SUMMARY

Veeva Vault Consultant with experience in the Life Sciences domain, specializing in Veeva Vault RIM. Proven expertise in system administration, configuration, and support of Veeva Vault application within GxP regulated environments. Experienced in Vault configuration, DAC design, security models, DevOps release, workflow enhancements, and partnering closely with Regulatory Affairs, Regulatory Operations, and IT to optimize business processes. Skilled in collaborating with teams and vendors to deliver tailored solutions. Strong communicator with a proactive, solution-oriented approach to problem-solving.

EXPERIENCE

Veeva Consultant I (ROCHE)

May 2024 - Nov 2025

- Designed, configured, and supported Veeva Vault environments for RIM ensuring compliance with FDA 21 CFR Part 11 and Annex 11 standards in GxP-regulated life sciences settings.
- Managed Veeva Vault RIM environments supporting global regulatory operations, including submissions, publishing, registrations, and archival in compliance with ICH and eCTD standards.
- Experienced in analyzing and optimizing regulatory workflows, supporting submission readiness, structured data standards, and continuous improvements within Veeva RIM.
- Handled user access management and bulk provisioning of role setups for 400+ users during major releases, implementing 400,000+ user role setup changes to maintain accurate access control per security profiles and regulatory requirements.
- Developed a simplified DAC workbook aligned with business master DAC logic, reducing access review time by 30%, and conducted walkthroughs with the team during 3+ release cycles to ensure proper user role assignments.
- Updated and maintained Content Plan Templates within Veeva Vault RIM to streamline publishing and regulatory submission readiness.
- Executed RIM configuration changes, including updates to permission sets, lifecycles, and workflows as part of DevOps releases.
- Conducted impact assessments for Veeva Vault RIM across general releases to ensure application stability, data integrity, and regulatory compliance.
- Supported Veeva Vault major releases by managing data loads, performing remediation activities, and coordinating with Veeva and IT to resolve pre- and post-release issues.

Data Analyst (UJR TECH - ROCHE)

Feb 2021 - Dec 2023

- Supported day-to-day Veeva Vault operations, including RIM Submissions and document lifecycle management.
 - Configured and maintained workflow actions, sharing rules, and security models to preserve data integrity and enforce controlled access.
 - Provided functional support to business users by proactively managing and resolving 1,000+ incidents, 300 service tasks, and 200 change requests (CRs) in alignment with SLAs.
 - Assisted with document migrations and remediation via Vault Loader and FTP, ensuring data consistency across environments.
 - Supported end-to-end submission and registration activities, ensuring accurate tracking, validation, and compliance with eCTD and regional Health Authority requirements.
 - Created and updated SOPs, technical operating procedures, and standard change templates, improving process consistency and audit traceability.
 - Supported UAT planning, including test script creation, execution, defect logging, and cross-team coordination for issue resolution.
 - Monitored and validated document security, lifecycle state transitions, and user access controls to ensure compliance with security policies.
 - Ensured document compliance, security verifications, access monitoring, and lifecycle state validation across regulated repositories.
 - Utilized Veeva Vault and HP ALM for project tracking, documentation management, and compliance reporting.
-

SKILLS

- **Veeva Vault:** Vault RIM, Veeva QMS, Veeva Clinical, FileZilla
 - **Risk & Compliance:** GxP, 21 CFR Part 11, Annex 11, Computer Systems Validation (CSV)
 - **Productivity Tools:** MS Office Suits (Excel advanced, PowerPoint executive reports)
 - **Data & Reporting:** SQL, Python, Power BI, Tableau, Qlik, ETL scripting
 - **Cloud Platforms:** AWS, Azure ML, Google Cloud
 - **Tools & Concepts:** Agile/Scrum, Service Now, Jira, DevOps, Audit Readiness, Validation, Release Management
-

CERTIFICATIONS

- Salesforce Certified Associate
 - Salesforce Certified Administrator
 - Salesforce Certified Platform Developer I
 - Microsoft Power BI
 - Microsoft Office Suite
-

EDUCATION

Master of Science in Computer Science - GPA(3.87)

Aug 2023 – May 2025

Fitchburg State University, USA
