

LAASYA REDDY GADDAM

BUSINESS DATA ANALYST

Texas, USA | 551-220-3366 | Laasyargaddam20@gmail.com

SUMMARY

Business Data Analyst with 4+ years of experience in healthcare and finance, specializing in requirement analysis, **KPI tracking**, and **end-to-end solution delivery**. Skilled in **SQL, Python, Power BI, and Tableau**, translating business needs into actionable insights. Experienced in creating **BRDs, FSDs, data mapping**, performing data validation, and building automated reports for claims, finance, and compliance workflows. Proficient in **JIRA, Azure DevOps, Confluence**, process modeling with **Visio** and **BPMN 2.0**, ensuring **HIPAA, CMS, and SOX compliance** through strong data governance.

TECHNICAL SKILLS

Methodologies	SDLC, Agile/Scrum, Waterfall, Kanban, Sprint Planning, Backlog Grooming, User Acceptance Testing (UAT)
Documentation & Analysis	BRD, FRD, SRS, FSD, User Stories, Use Cases, Test Plan, User Guide, RTM, Data Mapping, Requirement Gathering, GAP Analysis, Cost-Benefit Analysis, Impact & Risk Analysis, SWOT Analysis
Project Management & Collaboration Tools	MS Project, Jira, Azure DevOps, Confluence, Asana, Trello, Rally, MS SharePoint, Slack, Miro
Data & Reporting Tools	SQL, Power BI, Tableau, Advanced Excel, MS Access, Python (Pandas, NumPy), R (Analytics), MS Visio, Draw.io, Google Sheets
Database & ETL Knowledge	Snowflake, MS SQL Server, MySQL, Oracle, Informatica (ETL), Azure Data Factory, Data Warehousing Concepts, Data Modeling (Star/Snowflake Schema)
Automation & Analytics Tools	Automation Anywhere, UiPath, Alteryx, Google Analytics, KPI Tracking, A/B Testing, Forecasting Models, Statistical Analysis
ERP & CRM Systems	SAP, MS Dynamics NAV, Salesforce, HubSpot, Oracle ERP, Zoho CRM
Tracking & QA Tools	HP Quality Center, Rational ClearQuest, TestRail, RTM, Zephyr, Postman (API Testing), QA Documentation
Technical & Process Tools	Confluence, Figma, RACI Matrix, BPMN 2.0, BI Tools, Data Governance, Data Cleansing, JAD Sessions, UML Diagrams
Regulatory & Compliance Knowledge	HIPAA, CMS, SOX, GDPR, FDA Guidelines, Audit Readiness, Data Privacy Standards

EXPERIENCE

Business Data Analyst | CVS Health, TX

June 2024 – Present

- Conduct **gap analysis** and conduct stakeholder interviews across clinical operations and referral teams to identify pain points in specialist referrals, aligning business requirements with value-based care objectives using **SQL** and **Azure data insights**.
- Facilitate **JAD sessions, workshops, and one-on-one discussions** to gather business, functional, and non-functional requirements, ensuring clarity for development, QA, and data-driven decision-making using **Python** and **Azure Data Factory**.
- Author and maintain comprehensive documentation including **BRDs, FSDs, and User Stories** with **Acceptance Criteria** for referral authorization and care coordination workflows, ensuring clarity and completeness for development and **QA teams**.
- Lead **Agile ceremonies** via **Jira**, including sprint planning, backlog grooming, and retrospectives, driving efficient delivery of cross-functional teams while tracking key performance indicators.
- Model **AS-IS** and **TO-BE processes** in **Microsoft Visio** using **BPMN 2.0**, streamlining referral workflows, pre-authorization approvals, and patient onboarding to enhance efficiency and reduce delays.
- Collaborate with **RPA** and automation teams to automate referral validations and provider network checks, reducing cycle times by **40%**, and build **Python/SQL scripts** for monitoring data accuracy and operational efficiency.
- Partner with compliance, audit, and training teams to ensure **HIPAA, CMS, and SOX adherence**, delivering **SOPs, user guides**, and live sessions while creating interactive **Power BI dashboards** for performance tracking and governance.

Business Data Analyst | Capgemini, India

Mar 2020– July 2023

- Automate cash flow and working capital forecasts using **Python** and **AWS**, integrating ERP and treasury data, improving forecast accuracy by **35%**, enhancing liquidity management, and enabling finance teams to make data-driven strategic decisions.
- Design and deploy interactive **Tableau dashboards** to monitor cost center efficiency, budget variance, and year-over-year performance trends, empowering finance leaders with timely, actionable insights for operational optimization.
- Perform **Exploratory Data Analysis (EDA)** on historical revenue, collections, and financial transactions, applying **A/B testing** to detect anomalies, identify patterns, and recommend strategies for revenue improvement and risk mitigation.
- Migrate manual Excel reporting processes to a centralized **Snowflake** platform, developing scalable **ETL pipelines** for monthly close, forecast versus actuals, and profitability tracking, significantly reducing reporting delays and improving data reliability.
- Manage and track project deliverables using **MS Project**, coordinating finance analytics, ETL migration, dashboard development, and data validation activities, ensuring timely execution while maintaining quality and stakeholder satisfaction.
- Support **UAT** by preparing comprehensive test cases, conducting user acceptance testing, and validating financial reports, dashboards, and ETL processes to ensure compliance, accuracy by **98%**, and alignment with business requirements.
- Collaborate with **CRM teams** and leverage **MS Dynamics** data to integrate customer and transaction insights into financial analysis, improving cash flow visibility, revenue tracking, and enabling more informed, data-driven decision-making.

EDUCATION

Master of Science in Data Analytics

University of North Texas, Denton, USA

Bachelor of Technology in Computer Science and Engineering

B. V. Raju Institute of Technology, Hyderabad, India
