

PRASHANTHI MURALA

Denton, TX | +1-940-367-4410 | prashanthimuralacareer@gmail.com | [LinkedIn](#)

Professional Summary

Clinical Data Analyst with nearly 5 years of experience in healthcare data management, analytics, and reporting. Skilled in extracting, cleaning, and standardizing data from EHR/EMR systems to ensure accuracy, compliance, and usability. Proficient in **Python, SQL, Power BI, Tableau, Apache Spark, Hive, Big Query, and GCP**, with a strong background in building dashboards, developing ETL/ELT workflows, and supporting evidence-based decision-making. Adept at collaborating with cross-functional clinical, IT, and analytics teams while ensuring **HIPAA-compliant** data practices to improve patient outcomes, operational efficiency, and organizational performance.

Work Experience

UnitedHealth Group, Texas | Clinical Data Analyst

May 2025 – Current

- Collaborated in **Agile requirement-gathering sessions** to define patient outcome KPIs and analytics requirements, improving cross-functional alignment by **60%** and reducing reporting and objective misalignment by **45%**.
- Cleaned, standardized, and validated EHR datasets** using **Python and Excel**, resolving **98% of data quality issues** and improving data readiness for analytics and regulatory use by **70%**.
- Performed **descriptive analytics** using **Python (pandas, NumPy) and Excel** to identify outcome trends and variability across treatment protocols, uncovering a **35% variation in recovery rates**.
- Conducted **inferential statistical analysis** (t-tests, chi-square) in Python and Excel to evaluate treatment effectiveness, enabling **22% improvement in evidence-based protocol adoption** and reducing ineffective treatment adjustments by **30%**.
- Developed **Power BI dashboards using DAX** to visualize patient outcomes and recovery trends in near real time, accelerating decision-making by **40%** and increasing stakeholder insight visibility by **55%**.
- Delivered **data-driven insights** in collaboration with clinical and administrative teams, supporting protocol optimization initiatives that improved patient outcomes by **18%** and reduced low-value treatment usage by **25%**.

Accenture | Data Analyst

Jan 2022 – Dec 2023

- Supported **EHR data platforms (Epic, Cerner, Dentrux)** from an analytics and data engineering perspective, ensuring data accuracy and system reliability.
- Extracted, transformed, and analyzed **large-scale EHR datasets** using **SQL and Python**, enabling analytics, reporting, and compliance use cases.
- Designed and maintained **Power BI and Tableau dashboards** for clinical, operational, and financial KPIs.
- Conducted **data quality checks, integrity validation, and reconciliation** across multiple healthcare data sources.
- Collaborated with IT, data, and clinical stakeholders to **optimize data flows, reporting logic, and analytics requirements**.
- Documented data definitions, transformations, and reporting logic to improve maintainability and audit readiness.

Logic Rays Technologies | Healthcare Data Analyst

Oct 2019 – Dec 2021

- Managed and optimized EHR platforms (Epic, Cerner, Dentrux)** to ensure accurate data capture, secure storage, and seamless access, supporting **HIPAA-, HITECH-, and CMS-compliant healthcare data workflows**.
- Extracted, transformed, and analyzed structured and unstructured EHR data** using **SQL and Python**, enabling analytics, regulatory reporting, and data-driven clinical and operational insights.
- Designed and delivered interactive dashboards using Power BI and Tableau**, transforming raw healthcare data into actionable insights and **reducing manual reporting effort by 35%**.
- Performed data quality validation, integrity checks, and reconciliation** across patient records, treatment histories, and reporting datasets, ensuring audit readiness and reliable analytics outputs.
- Produced regulatory and performance reports (MIPS, HEDIS, UDS)** and supported audits and accreditation initiatives while ensuring ongoing **HIPAA and Meaningful Use compliance**.

Education

Master of Science – Health Data Analytics

Dec 2025

University of North Texas | Denton, TX

Bachelor of Dental Surgery (BDS)

Dec 2021

Kamineni Institute of Dental Sciences | Telangana, India

Projects

Real-Time Healthcare Data Pipeline (GCP)

- Architected a **streaming data pipeline** using **Pub/Sub → Dataflow → BigQuery** to enable real-time healthcare analytics.
- Improved **data refresh frequency and monitoring capabilities** for healthcare event tracking.

- **Technologies:** Python, BigQuery, Dataflow, Pub/Sub, GCP

Big Data Processing with Hive & Spark

- Executed **distributed data processing and analytics** on large healthcare and public datasets.
- Optimized **Hive queries and Spark jobs** to enhance performance and scalability.
- **Technologies:** Hive, Spark, Hadoop

Healthcare Analytics Dashboards

- Built **Tableau and Power BI dashboards** for **UK Gender Pay Gap, UN SDG indicators, and COVID-19 treatment datasets**.
- Delivered **KPI tracking, trend analysis, and insight-driven visualizations** supporting academic research teams.
- **Technologies:** Tableau, Power BI, SQL

Skills

Programming & Querying: SQL, Python (Pandas, NumPy, Matplotlib), R

Big Data & Analytics: Apache Spark, Hive, BigQuery, Hadoop

Cloud & Streaming: Google Cloud Platform (GCP), Pub/Sub, Dataflow

Healthcare Informatics: EHR Systems, HL7, FHIR, HIPAA Compliance, Interoperability

BI & Reporting: Tableau, Power BI, Dashboard Development

Data Engineering: ETL/ELT Pipelines, Data Modeling, Data Warehousing, Real-Time Analytics

Analytics & Research: Statistical Analysis, Data Cleaning, KPI Reporting, Outcome Analysis

Certifications

- Data Manipulation with Pandas – DataCamp
- Exploratory Data Analysis in Python – DataCamp
- Introduction to Python – DataCamp
- Understanding Data Science – DataCamp
- Building a HIPPA compliance program Certificate
- Basic Life Support Certificate
