PROFESSIONAL SUMMARY

Data & Procurement Analytics professional with 8+ years driving end-to-end **spend analytics, procurement insights**, and **business intelligence** across global programs at Accenture, RobobAI, and GEP. Expert in **SQL Server, Power BI, Advanced Excel, SAP data analysis**, and ETL (**Alteryx, Talend**); experienced with **Microsoft Copilot** for analytics automation. Proven record delivering high-quality implementations, diagnostics, and refresh projects, improving data quality, visibility, and decision velocity. Recognized with multiple performance awards; currently expanding automation and modeling skills in **Python**.

CORE SKILLS / KEY COMPETENCIES

- Spend & Procurement Analytics (P2P, indirect/direct, Pcard, NonPO)
 - SAP data extraction & analysis; UNSPSC taxonomy customization
 - Data Modeling, Classification, Vendor Normalization & Enrichment (VNE)
 - ETL & Automation: **Alteryx, Talend**, SQL-based pipelines
 - BI Development & Visualization: **Power BI**, Smart by GEP (Insights, VisionDashboard)
 - SQL Server (DML/DDI, joins, aggregates); Data Profiling & QA tollgates
 - Advanced Excel (Pivot, INDEX/MATCH, text functions, conditional logic)
 - Opportunity Assessment (OA) reporting; Risk Analysis (contractor/country)
 - Stakeholder engagement, client training, PMO documentation, QA & governance
 - Microsoft Copilot for diagnostics/refresh automation; Python for data processing
 - Dashboard automation; perception review & feedback loop integration
 - Cross-functional delivery across 100+ industry contexts; global team collaboration
-

PROFESSIONAL EXPERIENCE

I&F Decision Science Practitioner — Senior Analyst, Accenture · Nov 2024 – Present
(Pune, India)

- Lead **implementation, diagnostic, and refresh** projects for global procurement/spend analytics, ensuring high data accuracy and timely delivery.
- Built large-scale processing flows in **Alteryx** and automated recurring tasks with **Microsoft Copilot**, reducing manual effort and cycle time.
- Used **Spend Data Tool** for diagnostics, enrichment, and categorization; improved classification quality and downstream BI reliability.
- Partnered with international stakeholders to standardize processes and strengthen delivery QA and documentation.
- **Recognition:** *Champion of the Quarter (Mar–May 2025)* for exceptional project contribution.

Senior Analyst — Data Analytics, RobobAI · Apr 2021 – Oct 2024

- Delivered end-to-end **implementations, pilots, and refreshes**, managing client communications, requirement intake, and adoption.
- Produced **spend visibility** and category insights from **SAP** and other ERPs; developed classification models and category reports.
- Conducted platform trainings across regions; ran perception reviews to align data with business context and improve data quality.
- Supported **dashboard automation** and AI feedback loops; maintained PMO artifacts (user adoption, status updates, trackers).
- **Awards:** Employee of the Month (*Oct 2021, Apr 2024*); **Star of the Quarter (Q3 2022)**.

GEP Worldwide · Jun 2016 – Apr 2021

Associate Delivery Lead — Data & Analytics · Jan 2021 – Apr 2021

- Directed client data analysis aligned to standard procedures; produced decision-ready stats and insights to support cost-reduction initiatives.

Senior Spend Analyst · Jul 2018 – Jan 2021

- Executed implementation/refresh/pilot work across **capital, direct, indirect** categories and **Pcard/NonPO** data.
- Consolidated multisource datasets with **SQL**; created **Data Profile** reports and **OA** (Opportunity Assessment) deliverables.
- Customized **UNSPSC** taxonomy; led **Vendor Normalization & Enrichment** and **parenting** to improve supplier analytics accuracy.
- Trained classification models using vendor/invoice/PO/GL/material attributes; enforced **QA tollgates** for accuracy and SLA adherence.
- Utilized Smart by GEP modules (**Insights, VisionDashboard, Data Export**) for reporting and executive visibility.

Spend Analyst · Jun 2016 – Jun 2018

- Owned individual implementations and refreshes in a fast-turnaround pilot team, delivering across **100+ industries** with minimal escalations.
- Coordinated with clients and internal teams to meet timelines and quality standards; maintained comprehensive project documentation.

Site Engineer — Maintenance & Erection, Humdule Industries Pvt Ltd · Nov 2014 – Apr 2016

- Supervised plant erection, piping alignment, and maintenance for industrial clients (e.g., Cummins) per drawings and site conditions.

Site Engineer — Water Treatment Plant Erection, Pheco Inc · Oct 2015 – Jan 2016

- Managed equipment alignment, piperack support fabrication, and overall plant piping (subclient: GE), ensuring compliance with design.

EDUCATION

Bachelor of Engineering (Mechanical Engineering) — Amravati University · 2010 – 2014

Advanced PG Diploma — Piping Design & Engineering — MIT Skills, Pune · 2015

CERTIFICATIONS

- **Microsoft Power BI Essential Training** — LinkedIn Learning
- **Advanced PG Program in Piping Design** (PDMS, CAESARII)

DEVELOPMENT & GROWTH ACTIONS

- Attended **Microsoft Power BI Fundamentals – Awareness Session** (India Learning SC-GN), strengthening foundational BI skills.
- Developed hands-on expertise in **Alteryx** and **Spend Data Tool** for project activities, enhancing data processing and analytics capabilities.
- Planning to explore **Copilot** for further automation and process consistency in analytics workflows.
- Pursued cross-functional support, knowledge transfer, and process standardization to enhance team and client outcomes.
- Attended **Reinvention with Agentic AI** workshop and created a custom agent for classification tasks, expanding AI application skills.

PROJECTS / LEADERSHIP / ACHIEVEMENTS

- **Analytics Automation with Microsoft Copilot:** Automated diagnostics and refresh workflows to streamline repeatable tasks and reduce manual processing.
- **Vendor Line-of-Business (LOB) Modeling:** Built vendor LOB-based models to enhance classification precision and category reporting.
- **Perception Review Framework:** Designed perception review files and applied structured feedback loops to align data with regional business contexts, improving data quality and stakeholder trust.
- **Dashboard Automation:** Supported ETL teams to automate **Power BI/Smart by GEP** dashboards, improving refresh consistency and time-to-insight.
- **Awards:** *Champion of the Quarter — Accenture (Mar–May 2025); Employee of the Month — RobobAI (Oct 2021, Apr 2024); Star of the Quarter — RobobAI (Q3 2022).*
