SUMMARY

Supply Chain Analyst with 3+ years of experience optimizing **demand forecasting, procurement strategy, and logistics operations** across global supply networks. Proficient in leveraging **Python, SQL, Power BI, and SAP (MM, PP, IBP)** to deliver data-driven insights, improve forecast accuracy, and enhance end-to-end supply chain visibility. Accomplished in driving **cost reduction, process automation, and supplier performance improvement** through **Lean Six Sigma, S&OP alignment, and continuous improvement initiatives** across diverse industries.

SKILLS

Supply Chain & Operations: Demand Forecasting, Inventory Optimization, Procurement Strategy, S&OP, Supplier Relationship Management (SRM), Production Scheduling, Capacity Planning, Order Fulfillment, Distribution & Logistics Optimization

Analytics & BI Tools: SQL, Python (Pandas, NumPy, scikit-learn), Power BI, Tableau, Advanced Excel (Solver, Power Query), KPI Dashboarding, Predictive Analytics, Root Cause Analysis, Statistical Modeling

ERP & SCM Systems: SAP (MM, PP, APO, IBP), Oracle SCM Cloud, Kinaxis RapidResponse, Coupa, Blue Yonder (JDA), NetSuite, MRP Automation, ERP Data Integration

Logistics & Vendor Management: Global Sourcing, 3PL Coordination, Freight Optimization, TMS, Incoterms Compliance, Supplier Evaluation, Procurement Analytics, Contract Management

Process Optimization & Continuous Improvement: Lean Six Sigma (DMAIC, Kaizen), Value Stream Mapping (VSM), Cost Reduction, Workflow Automation, Performance Metrics (OTIF, Fill Rate, Inventory Turns)

Business Competencies: Cross-Functional Collaboration, Analytical Problem Solving, Stakeholder Communication, Change Management, Agile Project Execution, Data-Driven Decision-Making

EXPERIENCE

Supply Chain Analyst | Wayfair | USA **Feb 2025 – Present**

- Spearheaded **end-to-end demand forecasting and inventory optimization initiatives** using **Python (Pandas, NumPy)** and **SAP IBP**, enhancing **forecast accuracy by 17%**, reducing **stockouts**, and improving **fill rates** across multiple fulfillment centers.
- Designed and automated **Power BI dashboards and SQL-based reporting pipelines** to monitor **KPI performance (OTIF, Inventory Turns, Backorder %, Service Level)** — enabling **data-driven decision-making** and improving visibility across **distribution and logistics networks**.
- Partnered with **3PL providers, warehouse operations, and freight carriers** to drive **transportation cost reduction and route optimization**, leveraging **logistics analytics, Incoterms compliance, and transportation management systems (TMS)** to achieve a **12% cost improvement**.
- Led a **supplier relationship management (SRM) transformation project** integrating **SAP MM and procurement analytics**, establishing standardized **supplier scorecards, contract tracking, and compliance metrics**, which improved supplier reliability by **22%**.
- Collaborated cross-functionally with **procurement, S&OP, and finance teams** to align **production schedules, demand plans, and replenishment strategies**, resulting in improved **supply-demand balancing** and a **20% improvement in forecast adherence**.
- Applied **Lean Six Sigma (DMAIC)** and **continuous improvement frameworks (Kaizen, VSM)** to streamline **order-to-delivery workflows**, reduce **cycle time by 3 days**, and enhance **customer satisfaction and fulfillment KPIs**.

Supply Chain Analyst | Intex Technologies | India **Sep 2020 - Jul 2023**

- Orchestrated global sourcing and procurement strategy across multi-tier suppliers and OEMs, leveraging **ERP (SAP MM, Oracle SCM Cloud)** and **contract management analytics** to achieve an **8% reduction** in raw material procurement **costs** and ensure vendor compliance.
- Implemented automated **MRP planning** and production scheduling systems through **SAP (PP & APO)**, enhancing **inventory visibility, safety stock levels**, and improving working capital efficiency by **15%** across multiple manufacturing plants.
- Developed predictive **demand forecasting models** using **Python (scikit-learn)**, **Excel Solver**, and **time-series regression**, reducing **forecast bias** and cutting **excess inventory by 10%** across product lines during seasonal demand fluctuations.
- Created interactive **Tableau dashboards** and **SQL-driven** analytics workflows to monitor **procurement lead times, supplier fill rates, and logistics KPIs**, accelerating **root-cause analysis** and decision-making for operations leaders.
- Collaborated with **production planning, logistics, and distribution teams** to synchronize **capacity planning, order fulfillment, and warehouse operations**, achieving **95%+ OTIF** delivery performance and optimized distribution center utilization.
- Conducted **supplier qualification, SRM audits, and quality benchmarking** using **Coupa, Blue Yonder, and internal ERP data**, improving supplier responsiveness and reducing order lead time variability.
- Championed process optimization and cost reduction initiatives using **Lean Six Sigma (Green Belt techniques)**, **Value Stream Mapping (VSM)**, and **root-cause analysis**, driving **15% efficiency gains** and ensuring ISO 9001 operational compliance.

EDUCATION

Masters in Information Systems Technology | Wilmington University, USA **May 2025**

CERTIFICATION

- Microsoft Certified: Power BI Data Analyst Associate
- Lean Six Sigma Green Belt
