

Bhuvan Chand Supply Chain Analyst

+1 (660) 528-9114 | bhuvan.c@cvmilhub.com | TX, USA.

SUMMARY

Supply Chain Analyst with nearly 4 years of experience in inventory planning, demand forecasting, and end-to-end supply chain operations. Skilled in reducing costs and improving efficiency through data-driven process improvements under Agile, Waterfall, and Lean Six Sigma frameworks. Experienced in managing the full supply chain cycle, including procurement, production planning, inventory control, distribution, and reverse logistics. Adept at using historical sales data and market insights to build accurate forecasts and optimize production schedules. Proficient in Excel (VBA, Macros), SAP, and business intelligence tools to design performance dashboards and provide actionable insights for informed decision-making.

WORK EXPERIENCE

Wayfair, TX

Jul 2024 – Current

Supply Chain Analyst

- Analyzed inventory data using Python, SAP ERP, and HANA to classify SKUs (ABC/XYZ), reducing excess stock by 15% and improving turnover by 12%.
- Validated process improvements for supplier delivery and inventory levels through hypothesis testing and KPI analysis.
- Implemented EOQ and JIT strategies for high-demand products, cutting carrying costs by \$200,000 annually while meeting service-level targets.
- Led root cause analysis (5-Why, Fishbone) for recurring stockouts and delays, increasing on-time order fulfillment by 20%.
- Optimized warehouse layout and supply chain flow using Value Stream Mapping, boosting pick-pack efficiency by 18% and reducing lead times by 10%.
- Proactively identified procurement and warehouse risks with DFMEA, mitigating potential supplier and process failures.
- Collaborated with sales, marketing, and operations teams to refine demand forecasting, increasing forecast accuracy and lowering inventory holding costs by 25%.
- Coordinated cross-functional risk management and contingency planning initiatives, reducing overall supply chain disruptions by 30% and improving supply continuity.

Mahindra Logistics, India

July 2020 – May 2023

Supply Chain Analyst

- Evaluated historical demand and sales data using SAP, Excel, and SQL Server to develop accurate demand forecasts, reducing stockouts by 15% and improving production planning efficiency.
- Created interactive dashboards in Tableau to monitor inventory levels, supplier performance, and procurement metrics, enabling leadership to identify bottlenecks and reduce reporting time by 35%.
- Implemented Safety Stock calculations and SOP processes, optimizing inventory levels across multiple product lines and achieving a 12% reduction in excess stock without affecting service levels.
- Leveraged PFMEA (Process Failure Mode and Effects Analysis) to identify potential risks in procurement and production processes, preventing quality and delivery issues before they occur.
- Managed procurement and supplier relationships, leveraging ERP and SQL Server to track purchase orders, negotiate lead times, and ensure timely deliveries, reducing supplier-related delays by 10%.
- Supported project management initiatives by monitoring key milestones, resource allocation, and process improvement tasks, ensuring the timely completion of cross-functional supply chain projects.
- Utilized SAP reporting tools to generate and monitor key performance indicators (KPIs), supporting performance tracking across procurement, logistics, and inventory functions.

EDUCATION

Masters in information Technology Project Management

Indiana Wesleyan University, IN, USA.

June 2023 - Dec 2024

SKILLS

- **Methodologies:** Lean Six Sigma Green Belt, Agile, Just-in-Time (JIT), 5S, Value Stream Mapping, Root Cause Analysis (5-Why, Fishbone Diagram), Failure Mode and Effects Analysis (DFMEA, PFMEA),
- **Program/ Software:** Advanced Excel (Pivot Tables, VLOOKUP, VBA/Macros), Power BI, Tableau, SAP, Ariba, Looker, MS Project, MS Office, Anaplan, Kinaxis Rapid Response, ERP
- **Analysis:** KPI Management & Reporting, Regression Analysis, Hypothesis Testing, Economic Order Quantity (EOQ), Safety Stock Calculation, S&OP (Sales & Operations Planning), OTIF, Cycle Time Analysis, ABC/XYZ Analysis
- **Managerial Skills:** Project Management, Demand Forecasting, Inventory Management, Procurement & Supplier Management, Risk Control Management, Continuous Process Improvement, Warehouse & Supply Chain Optimization.
- **Database:** MS SQL Server, MySQL, NoSQL, PostgreSQL
