SUMMARY

Regulatory Affairs professional with 3+ years of experience supporting U.S. FDA and international medical device compliance. Proven expertise in global product and establishment registrations, regulatory submissions, change control assessment, and lifecycle regulatory strategy. Strong collaborator with cross-functional teams and distributors to ensure compliant market access, inspection readiness, and adherence to ISO 13485 and EU MDR requirements.

EXPERIENCE

Regulatory Affairs Specialist | Neutron Therapeutics

Boston, MA | *Jan 2025 – June 2025*

- Provided regulatory input and guidance by developing the FDA regulatory roadmap for a Class III BNCT combination product, recommending PMA (device) and IND (BPA-F) submission strategies per 21 CFR and FDA regulations
- Led the remediation of 15+ nonconformities from MDSAP audit findings, coordinating corrective actions (CAPA) related to design controls and document management per ISO 13485:2016 and 21 CFR Part 820
- Initiated, managed, and maintained global medical device registrations, ensuring timely approvals
- Supported regulatory strategy development and provided regulatory input across the product lifecycle, assessing compliance risks, product feasibility, and alignment with global market requirements.
- Collaborated with subsidiary offices, distributors, and cross-functional teams to provide regulatory guidance on product registrations, compliance requirements, and product availability in domestic and international markets.
- Conducted gap analyses comparing regulatory outcomes to initial product concepts, recommending corrective or strategic actions to support compliance and future submissions

Regulatory Affairs Specialist | Healios Labs.

NJ, USA | *July 2024 – Dec 2024*

- Coordinated and prepared the document package for an NDA submission, compiling all required materials for U.S. and international registrations, ensuring compliance with FDA and ICH CTD requirements
- Determined and communicated regulatory submission pathways, approval requirements, and timelines to internal stakeholders
- Participated in risk-benefit assessments to ensure regulatory compliance while supporting product innovation and market needs
- Reviewed and assessed the acceptability of quality, preclinical, and clinical documentation for regulatory submissions and filings
- Compiled, prepared, reviewed, and submitted regulatory filings, ensuring accuracy, completeness, and compliance

Regulatory Affairs Specialist | Analog Labs

AP India | *Mar 2021 – Aug 2023*

- Assisted with post-market regulatory compliance, including reporting obligations, renewals, and ongoing market surveillance
- Authored, compiled, and submitted international regulatory filings, including Technical Documentation, Premarket Notifications, supplements, change notifications, and global product registrations, ensuring accuracy, completeness, and on-time approvals
- Supported preparation of regulatory compliance reports and audit documentation
- Coordinated cross-functional teams to resolve FDA queries and Refuse to File (RTF) notices, assess the regulatory impact of changes, and implement effective CAPAs from root cause analyses, maintaining regulatory compliance and audit readiness

EDUCATION

M.S. in Drug Regulatory Affairs

Northeastern University, Boston, MA | *June 2025*

Bachelor of Pharmacy

Sri Vasavi Institute of Pharmacy, AP, India | *Aug 2021*
