

Nishant Parekh
Supply Chain Analyst
nishant@jobsdesire.com | 801-200-3263 | PA

SUMMARY

Supply Chain Analyst with 3+ years of experience in optimizing supply chain operations through Lean Six Sigma, data analytics, and process improvement methodologies. Proven expertise in inventory optimization, logistics efficiency, and cost reduction while maintaining high service levels. Adept at leveraging SAP ECC 6.0, S4/HANA, and Power BI for data-driven decision-making to enhance demand forecasting, procurement, and warehouse management. Strong problem-solving skills with a track record of implementing JIT, Kanban, and 5S to streamline workflows and reduce waste.

SKILLS

Methodology and Supply Chain Tools: JIT Project, 5S, 5-Why, Value Stream Mapping, A3's, Six Sigma, Lean, Kanban, Lean Six Sigma, Root Cause Analysis (RCA), SAP – ECC 6.0, S4/HANA, APO, GEP

Managerial Skills: Strategic Sourcing, Global Supply Chain Management, Conflict Resolution, Market Analysis, Regulatory Compliance, Customer Relationship Management (CRM), Budgeting and Financial Analysis, Strategic Vendor Selection, Crisis Communication

Program/ Software: SAP, Windchill, Trackwise, Tableau, Power BI, MS Word, Microsoft Project, Microsoft Excel, PowerPoint, MS Office, MS Teams, MS Outlook, SolidWorks, Solid Edge, Schema, ERP systems

Analysis: DFMEA, PFMEA, Fishbone, FTA, Why-Why

Logistics: Route Optimization, Career negotiation, Transportation management

Core Competencies: Supply Chain Management, Inventory Management, Demand Planning, Production Planning, Forecasting, Scheduling.

Managerial Skills: Project Management, Financial Management, Quality, Risk Control Management, Safety Management

Operating Systems: Windows, Linux

EDUCATION

Master of Science in Engineering Management

May 2025

Robert Morris University

Bachelor's in Automobile Engineering

May 2022

Gujarat Technological University, India

EXPERIENCE

Bristol-Myers Squibb, PA | Nov 2024 - Current | Supply Chain Analyst

- Implemented Lean Six Sigma methodologies to reduce supply chain waste by 18%, optimizing inventory turnover and minimizing excess stock.
- Led Root Cause Analysis (RCA) using 5-Why and Fishbone diagrams to resolve recurring logistics delays, improving on-time deliveries by 22%.
- Developed Value Stream Maps to identify bottlenecks in procurement processes, reducing lead times by 15% through strategic supplier collaboration.
- Utilized SAP ECC 6.0 for end-to-end supply chain visibility, enhancing demand forecasting accuracy by 20% with real-time data analytics.
- Spearheaded a JIT (Just-in-Time) project that reduced warehouse holding costs by 30% while maintaining 99% order fulfillment rates.
- Conducted PFMEA to assess production risks, mitigating potential disruptions and improving process reliability by 25%.
- Collaborated with cross-functional teams on Strategic Sourcing, reducing procurement costs by 12% through vendor consolidation and negotiation.

Orion Technolab, India | Feb 2021 – Aug 2023 | Supply Chain Analyst

- Designed Kanban systems to streamline inventory replenishment, cutting stockouts by 35% and improving workflow efficiency.
- Executed 5S workplace organization in warehouse operations, reducing material search time by 40% and enhancing productivity.
- Leveraged SAP S4/HANA and APO for advanced supply chain planning, improving demand-supply alignment by 28%.
- Performed Market Analysis to identify cost-saving opportunities, leading to a 15% reduction in raw material procurement expenses.
- Automated Route Optimization using Tableau and Power BI, decreasing transportation costs by 20% through data-driven logistics planning.
- Managed Crisis Communication during supply disruptions, ensuring minimal downtime and maintaining 95% customer satisfaction.
- Applied DFMEA in new product launches, reducing design-related supply chain risks by 30% and accelerating time-to-market.
- Led A3 Problem-Solving initiatives to address supplier quality issues, improving defect resolution time by 50%.
