

Viswasree Koneru

Data Analyst | Data Engineer

📞 +1 302 487 3353 | ✉️ vishk.data@gmail.com | 🌐 [linkedin.com/in/vishkoneru](https://www.linkedin.com/in/vishkoneru) | 📍 Hartford, CT

SUMMARY

Detail-oriented Data Analyst and Data Engineer with over 4 years of experience delivering end-to-end data solutions across healthcare, retail, and manufacturing domains. Skilled in building and automating ETL pipelines, developing scalable data models, optimizing SQL queries, and designing impactful Power BI dashboards. Proven ability to collaborate with cross-functional teams to translate business requirements into actionable insights, driving strategic decision-making and operational efficiency. Proficient with cloud platforms (Azure, AWS), SQL/NoSQL databases, and Python scripting for automation and data processing.

CERTIFICATIONS

- Power BI Data Analyst Associate — Microsoft
 - Databricks Accredited Lakehouse Fundamentals — Databricks
-

KEY ACHIEVEMENTS

- Delivered 50+ reports for executive stakeholders, reducing report delivery time by 40%
 - Optimized SQL queries to improve system processing speed by 25%
 - Automated 20+ routine data tasks, saving 10+ hours weekly across teams
 - Recognized with 'Team of Excellence' award for impactful project contributions
-

PROFESSIONAL EXPERIENCE

Data Analyst (Remote)

EssilorLuxottica (Idol Soft) | 08/2023 – Present

- Led migration of SQL and NoSQL (MongoDB) databases to Azure using Azure Data Factory, reducing migration time by 25%
- Built and optimized ETL pipelines with Azure Data Factory, Tableau Prep Builder, MSSQL, and SSIS to streamline data workflows
- Restructured fact and dimension tables to improve query performance by 20%
- Developed Excel-based analytics for demand forecasting and budget planning, supporting operational strategies
- Automated Excel and Business Objects reports with SSIS, Power BI (DAX, Power Query), and Tableau Prep Builder, reducing manual effort by 50%
- Created Power BI and Tableau dashboards to track key performance indicators in healthcare and retail operations
- Managed MSSQL and Access databases with SQL and Python-based data validation to ensure data consistency
- Collaborated with marketing teams to analyze campaign performance and optimize customer engagement

Data Engineer (Texas)

Idol Soft | 02/2023 – 05/2023

- Led the Bike Buyer project, applying clustering techniques to improve prediction accuracy by 12%
- Designed ETL pipelines with Python and SQL to aggregate structured and unstructured data from multiple sources
- Used advanced SQL (CTEs, window functions) for complex data retrieval and acceleration
- Leveraged Azure Data Factory for data cleansing and aggregation, ensuring quality and consistency
- Automated ETL workflows with Apache Airflow, ensuring seamless orchestration and execution
- Developed complex DAX measures in Power BI to enhance business intelligence insights
- Implemented CI/CD pipelines for data processing workflows, enabling rapid and reliable deployments

Data Analyst (India)

Capgemini | 10/2019 – 09/2021

- Launched a travel website project by optimizing data retrieval, improving project efficiency by 10%
- Enhanced ETL efficiency for large datasets (13M rows) through partitioning and parallel processing, reducing processing time by 30%
- Built real-time data pipelines using Azure Data Factory and Synapse Analytics, optimizing reporting performance by 15%
- Integrated MongoDB with Azure, Tableau, and Power BI for interactive, real-time dashboards
- Developed SSRS reports and optimized Power BI dashboards, reducing load times by 30%
- Partnered with finance, operations, and product teams to align analytics with key business metrics

TECHNICAL SKILLS

- **Languages & Tools:** SQL (T-SQL, MySQL, PostgreSQL), Python, DAX, Power Query, SSIS, Airflow
- **BI & Visualization:** Power BI, Tableau, SSRS, Business Objects
- **Databases:** MSSQL, Azure SQL, MongoDB, Oracle, MS Access
- **Cloud & ETL:** Azure Data Factory, Azure Synapse Analytics, Azure Databricks, AWS Cloud
- **Others:** Excel (Advanced, Macros), GitHub, JIRA, Jenkins, Snowflake, Pandas, Scikit-learn

EDUCATION

MS, Computer Science

University of Dayton – Certificate in Autonomous Systems & Data Science, 2023

B.Tech, Computer Science

Pragati Engineering College, 2020
