Summary

Supply Chain Data Analyst with 5+ years of hands-on experience analyzing procurement, **inventory**, logistics, and **order fulfillment** data to support operational reporting and planning. Skilled in Power BI, SQL, and Excel with strong focus on **KPI tracking**, **data accuracy**, and **stakeholder reporting**.

Technical Skills

- **Supply Chain & Operations** : Inventory Analysis, Demand Analysis, Order Fulfillment Analysis, Procurement Reporting, Supplier Performance Tracking, Logistics Analysis, Warehouse Data Analysis, Inventory Aging, Lead Time Analysis, Service Level Monitoring, Stock Reconciliation, Material Movement Analysis
- **Data Analysis & Reporting** : KPI Development, Operational Reporting, Trend Analysis, Variance Analysis, Root Cause Analysis, Data Validation, Data Reconciliation, Business Reporting, Executive Dashboards, Ad Hoc Analysis, Performance Metrics, Data Accuracy Monitoring, Reporting Automation Support, Data Documentation
- **Tools & Technologies** : Power BI, Power BI Data Modeling, Power Query, DAX Basics, SQL, SQL Joins, SQL Aggregations, Advanced Excel, Pivot Tables, Excel Power Query
- **Business & Collaboration** : Stakeholder Reporting, Business Requirement Gathering, Cross-Functional Collaboration, Operations Support, Process Improvement Support, Data Interpretation, Decision Support Analytics, Documentation Support, Reporting Standardization, Issue Tracking, Communication Skills, Time Management
- **ERP Systems**: SAP (MM, SD – reporting exposure), ERP transactional data analysis, procurement & inventory modules

Professional Experience

Supply Chain Data Analyst, Cigna

Aug 2024 – Present | USA

- Analyzed procurement, inventory, logistics, and order fulfillment data extracted from **ERP systems** using **SQL and Excel**, supporting operational reporting and improving supply chain visibility while reducing reporting delays by approximately 15%.
- Developed and maintained Power BI dashboards tracking inventory levels, demand trends, supplier performance, fulfillment accuracy, and **supply chain KPIs**, enabling operations leadership to identify inefficiencies and improve service-level adherence.
- Performed **data validation**, reconciliation, and variance analysis on inventory and order datasets, resolving recurring discrepancies and improving data accuracy for operational and management reports by reducing manual corrections by approximately 20%.
- Collaborated with procurement, logistics, and operations **stakeholders** to gather reporting requirements and translate business needs into analytical outputs, improving reporting turnaround time and stakeholder satisfaction across supply chain teams.
- Supported continuous improvement initiatives by analyzing historical demand patterns, **fulfillment performance**, and lead-time trends, contributing insights that helped optimize replenishment planning and reduce fulfillment delays during peak demand periods.

Supply Chain Data Analyst, Orion Technolab

Jan 2020 – Sep 2023 | India

- Analyzed procurement, inventory, and warehouse datasets using **SQL and Excel**, delivering operational reports that improved visibility into stock movement, material availability, and supplier delivery performance across multiple business units.
- Built Power BI dashboards to **monitor inventory aging**, goods receipts, goods issues, and fulfillment trends, helping operations teams identify bottlenecks and reduce excess inventory levels by supporting data-backed corrective actions.
- Conducted data validation and reconciliation on **ERP transactional** records to ensure accurate tracking of **procurement costs** and **inventory balances**, improving reporting reliability and reducing inconsistencies during monthly operational reviews.
- Worked closely with supply chain and operations teams to support reporting requests, analyze performance trends, and provide data-driven insights that improved **planning accuracy** and on-time delivery performance.

Education

Master's in information technology management, Concordia University, St. Paul

May 2025

CERTIFICATION

TPG No BS Product Management
