SUMMARY

7 years supply Chain experience for optimizing supply chain operations, reducing costs, and improving efficiency. Proven expertise in Supply Chain Operation, Inventory Management, Demand Planning, and Continuous Improvement. Strong leadership abilities with a track record of building and managing high-performing teams.

PROFESSIONAL SKILLS

Supply Chain Optimization, Inventory Management, Demand Planning, Cost Reduction, Process Improvement, Data Analysis, Team Leadership, Risk Management, Continuous Improvement, Six Sigma, ERP Systems.

WORK EXPERIENCE

Inventory Control Analyst – Ampere Computing Jun 2025 – Current

- Own and optimize end-to-end inventory and demand planning strategies for components and finished goods, directly supporting S&OP alignment and organizational goals.
- Lead analysis of inventory levels and demand patterns to generate accurate forecasts, identify trends, and develop mitigation strategies for E&O inventory, utilizing large data sets for scenario modeling.
- Manage full lifecycle logistics operations, including order management, warehousing, distribution, and 3PL coordination, ensuring seamless fulfillment and inventory flow.
- Administer and optimize supply chain systems (ERP & WMS) for demand planning, supply planning, order management, allocations, and fulfillment.
- Coordinate with global cross-functional stakeholders across Planning, Supply Chain, Sales, and external suppliers to resolve bottlenecks, align on forecasts, and execute strategic initiatives.
- Present findings and influence management on inventory strategies and process changes; recognized with two company-wide "Dream Team Awards" for driving impactful, cross-functional solutions.

Supply Chain Manager - Sunsong North America Jun 2022 – Jun 2025

- Oversee end-to-end operations, including procurement, logistics, inventory management. Monitored and optimized inventory levels which successfully increased the inventory turnover ratio from 1.1 to 2.
- Provided strategic leadership within the department, enhancing communication, problem-solving, and decision-making processes to align with and achieve overall organizational goals.
- Conducted comprehensive analyses of customer demand and sales interactions, establishing stock plans, and developing material plans for components with long lead times, resulting in a 20% total lead time reduction and maintain order fill rate at 95%+ over 2 years.
- Managed and refined procurement processes and systems, implementing risk management strategies to ensure the integrity and efficiency of critical procurement activities, achieved 4% annually cost savings.

Supply Chain Analyst - Sunsong North America Aug 2019 – Jun 2022

- Coordinated with production and sales teams to align supply chain strategies with business objectives.
- Improved demand forecasting accuracy by 7% through advanced data modeling techniques.
- Led Lean Six Sigma projects, reducing waste and improving operational efficiency.

EDUCATION

University of Dayton
