

VENKATA RAMANA PONNAM

Detroit, MI | +1 (657)-631-8353 | venkataramana.ponnam@techsmail.com | [LinkedIn](#)

SUMMARY

Supply Chain professional with 3+ years of experience across **inventory management, demand forecasting, procurement, logistics, and S&OP planning**. Skilled in **SAP, Excel, Power BI, Tableau, and DRP/MRP** tools to optimize operations, reduce costs, and improve forecasting accuracy. Experienced in **cross-functional coordination, supplier analysis, and process improvement**, supporting both operational execution and strategic supply chain decisions.

EXPERIENCE

P&G - Supply Chain Analyst

Jan 2025 - Current

- Optimized **inventory levels** for 120+ SKUs using **SAP** and **Excel**, reducing **stockouts** by 18% and cutting **carrying costs** by \$1.2M annually.
- Developed rolling **demand forecasts** with advanced **Excel modeling** and **SAP IBP**, improving **forecast accuracy** by 22% and enabling better **production scheduling**.
- Orchestrated cross-functional **Sales and Operations Planning** meetings amongst **procurement, production, and logistics** teams; achieved a 15% reduction in lead time variability, improving supply chain responsiveness.
- Conducted **supplier performance analysis** in **SAP** and **Power BI**, identifying top 10 **suppliers** for **strategic partnerships** and reducing **procurement delays** by 12%.
- Managed end-to-end **reverse logistics** processes, leveraging **SAP** and **Power BI dashboards** to cut **returns processing time** by 25% and improve **traceability**.
- Executed **process improvement projects** using **Lean Six Sigma (DMAIC)**, streamlining **order-to-delivery workflows** and achieving a 20% **efficiency gain** across product lines.

GILBARCO VEEDER-ROOT - Logistic Data Specialist/Supply Chain Analyst

Aug 2024 - Dec 2024

- Consolidated logistics data from 18 freight carriers into unified **Excel datasets**, improving **data accuracy** by 20% and enabling in-depth **regional shipment flow analysis**.
- Built **Power BI dashboards** tracking 2024 YTD **inbound/outbound shipments, volumes, and freight performance**, providing actionable insights to stakeholders.
- Analysed **dashboard filters** by shipment quarter and load type, increasing **user engagement** by 30% and enhancing **seasonal trend analysis**.
- Integrated **EDI/API supplier data** with ERP and Excel, improving **supply chain visibility** by 25% and supporting **S&OP planning** for better alignment of **demand, inventory, and capacity**.

7FINCORP GROUP - Industrial Engineer

Jun 2021 - Jul 2023

- Optimized **inventory management** using **DRP/MRP tools (GIM)** and **S&OP collaboration**, reducing **excess inventory** by 25% and **stockouts** by 18%, ensuring smoother production continuity.
- Delivered **\$1.5M procurement savings** by streamlining **SAP ERP and S/4 HANA workflows**, coordinating **procurement, production, and distribution** to remove redundancies.
- Designed **transportation and logistics strategies**, cutting **logistics costs** by 30%, resolving supply constraints, and mitigating risks through **stakeholder engagement** and structured **risk assessment**.
- Improved **demand forecasting accuracy** by 20% via historical data analysis and budget reconciliation, enabling more reliable **production schedules** and inventory alignment.
- Created **Power BI, Tableau, and Excel dashboards** to track **KPIs**, visualize trends, and provide actionable insights for operational and strategic **supply chain decisions**.

SKILLS

Supply Chain Planning & Operations: Inventory Optimization, Demand Planning & Forecasting, Production Scheduling, Procurement, S&OP, Capacity Planning, Distribution Planning, Supplier Relationship Management, Strategic Sourcing, Reverse Logistics, Supply Chain Risk Management, Materials Requirements Planning (MRP), Supply Chain Optimization
Data Analytics & Forecasting: Data Analysis, Predictive Analytics, Statistical Analysis, Time Series Analysis, Scenario Planning, ANOVA, KPI Tracking, Performance Measurement, Trend Analysis

ERP & Supply Chain Tools: SAP ERP, SAP MM, SAP SD, SAP PP, SAP IBP, S/4 HANA, Oracle ERP, NetSuite, JDA / Blue Yonder, Coupa, Ariba, Microsoft Dynamics 365, TMS, WMS, EDI/API Integrations, ETL, UiPath RPA

Data Visualization & Reporting: Power BI, Tableau, Excel (Advanced Modeling & Pivoting), SQL, Python, R, MATLAB
Data Warehousing, , Minitab, ANSYS Workbench, Lindo, GAMS, Simulation & Modeling Tools

Process Improvement & Methodologies: Lean Six Sigma (DMAIC, Kaizen), Value Stream Mapping, Root Cause Analysis, Workflow Automation, Bottleneck Analysis, 5S Methodology, Process Mapping, Agile Methodology

EDUCATION

North Carolina State University, Raleigh, NC | Master of **Industrial Engineering**

Vellore Institute of Technology, Chennai, India | Bachelor of Technology in Mechanical Engineering
