

SAKIRAN KATTAMURI

Denton, TX | itzsaikiran444@gmail.com | 940 268-3950 / 469-982-5656 | [LinkedIn](#)

SUMMARY:

- Data Analyst with 3+ years of experience in data analysis, data quality, and business intelligence across large-scale datasets.
- Proficient in Python, SQL, and R with expertise in data manipulation, cleansing, modeling, and statistical analysis. • Skilled in data visualization and storytelling using Tableau, Power BI, QuickSight, and Excel to deliver actionable insights for stakeholders.
- Experienced in designing and optimizing SQL queries, ETL pipelines, and data warehousing solutions (Star Schema, Snowflake Schema).
- Hands-on experience with machine learning techniques, predictive modeling, and statistical testing (Regression, ANOVA, A/B Testing).
- Strong knowledge of cloud platforms (AWS: EC2, S3, Redshift) and version control tools (Git, GitHub).
- Collaborated cross-functionally with product, operations, and finance teams to define KPIs, streamline reporting, and improve business outcomes.
- Certified in Microsoft Azure Fundamentals with a Master's in Business Analytics (in progress) and a strong foundation in governance frameworks and Agile methodologies.

SKILLS:

Methodologies: SDLC, Agile, Waterfall

Programming Language: Python, SQL, R

Packages: NumPy, Pandas, Matplotlib, SciPy, Scikit-learn, TensorFlow, Seaborn, dplyr, ggplot2

Visualization Tools: Tableau, Power BI, Advanced Excel (Pivot Tables, VLOOKUP)

IDEs: Visual Studio Code, PyCharm, Jupyter Notebook, IntelliJ

Database: MySQL, MongoDB, SQL Server

Cloud Platform: Amazon Web Services (AWS)

Other Technical Skills: SSIS, SSRS, SAS, SPSS, Machine Learning Algorithms, ETL\ELT Tools, Statistics, Power Query, Probability distributions, Mathematics, ANOVA, Advance Analytics, OLAP & OLTP, Microsoft Word, PowerPoint, MS Visio, Hypothesis Testing, Regression Analysis, Linear Algebra, Advance Analytics, Data Mining, Big Data, Data Integration, Data Interpretation, Data Pipeline, Data Visualization, Data warehousing, Data transformation, Data Governance, Data Storytelling, Association rules, Clustering, Classification, Regression, ANOVA, A/B Testing, Hypothesis testing, Forecasting & Modelling, Data Cleaning, Data Wrangling, Descriptive analytics, Git, GitHub, JIRA

Operating Systems: Windows, Linux

WORK EXPERIENCE:

Aptech | 7-Eleven, Inc.

Remote Data Analyst

Jan 2025 – Current

- Extract, transform, and analyze large datasets using SQL, Python, and R to generate actionable business insights.
- Develop, maintain, and optimize dashboards and reports in Tableau, Power BI, and Amazon QuickSight to support data-driven decision-making.
- Collaborate with cross-functional teams (product, operations, finance) to define KPIs, track performance metrics, and align with business objectives.
- Conduct ad-hoc data analysis, deep-dives, and root cause investigations to identify trends, anomalies, and opportunities for process improvements.
- Enhance ETL pipelines and data workflows in collaboration with data engineers, ensuring accuracy, consistency, and reliability of business data.
- Design and implement data models, schemas (Star, Snowflake), and governance practices to support business intelligence and analytics initiatives.

- Perform statistical analysis, forecasting, and A/B testing to evaluate product and process changes and quantify business impact.
- Improve data quality through validation, cleansing, profiling, and mismatch identification, ensuring compliance with organizational data standards.
- Automate manual reporting tasks and build advanced Excel models with pivot tables, macros, and formulas to support financial planning and operational reviews.
- Support cloud-based data solutions using AWS (EC2, S3, Redshift) to manage, store, and analyze large-scale structured and unstructured datasets.

Amazon

Quality Analyst

Chennai, India Data

Mar 2022 – Aug 2023

- Designed and optimized SQL queries to extract, transform, and analyze large datasets from Redshift and S3, improving data retrieval efficiency.
- Built and automated business dashboards in QuickSight/Tableau, reducing manual reporting time by 30% and enabling real-time decision-making.
- Partnered with product, operations, and finance teams to define and track KPIs, ensuring alignment with business objectives.
- Conducted ad-hoc data analysis and deep-dives to identify performance trends, root causes of anomalies, and actionable insights.
- Streamlined weekly/monthly business review reports, presenting insights to senior management and driving process improvements.
- Collaborated with data engineers to enhance ETL pipelines, ensuring data accuracy, reliability, and timely availability.
- Supported A/B testing and experimentation, analyzing results and quantifying business impact of product/process changes.
- Improved customer experience metrics by identifying bottlenecks and recommending data-driven solutions that increased operational efficiency.
- Created advanced Excel models with pivot tables and automation to support forecasting and financial planning.
- Championed data quality initiatives, reducing reporting errors and ensuring compliance with business data standards.

DATA ANALYST | 10/2020 - 11/2022

Capgemini - India

- Analyzed large-scale datasets using Python, SQL, and Excel to support compliance, security, and access management initiatives.
- Developed Tableau dashboards tracking 50K+ user access logs, improving audit visibility and reducing compliance effort by 30%.
- Automated data validation and anomaly detection processes using Pandas and NumPy, reducing manual effort by 40%.
- Processed high-volume datasets using Apache Spark, enabling faster fraud detection and near real-time insights.
- Optimized MySQL queries and reporting workflows, improving performance by 50%.
- Supported data governance frameworks and audit readiness, ensuring adherence to enterprise security policies.
- Collaborated with cross-functional teams to improve data quality, reporting accuracy, and operational efficiency.

EDUCATION:

Sacred Heart University	2024
Master of science in Business Analytics	
Sun International	2020
Bachelor of Hotel Management	

CERTIFICATION:

Microsoft Certified Azure Fundamentals–900
