PROFESSIONAL SUMMARY

Analytics professional with 5+ years of experience in data analytics, merchandising strategies, e-Comm optimization, healthcare operations & academics. Proven ability to deliver data-driven decisions, optimize promotions, and improve customer experience. Expert in SQL (MSSQL), Python, R, SAS, Tableau, Power BI, AI (LLM), and ETL processes. Strong in KPI tracking, ROI analysis, sales trend forecasting, and cross-functional collaboration to translate insights into business action.

EDUCATION

- **B.E. Electronics and Telecommunication** | Amravati University, India | GPA 3.70 | June'2011
- **M.S Applied Data Analytics** | University of Central Arkansas| Conway, Arkansas| GPA 3.6 | August'2025

TECHNICAL & LEADERSHIP SKILLS

Languages & Tools : SQL (MSSQL, BigQuery, Oracle), Python (Pandas, NumPy, Scikit-learn, XGBoost, Random Forest), R, SAS, Tableau, Power BI, AWS, MS office Suit

Analytics: Regression, Clustering, Classification, ML algorithms: Predictive modeling, Hypothesis Testing, A/B Testing, KPI tracking, ROI analysis, forecasting, Market research, Promotional campaign planning

Leadership: Team management, cross-functional collaboration, stakeholder alignment, Executive communication

CORPORATE EXPERIENCE

Sr. Data Analyst (Healthcare Analytics & Process Optimization) | Multispecialty Health Center | India | June 2021 – June 2022

- Developed predictive staffing ML models, reducing overtime costs by 12% and adopted by 3 sister hospitals.
- Build graph-based models to detect bottlenecks, cut ER transfer time 4.2 to 3.4 hrs and 15% wait time reduction).
- Designed Tableau dashboards to track KPIs & recovery yield; delivered story-driven insights to senior leadership.
- Integrated claims + staffing data to support regulatory reporting & fraud detection, reducing financial risk.

Online Product Page Manager (E-commerce Analytics & Customer Insights) | Adorama | India |

Apr 2017 – Apr 2021

- Led A/B testing & ML-driven personalization to optimize product pages (+25% conversion, -30% bounce, + 30% revenue/visitor).
- Conducted market research and merchandising ROI analysis to guide supplier campaigns.
- Designed BI dashboards for leadership to track promotional effectiveness and KPI performance.

Lecturer I Analytics & Statistics, Acharya Vinoba Bhave College| Nagpur University, India | 2012 to 2014

- Led courses for 200+ students, integrating data analytics and statistical programming, mentored projects simulating real business KPIs.

ACADEMIC PROJECTS

- Predictive Lost After Delivery & Fraud Detection (2025): ML + GNN model to cut e-commerce fraud losses.
- Accident Prediction & Safety Modeling (2024): 94.2% accuracy supporting safety protocol decisions.
