PROFESSIONAL SUMMARY

Analytical Supply Chain Analyst with 4+ years of experience leveraging data-driven insights to optimize end-to-end supply chain operations. Expert in Demand Planning, Inventory Management, and Remote Collaboration within matrixed organizations like Chick-fil-A and The Home Depot. Proven track record of developing Power BI dashboards and Excel models that minimize wastage, improve forecast accuracy, and streamline stakeholder communication. BBA in Management Information Systems with a concentration in Data Analytics.

TECHNICAL SKILLS & CORE COMPETENCIES

- Supply Chain Operations: Demand Forecasting, S&OP Participation, Safety Stock Optimization, Lead-Time Analysis.
 - Data Analytics: Power BI (Advanced), SQL, Expert Excel (VBA, Macros, Power Query), Data Visualization.
 - Inventory Management: ABC Categorization, Wastage Reduction, Reorder Point Tuning, Inventory Accuracy.
 - Systems: Oracle NetSuite, SAP, Google Workspace, Microsoft Teams (Remote Collaboration Expert).
-

PROFESSIONAL EXPERIENCE

Chick-fil-A – Atlanta, GA Supply Chain & Demand Planning Analyst | May 2023 – December 2025

- Demand Planning & Operations: Lead end-to-end supply planning for regional manufacturing hubs, ensuring optimal stock levels for high-velocity goods while reducing wastage by 15%.
- Analytical Insights: Utilize Power BI to interpret complex supply chain data, deriving actionable insights that improved regional forecast accuracy and replenishment efficiency.
- Inventory Management: Monitor and maintain inventory parameters (Safety Stock, Reorder Points) within NetSuite, ensuring smooth processes and minimizing stockouts across the network.

- Stakeholder Communication: Facilitate effective communication between manufacturing partners and corporate leadership to resolve supply bottlenecks and implement best practices for process optimization.

The Home Depot – Alpharetta, GA Inventory Systems & Logistics Analyst | January 2022 – December 2022

- Process Optimization: Identified inefficiencies in the digital fulfillment supply chain, implementing data-backed solutions that enhanced on-time delivery performance.
- Data Analysis: Analyzed large datasets to track supplier performance and inventory turns, providing executive-level summaries to drive procurement and planning decisions.
- Cross-Functional Collaboration: Partnered with Merchandising and Finance teams in a remote/hybrid environment to ensure inventory alignment with seasonal demand shifts.

Coyote Logistics – Alpharetta, GA Logistics Operations Specialist | May 2021 – July 2021

- Operational Support: Supported end-to-end logistics processes, coordinating with carriers to ensure efficient freight movement and real-time shipment visibility.
- Problem Solving: Proactively identified transit risks and maintained constant communication with stakeholders to ensure service level agreements were met.

EDUCATION

Georgia College & State University – Milledgeville, GA Bachelor of Business Administration in Management Information Systems Concentration: Data Analytics
