

Dylan Dunsheath

Full-Stack Developer

• Fair Lawn, NJ • (201) 233-4182 • dunsheathdylan@gmail.com • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Collaborative Full-Stack Developer specializing in building responsive, high-performance web applications with Angular and React. Proficient in JavaScript (ES6+), TypeScript, HTML5, and CSS3, with backend experience developing scalable RESTful APIs using Spring Boot and familiarity with Node.js. Experienced in Agile team environments, utilizing Git for version control and Jira/Trello for project tracking and sprint management to ensure efficient collaboration and on-time project delivery.

TECHNICAL SKILLS

- **Languages:** Python, C++, C, Java, Bash, JavaScript (ES6+), TypeScript
- **Frontend:** HTML5, CSS3, React, Next.js, Angular (15+), Material UI
- **Backend:** Node.js, Deno, Spring Boot, PHP
- **Databases:** MongoDB, MySQL
- **Testing and QA:** Jest, Playwright
- **Tools and Platforms:** Linux, Git/GitHub, Docker, Azure, Swagger, Maven, Jira/Trello

WORK EXPERIENCE

Full-Stack Developer Internship Feb 2025 - May 2025

Actor's Pocket Guide

- Developed and maintained a dynamic, web-based Learning Management System (LMS) utilizing **Angular**, **TypeScript**, **HTML5**, and **Modular CSS** to build an intuitive and accessible user interface
- Partnered with a cross-functional team and project sponsors to transform **user stories** and **wireframes** into a **fully functional web application**
- Engineered and integrated RESTful APIs built with **Spring Boot** and **MySQL** to centralize theater course materials, directly improving application scalability and usability for end-users
- Streamlined media management by implementing **Azure Blob Storage** solution integrated with **MySQL**, directly enabling a more dynamic learning experience
- Enhanced the LMS homepage by embedding **YouTube videos**, transforming static content into interactive multimedia experiences that drove measurable increases in learner engagement
- Supported **agile ceremonies** (code reviews, backlog grooming, stand-ups), aiding in a **10% improvement** in the team's on-time delivery

PROJECTS

AI-Powered Resume Analyzer - Developer Nov 2024 - Dec 2024

- Collaborated within a cross-functional team to create a full-stack web platform using **Next.js**, **React**, and **TypeScript** to analyze resumes and job descriptions in real time
- Developed backend services with **Deno** and **TypeScript**, leveraging **OpenAI** for NLP-based resume analysis
- Implemented comprehensive testing pipelines with **Jest**, **Deno/TypeScript**, and **Playwright**, achieving over **90% test coverage** to guarantee platform stability across all user workflows

EDUCATION

Bachelor of Science, Computer Science Sep 2021 - May 2025

New Jersey Institute of Technology Newark, NJ

- Coursework: Intensive Programming in Linux, Database System Design and Management, Internet Applications, Advanced Database Systems, Guided Design in Software Engineering, Computer Science Project

Associate of Science, Computer Science Sep 2018 - May 2021

Bergen Community College Paramus, NJ
