Work Authorization: **Eligible to work in the U.S. without employer sponsorship**

SUMMARY

Results-driven Supply Chain Professional with 9+ years of global experience across Asia, Europe, and North America, spanning demand planning, supply planning, and procurement. Proven record of driving forecast accuracy, supply and capacity planning, S&OP execution, cost savings, and process optimization across FMCG, manufacturing, and higher-education sectors. Currently pursuing the APICS Supply Chain Planning Certificate (in-progress) to strengthen integrated planning, forecasting and S&OP expertise.

PROFESSIONAL SKILLS

- **ERP / PLANNING SYSTEMS:** SAP (APO, S/4HANA, IBP, EWM, TM, Ariba), Kinaxis RapidResponse, Workday, Jaggaer Software
- **ANALYTICS & DATA VISUALIZATION:** Power BI, Tableau, Advanced Excel (Pivot Tables, Power Query, VBA Automation, Dashboards, Process Maps, Scenario Planning & Analysis)
- **PLANNING EXPERTISE:** Demand Forecasting, Supply Planning, Inventory & Capacity Planning, NPI & EOL Planning, Production Planning (RCCP, MPS, MRP, CRP), Procurement Planning, S&OP Planning
- **PROCUREMENT SOURCING:** RFB/RFP/RFI/ RFQ Development, Negotiation, Cost Savings, Contract Administration & Evaluation
- **CONTINUOUS IMPROVEMENT:** Lean Manufacturing, Six Sigma Methodologies, Process Optimization, SOP & Process Standardization

WORK EXPERIENCE

Procurement Specialist

Jan 2025 – Dec 2025

University of Wisconsin System

Stevens Point, USA (WI)

- Analysis and approve purchase orders, develop and manage solicitations in compliance with state and federal procurement regulations.
- Market research on third party suppliers, recommendations for the best available options and price negotiation for both goods and services.
- Prepare and execute bids, signing contracts, following procurement methods such as Best Judgement, Simplified Bid, RFB, RFP, RFI, RFQ.
- Conduct data analysis related to negotiation planning, cost savings, reductions, avoidance, supplier management, and risk mitigation programs and strategies.
- Coordinate, prepare and distribute mandated reports to appropriate individuals on campus, to University of Wisconsin System Administration (UWSA) and/or DOA.

Demand Planner

Feb 2022 – Nov 2024

Genpact; Client: Unilever UK & Ireland

Warsaw, Poland

- Utilized Kinaxis Rapid Response and SAP APO to develop precise demand forecasts at SKU and category levels by integrating historical sales data, promotions, market trends, and macroeconomic factors.
- Improved forecast accuracy by 7% (MAPE) through advanced model optimization, data cleansing, seasonality adjustments and strategic integration of market intelligence within the S&OP framework.
- Analyzed customer buying behavior (Tesco, Asda, Sainsbury, Amazon), competitor pricing, and market trends to improve forecasts and reduce overstock and stockouts.
- Managed near-expiry products and excess inventory through SLOB reviews, reducing write-offs, optimizing warehouse utilization, and improving inventory turnover.
- Adjusted forecasts based on sales team inputs and changing business needs.
- Managed demand planning for new products (NPI) and products being phased out (EOL), collaborating with cross-functional teams to ensure smooth product transitions.

- Held weekly stock review meetings with supply planners and sales teams to ensure inventory matched demand.
- Facilitated monthly Demand, Activity, and Budget Review meetings as part of the S&OP cycle, sharing insights via Power BI dashboards with relevant stakeholders.
- Authored and maintained SOPs to standardize demand planning and forecasting processes.
- Documented a Kinaxis user manual used for new hire training, improving onboarding efficiency and enhanced team productivity.

Business Analyst - Demand Planner

Aug 2019 – Jan 2022

Genpact; Client: Panasonic USA (North)

Bangalore, India

- Leveraged time series analysis on sell-in and POS data using in-house statistical tools, Excel, and SAP IBP to generate data-driven demand forecasts, incorporating historical trends, seasonality, promotional impacts, and market intelligence.
- Analyzed retailer-specific demand patterns (Amazon, Walmart, Target, Best Buy) to optimize forecast accuracy and improve supply planning efficiency.
- Applied demand sensing strategies via POS data, reducing replenishment lead time by 12% and boosting customer service levels by 80%.
- Improved 12-month rolling forecast accuracy by 15% through regular 3-, 6-, and 12-month forecast reviews and continuous model refinement and performance tracking.
- Collaborated cross-functionally with global planning, merchandising, sales and production planning teams during monthly S&OP sessions to integrate real-time business insights into demand forecasts, achieving 5% improvement in forecast accuracy and ensuring smoother NPI/EOL planning and transition aligned with business goals.
- Automated promotion uplift calculations using VBA Macros and advanced Excel functions, reducing manual workload and recurring errors as part of a Lean improvement project.

Supply Planner / End to End Planner

Aug 2017 – Aug 2019

Emami Agrotech Limited

Kolkata, India

- Led end-to-end supply planning across General Trade and E-Commerce (Amazon, Flipkart, Reliance Retail), managing demand forecasting, inventory, and supplier coordination to ensure product availability and service continuity.
- Utilized SAP and advanced Excel for inventory forecasting, stock analysis, and process optimization, enabling lean inventory management and data-driven planning decisions.
- Designed and implemented Excel-based supply planning and performance dashboards, tracking KPIs such as Safety Stock, Reorder Point, OTIF, inventory turnover, days of supply, customer service level, and forecast accuracy.
- Applied advanced analytics (ABC analysis, Pareto 80/20, bottleneck heatmaps, capacity vs. load analysis, and root-cause analysis) to identify at-risk SKUs and improve planning efficiency.
- Performed Rough-Cut Capacity Planning (RCCP) as part of the monthly S&OP cycle, collaborating with production planners across multiple manufacturing sites and improving capacity alignment by 15%.
- Improved inventory turnover by 25% through KPI-driven stock optimization and proactive replenishment planning.
- Implemented a Vendor Managed Inventory (VMI) process as a Lean initiative, by achieving 98% target fill rate within six months.
- Reduced stockouts by 40% by implementing shelf-life-based auto stock blocking in SAP, improving customer service levels to 99%.
- Led Kaizen and continuous improvement initiatives and developed standardized SOPs, contributing to a 20% improvement in forecast accuracy and stronger cross-functional alignment.

Procurement Officer

Jan 2017 – Aug 2017

Hitech Corporation Limited

Mumbai, India

- Prepared purchase orders for raw materials and capital expenditures.
- Identified, evaluated, and selected suppliers and vendors based on quality, price, reliability, and service.
- Negotiated terms and conditions, including pricing, delivery schedules, and payment terms, to achieve cost savings.
- Handled import/export documentation and coordinate with the customs department.
- Managed the inventory of supplies and materials.
- Monitored and manage supplier performance according to agreed-upon terms.
- Analyzed market trends to identify risks and opportunities related to procurement.

EDUCATION

MBA / PGDM: Supply Chain Management

2015 – 2017

Institute of Engineering and Management, CGPA: 8.33 (out of 10)

Kolkata, India

- ◆ Academic distinction: Ranked 2nd in the 2015–2017 batch and Topper in the Supply Chain Management (SCM) specialization.

CERTIFICATIONS

Planning, Analytics & S&OP

- APICS Supply Chain Planning Certificate (In Progress)
- Kinaxis RapidResponse Certification
- Data Analysis and SCM Planning
- Cost–Benefit Analysis

Procurement, Contracts & Sourcing

- Negotiation on Behalf of the State of Wisconsin (DOA)
- Contract Administration (HYFLEX)
- Strategic Sourcing & E-Sourcing
- Writing and Conducting Requests for Bids (RFB)
- Writing and Conducting Requests for Proposals (RFP)
- Request for Information (RFI)
- Request for Quotation (RFQ)
- Contract Negotiations

Technology & IT Procurement

- Software Licensing 101
- Cloud Computing and IT Contracting
- Purchasing Printing for the State of Wisconsin

AWARDS/ RECOGNITIONS

- *Best Summer Project Award in B-School* for implementing automation strategies in ITC Ltd for managing inventory and avoid stock out and overstock situation.
- *Employee of the Year Award from Emami Agrotech Limited* for excellence in supply chain optimization and implementing the VMI process and automation of stock blocking process, implementing Lean Methodologies.
- *Client appreciation from Panasonic, USA* for extensive support during COVID for driving cost-saving initiatives and improving operational efficiencies.
- *Recognized by Unilever at the Annual Conference in London, UK*, for going above and beyond to ensure a successful ERP transition.
- *Received recognition from University of Wisconsin, Stevens Point* for excellence in procurement operations by consistently ensuring regulatory compliance, effective supplier negotiations, and timely fulfillment of complex purchasing requests.
