

Yang He

(312)-292-7875 | heyang22young@gmail.com | [LinkedIn](#) | Chicago, IL

SKILLS

Data Analytics & Visualization: SQL (MySQL, PostgreSQL, BigQuery, T-SQL), Tableau, Power BI, Looke, Metabase, Domo, Excel (Pivot Table, Vlookup, Index, Power Query)

Programming: Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Beautifulsoup), R (dplyr, ggplot2), Excel (VBA macros), SAS, Salesforce, JAVA

Big Data & Cloud Technology: AWS, Azure, GCP, Spark, Snowflake, Databricks, Informatica

Database & Data Warehouses: MySQL, NoSQL, Amazon Redshift, Azure Database, MangoDB

EXPERIENCE

Data Operations Analyst II, Teladoc Health, Apr 2021 - Mar 2025, Chicago, IL

- Developed and optimized complex SQL queries, stored procedures, and functions for EDA, root cause analysis, ensuring accurate insights from MySQL and Redshift databases.
- Performed trend analysis and applied ML/statistical models using SQL, Excel, and Python to drive critical business decision-making and improve member experiences.
- Built scalable dashboards using Tableau/Power BI, enabling stakeholder to interpret data for patient experience and product performance, and reduced manual reporting time by 20%.
- Evaluated marketing campaign effectiveness through A/B testing and performance analytics, recommended strategies to improve ROI and enhance member engagement.
- Collaborated with cross-functional teams including business, client, marketing, product, data science, and engineering to develop performance metrics and reports (KPIs).

Data Scientist, Seedstages, Sep 2020 - Apr 2021, Claremont, CA

- Conducted in-depth analysis of user data using Python and BigQuery, which contributed to a 20% improvement in customer retention.
- Applied machine learning (NLP) for topic classification and sentiment analysis on 100K+ datasets, translating complex data insights into strategic business recommendations.
- Constructed a robust ETL pipeline to extract, transform, and load data, facilitating scalable data analytics and efficient data access.
- Designed database schema and migrated database from GCP to MySQL, including the implementation of auto-fix functions that reduced data errors by 90%.

Data Scientist Intern, Actuate, May 2019 - Aug 2019, Chicago, IL

- Implemented Fast R-CNN for feature extraction on security footage and integrated capsule networks to classify objects, achieving 92% accuracy in weapon detection.
- Engineered deep learning models and computer vision technologies to optimize automated active shooter detection tools, enhancing system accuracy by 30%.
- Performed comprehensive analysis of over 30GB of client security image data using Python, delivering actionable insights that informed product enhancements.

EDUCATION

Illinois Institute of Technology, Chicago, IL

Master's Degree - Data Science

Southwestern University of Finance and Economics (Tianfu College), Chengdu, China

Bachelor's Degree - Financial Management

LICENSES & CERTIFICATIONS

Project Management Professional (PMP) - Certificate of Project Management
