SUMMARY

Detail-oriented analyst with expertise in SAP S/4HANA, Excel, and data visualization tools. Adept at supporting procurement, inventory, and maintenance processes through SAP MM/SD workflows and analytics dashboards.

SKILLS

- Data Analysis & Visualization:** Excel (Pivot Tables, Power Query, Data Modeling, VLOOKUP, Macros), SQL (PostgreSQL, MySQL), Python (Pandas, NumPy, Matplotlib, Seaborn), Tableau, Power BI (DAX, Power Pivot), ETL
- Supply Chain Management:** Inventory Optimization, Procure-to-Pay (P2P), Order-to-Cash (O2C), Vendor Management, Warehouse Management, Material Requirements Planning (MRP), Lean Principles, Demand Planning, Supplier Scorecards, 3PL Coordination
- SAP ERP Expertise:** SAP S/4HANA (MM, SD, FI modules), SAP Fiori, Material Master & Vendor Master Data Management, Purchase Order & Invoice Processing, Batch Management, Bill of Materials (BOM), SAP Configuration & Testing (UAT), Master Data Management (MDM), Pricing, Billing, Goods Movement, Reporting & Analytics (SAC)
- Project & Process Management:** Microsoft Office Suite, JIRA, SharePoint, Agile Methodologies (Scrum, Kanban), Requirements Gathering, Traceability Matrix (RTM), User Training & Documentation, Continuous Improvement Initiatives
- Forecasting & Planning:** Demand Forecasting & Planning, Inventory Optimization, Material Requirements Planning (MRP), Safety Stock Calculation, Reorder Point Planning, Capacity Planning, S&OP Support, Preventive Maintenance Planning

EXPERIENCE

Wesco Distribution, United States Jan 2024 – July 2025

Supply Chain Data Analyst

- Optimized inventory operations across 10 distribution centers managing 30,000+ electrical SKUs, reducing stockouts by 18% through efficient SAP MM workflows.
- Configured and maintained Material Master (MM01/MM02) and Vendor Master data in SAP S/4HANA, ensuring accurate procurement and production operations.
- Streamlined Procure-to-Pay (P2P) processes by managing purchase orders (ME21N), goods receipts (MIGO), and invoice verifications (MIRO), improving data accuracy and cutting lead times by 15%.
- Developed dashboards in SAP Analytics Cloud (SAC) and Power BI to monitor KPIs such as inventory turnover, demand forecast accuracy, and supplier performance, enabling a 22% improvement in supply chain visibility.
- Led month-end closing activities in SAP (MMPV postings, goods issue adjustments), ensuring accurate financial and inventory reconciliations across warehouses.
- Collaborated with cross-functional teams to resolve 30+ SAP MM issues via JIRA, improving system performance and data quality for seamless procurement and warehouse workflows.

Tata Consultancy Services, India Feb 2021 – Jul 2022

Supply Chain Insights Analyst

- Supported SAP S/4HANA MM data migration for 50,000+ fleet vehicles and 1,200+ SKUs of automotive parts and consumables, improving material and vendor master data accuracy by 25% across North American rental operations.
- Configured and maintained Purchasing Info Records, Source Lists, and MRP settings to streamline procurement and automate replenishment of high-demand spare parts for service centers.
- Assisted in optimizing Order-to-Cash (O2C) workflows in SAP SD, including sales order creation, fleet movement processing, and customer billing, reducing manual processing errors by 15%.
- Designed SAP vendor performance dashboards and scorecards to monitor supplier KPIs such as on-time delivery and parts quality, helping procurement teams improve vendor compliance and negotiate cost savings.
- Validated and updated Bills of Materials (BoM) for multiple vehicle models to support preventive maintenance planning and reduce fleet downtime by 10%.

Matellio Pvt. Ltd., India Jan 2020 – Jan 2021

Operations Analyst

- Provided support in SAP S/4HANA MM by entering and updating Material and Vendor Master Data, ensuring accuracy for procurement and inventory processes.
- Performed basic SAP transactions such as creating purchase requisitions, verifying stock levels, and assisting with purchase order workflows under senior analyst supervision.
- Analyzed spend data using Excel (Pivot Tables, VLOOKUP) to identify cost-saving opportunities and support procurement strategy improvements.
- Monitored daily SAP reports to flag inconsistencies in material movements and assisted in resolving routine master data issues.

EDUCATION

Master of Science in Business Analytics | Clark University, Worcester, US Aug 2022 – Dec 2023

Bachelor of Science in Computer Science | Mumbai University, Mumbai, India Jul 2017 – Mar 2020

CERTIFICATIONS

- Data Visualization with Tableau by University of California, Davis

ACADEMIC PROJECT

AI-Powered Demand Forecasting & Inventory Optimization

- Built machine learning models using Python (scikit-learn) and SQL to forecast product demand, helping reduce stockouts and excess inventory.
- Designed interactive Tableau dashboards to visualize demand trends, inventory turnover, and SKU performance for improved supply planning

Sales Data Analysis Dashboard

- Analyzed 12 months of sales data from a local business using Python (pandas), Excel (Pivot Tables, VLOOKUP) to identify revenue trends, seasonal patterns, and customer behavior.
- Designed an interactive Tableau dashboard to visualize KPIs such as monthly sales, product performance, and regional growth insights.
