstrap**.
- Proficient in **REST API development**, microservices, and integrating business logic with **SQL Server & EF Core**.
- Experience with **Azure cloud services**, Git, and CI/CD pipelines in Agile environments.
- Strong knowledge of **OOP, SOLID principles, clean architecture**, and design patterns.
- Skilled in **unit testing, debugging, performance optimization**, and delivering high-quality, maintainable code.

TECHNICAL SKILLS

Programming	C#, .NET Core, ASP.NET MVC, Web API
Front-End	Angular / React, JavaScript, TypeScript, HTML5, CSS3, Bootstrap
Database	SQL Server, T-SQL, Stored Procedures, EF Core, LINQ
Cloud & DevOps	Azure (App Services, Functions), Git, CI/CD, Azure DevOps
Tools & Frameworks	Entity Framework, Microservices, REST APIs, Postman
Concepts	OOP, SOLID Principles, Clean Architecture, Design Patterns

PROFESSIONAL EXPERIENCE

.Net Fullstack Developer – United Airlines | USA

| Sep 2023- Present

- Developed and maintained **enterprise-grade airline applications** using **C#, .NET Core, ASP.NET MVC, and Web API**.
- Built **responsive, high-performance UIs** with **Angular/React, JavaScript, TypeScript, HTML5, CSS3, and Bootstrap** for crew, flight, and customer-facing tools.
- Designed and integrated **RESTful APIs and microservices**, enabling smooth communication between flight operations, booking systems, and backend services.
- Improved system performance by optimizing **SQL Server queries, stored procedures, indexing**, and implementing efficient **EF Core** data access patterns.
- Utilized **Azure services** (App Services, Functions, Storage, Key Vault) to deploy secure, scalable applications supporting high traffic operations.
- Participated in **Agile/Scrum ceremonies**, performed code reviews, and ensured quality delivery through **Git & Azure DevOps CI/CD pipelines**.
- Collaborated with cross-functional teams to troubleshoot production issues, enhance system reliability, and ensure smooth airline operational workflows.

.Net Full stack Developer – TCS | INDIA

| Aug 2019 – Feb 2022

- Developed and enhanced web applications using **C#, .NET Core, ASP.NET MVC, and Web API** for enterprise clients.
- Built **interactive and responsive UIs** with **Angular/React, JavaScript, TypeScript, HTML5, CSS3, and Bootstrap**.
- Created and integrated **RESTful APIs**, ensuring smooth communication between front-end and backend systems.
- Worked with **SQL Server** to write queries, stored procedures, and perform basic database optimization.
- Utilized **Entity Framework / EF Core** for data access and maintained clean, modular code using **OOP & SOLID principles**.
- Followed **Agile Scrum** practices, participated in daily standups, sprint planning, and code reviews.
- Collaborated with team leads and onsite stakeholders for requirement gathering, testing, and production support.

EDUCATION & CERTIFICATIONS

Master's in information Technology | Campbellsville university

2024

BACHELORS IN COMPUTER SCIENCE | GURUNANAK UNIVERSITY |

2021
