

Nisha Singh

Senior Data Analyst

- IL, USA | +1(224)-421-7612 | nisha.ssingh118@gmail.com | [LinkedIn](#)

SUMMARY

Senior Data Analyst with near 5 years of experience delivering data-driven insights, automation solutions, and reporting efficiencies across global organizations. Skilled in leveraging Python, SQL, and advanced visualization tools (Tableau, Power BI) to extract, transform, and interpret complex datasets for strategic decision-making. Demonstrated expertise in building automated dashboards, improving data quality, and optimizing ETL workflows to enhance operational efficiency and business performance. Adept at collaborating with cross-functional teams to translate analytical findings into measurable outcomes while maintaining a strong focus on accuracy, scalability, and process improvement. Experienced in supporting executive decision-making through automated dashboards, financial analytics, and insight-driven reporting across enterprise environments.

SKILLS

Business Intelligence & Analytics: Power BI (Power BI Service, Workspaces), DAX (Measures, Calculated Columns), Power Query (M Language), Tableau, KPI Dashboards, Executive & Leadership Reporting, Data Storytelling, Market & Financial Data Analysis, Performance Tracking, KPI Monitoring, Decision-Support Analytics

Data Analysis & Advanced Analytics: Data Cleaning, Data Transformation, Data Validation, Exploratory Data Analysis (EDA), Statistical Analysis, Trend & Pattern Analysis, Root Cause Analysis, Diagnostic Insights, Feature Analysis

Programming & ML Tools: Python (Pandas, NumPy, Matplotlib, Scikit-learn), Jupyter Notebooks

Data Modeling & Data Management: Data Modeling (Star Schema), Dimensional Modeling (Fact & Dimension Tables), Data Warehousing Concepts, Data Marts, OLAP vs OLTP, ETL / ELT Pipelines, Data Integration, Incremental Data Loads, Workflow Automation, Data Quality Controls, Metadata Management

Programming & Databases: Python (Pandas, NumPy, Matplotlib), SQL (MySQL, PostgreSQL, SQL Server), Advanced SQL (CTEs, Window Functions), Query Optimization, Jupyter Notebooks

Data Sources & Integration: REST APIs, Flat Files (CSV, JSON, Parquet)

Business & Analytics: Business Intelligence, Market & Financial Data Analysis, Performance Tracking, KPI Monitoring

Collaboration & Delivery: Stakeholder Management, Requirements Gathering, Cross-Functional Collaboration, Agile / Scrum, Git, JIRA, Confluence, Documentation

Cloud & Platforms (Working Knowledge): Azure SQL, Azure Data Factory (ADF), Azure Data Lake Storage (ADLS); AWS (Analytics Environments)

EXPERIENCE

Senior Data Analyst S&P Global IL, USA	Feb 2025 - Present
- Analyzed and synthesized large financial and market datasets to deliver insights supporting strategic business initiatives. - Streamlined data quality processes using Python and SQL, reducing manual verification time by 20% and improving overall data accuracy and consistency. - Delivered executive dashboards in Power BI and Tableau, providing stakeholder-facing insights used for KPI tracking and leadership reviews. - Supported leadership teams with insight-driven reporting used in performance reviews and strategic planning discussions. - Collaborated with cross-functional teams to identify data gaps, standardize workflows, and improve data collection efficiency through automation and process optimization. - Conducted trend analysis and performance reporting to identify growth opportunities and support data-driven decision-making across business divisions. - Partnered with business stakeholders to deliver decision-support analytics and actionable business recommendations supporting strategic initiatives.	
Data Analyst KPIT Technologies India	Dec 2020 - Jul 2023
- Analyzed large-scale datasets to uncover trends and insights that informed business and technical decision-making. - Utilized Python (Pandas, NumPy) and SQL to extract, clean, transform, and optimize large-scale data pipelines, improving data accuracy and processing efficiency by nearly 25%. - Designed and developed dynamic dashboards and detailed visualization reports using Power BI and Tableau to communicate key business metrics and operational insights to leadership teams. - Collaborated with cross-functional teams including data engineers, developers, and project managers to automate repetitive reporting tasks, reducing manual effort and turnaround time by approximately 30%. - Conducted in-depth root cause analysis on data quality issues, improving reliability across structured and unstructured datasets. - Partnered closely with internal stakeholders to gather data requirements, align project objectives, and drive effective, data-informed strategies for business performance improvement.	
Data Operations Analyst (Vendor – Google) Accenture India	Jun 2019 – Nov 2020
- Partnered with cross-functional teams to design data-driven rules that improved fraud detection accuracy and reduced abusive content by 40%. - Investigated large and complex datasets across Google products (Maps, Reviews, Photos, Payments, Videos) to identify anomalies, patterns, and performance issues, improving data quality and reliability. - Optimized operational workflows by identifying inefficiencies through data-driven insights, resulting in a 20% improvement in process performance and measurable revenue gains in the financial services domain. - Partnered with data engineering teams to streamline data validation and reporting pipelines, ensuring consistency and accuracy of data across multiple platforms. - Monitored key performance metrics using Excel-based dashboards and computerized scripts, enabling faster issue detection and resolution that reduced customer complaints by 40%. - Translated analytical findings into actionable business recommendations, improving operational performance and data governance.	

EDUCATION

Master’s in Technology Management Lindsey Wilson University KY, USA	Aug 2025
Bachelor’s in Electronics and Communication Engineering Anurag College of Engineering	Apr 2018

CERTIFICATIONS

- Google Project Management
- Google Data Analytics
