

Lokesh Varma

Supply Chain Analyst

+1 9189812030 | lokesh.v@mailjobhub.com | Texas, USA

Summary

- 4+ years of experience as a Supply Chain Analyst, specializing in inventory planning, demand forecasting, and data analysis to optimize supply chain operations and drive continuous improvement.
- Expertise in requirement gathering, implementation, and maintenance of supply chain solutions, with practical experience in Agile, Waterfall, and Six Sigma methodologies to deliver process improvements.
- Proficient in end-to-end process integration for Supply Chain Management including Raw Material Sourcing, Procurement, Production Planning, Finished Goods, Inventory Management, Order fulfillment, Delivery Processing, Returns Management, and Invoice Verification.
- Leveraged historical sales data and market trends to accurately create demand forecasts, enabling optimized production planning and inventory management and reporting using Advanced Excel functions like VBA and Macros.

Education

Masters in Information Technology Project Management

Indiana Wesleyan University, IN, USA.

Jun 2023 - Dec 2024

Technical Skills

- **Methodologies:** Agile, Waterfall, Just-in-Time (JIT), 5S, Value Stream Mapping, Root Cause Analysis, Lean Six Sigma Green Belt (5-Why, Fishbone Diagram), Failure Mode and Effects Analysis (DFMEA, PFMEA)
- **Program/ Software:** Advanced Excel (Pivot Tables, VLOOKUP, VBA/Macros), Power BI, Tableau, SAP, Ariba, Looker, MS Project
- **Analysis:** KPI Management & Reporting, Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, Economic Order Quantity (EOQ), Safety Stock Calculation, S&OP (Sales & Operations Planning), Cycle Time Analysis, ABC/XYZ Analysis
- **Managerial Skills:** Project Management, Demand Forecasting, Inventory Management, Procurement & Supplier Management, Risk Control Management, Continuous Process Improvement, Warehouse & Supply Chain Optimization.

Work Experience

Kroger (Remote) | Supply Chain Analyst

Aug 2024 – Present

- Led the successful implementation of the Six Sigma DMAIC methodology to analyze and optimize warehouse picking operations, resulting in increase in picking efficiency and reduction in picking errors.
- Maintain manufacturing Bill of Material (BOM) accuracy and report discrepancies to the Planner supervisor and Department Supervisor/Manager.
- Records and maintains purchase order receipt in Supply Chain system.
- Accelerated decision-making by leveraging interactive dashboards in Microsoft Excel and Power BI, powered by VBA and Macro, to provide real-time visibility into supply chain metrics and support efficient inventory allocation and order fulfillment.
- Conducted root-cause analysis for stock outs using SAP PP/SD data, reducing stock outs.
- Developed Tableau supply chain KPIs (fill rate, OTIF, DOH), enabling faster decision-making
- Resolved supply chain issues by partnering with Quality, Engineering, and Purchasing to address supplier and material concerns and was able to increase supplier and sub-tier output.

Zensar Technologies, India | Supply Chain Analyst – II

Jun 2021 – Dec 2022

- Streamlined data analysis efficiency through optimized SQL queries and data mining techniques, enabling faster report generation and supporting decision-making.
- Utilized data analytics to identify trends, optimize material planning parameters, and enhance forecast accuracy.
- Created executive Tableau dashboards integrating SAP MM/PP data, adopted by CXO team.
- Coordinate activities responsible for driving supplier performance including Supply Chain (buyers and category managers), Design Engineering, and Supplier Quality Oversight.
- Monitor key supplier performance metrics (On-Time Delivery, Quality issues, etc.) for assigned suppliers to proactively identify performance trends and implement causal analysis, corrective actions, and Supplier Improvement Plans to mitigate issue.
- Established interactive dashboards in Power BI to visualize key supply chain metrics, enabling improvement in decision-making speed for inventory allocation and order fulfillment.

Sage Softtech, India | Supply Chain Analyst - I

May 2020 – May 2021

- Directed a comprehensive analysis of supply chain performance metrics, identified key areas for improvement, and utilized strategies that resulted in a reduction in overall supply chain costs.
- Streamlined logistics and transportation processes by organizing and communicating with relevant departments, reducing delivery times and improving customer satisfaction.
- Integrated Power BI with SAP and Excel-based data sources. Developed SQL pipelines pulling SAP data into Tableau dashboards.
- Analyzed historical sales data and market trends to identify a significant mismatch between supply and demand.
- Conducted rigorous supplier performance evaluations to identify areas for improvement, and implemented targeted corrective actions to enhance product quality and on-time delivery.
- Executed order management system to streamline processes and reduce order processing time.
