

Premji Nalladi Supply Chain analyst

+1 (424) 666-7897 | premjinalladi3@gmail.com | [LinkedIn](#)

Summary

Results-driven Supply Chain Analyst with 4+ years of experience across inventory planning, demand forecasting, procurement, and warehouse optimization in high-volume distribution and manufacturing environments. Proven track record of improving inventory turnover, reducing costs, and sustaining 99%+ service levels using SAP (MM, EWM, Ariba), Python, SQL, and BI tools. Strong expertise in translating complex supply chain data into actionable insights that drive operational efficiency and working capital improvement.

Skills

Supply Chain & Inventory Management: Inventory Planning & Control, Demand Forecasting (Time Series, Safety Stock), Inventory Optimization, SKU Rationalization, ABC Analysis, Inventory Accuracy & Cycle Counting, MRP Planning, Production Scheduling, Warehouse Operations, Distribution & Logistics, OTIF, Fill Rate, Cost-to-Serve Analysis, Working Capital Optimization

Procurement & Sourcing: Strategic Sourcing, Vendor Negotiation, Supplier Consolidation, Total Cost of Ownership, P2P, Purchase Order Management, Invoice Verification, Budget vs Actual Spend Analysis, MRO & Packaging Sourcing, Supplier SLA Management

ERP & Supply Chain Systems: SAP S/4HANA, SAP MM, SAP EWM, SAP Ariba, SAP PP, SAP SD, WMS & ERP Integration, Goods Receipt & Goods Issue, Stock Transfers, Master Data Management, UAT & System Enhancements

Data Analytics & Reporting: Python, SQL (Joins, Subqueries), Power BI, Tableau, Excel (Power Query, PivotTables), KPI Dashboards, Forecast Accuracy Tracking (MAPE, Bias), Lead Time Variability Analysis, Inventory Aging & Variance Analysis

Warehouse & Operations Optimization: Slotting Optimization, Wave Planning, Labor Productivity Analysis, Pick-to-Ship Optimization, Lean Manufacturing, Continuous Improvement, Root Cause Analysis (5 Whys), Process Standardization

Cross-Functional Leadership: Stakeholder Management, Operations & Procurement Collaboration, Team Supervision & Training, Change Management, Audit & Compliance Support, Process Improvement Initiatives

Experience

Supply Chain Analyst | GXO Logistics

Sep 2024 – Present | Houston, TX

- **Improving inventory turnover** by implementing dynamic safety stock and time-series demand forecasting models, continuously monitoring forecast accuracy (MAPE, bias) while sustaining 99% service levels across high-volume distribution operations.
- **Extracting, cleansing, and validating enterprise-scale procurement and inventory data** using **Python and SQL** (joins, subqueries) from **ERP and WMS systems**, improving data accuracy and accelerating analytics-driven decision-making.
- **Designing and maintaining executive-level Power BI and Tableau dashboards** tracking OTIF, fill rate, inventory turnover, lead-time variability, and supplier SLAs, enabling real-time visibility for operations and leadership teams.
- **Streamlined procure-to-pay operations in SAP MM**, managing 100+ POs per month, resolving invoice discrepancies, improving PO–invoice match accuracy, and reducing approval cycle time.
- **Optimized warehouse operations using SAP EWM analytics**, supporting slotting optimization, wave planning, labor productivity analysis, and SKU rationalization, reducing pick-to-ship cycle time, labor costs, and freeing 10% of working capital.

Inventory & Logistics Analyst | KBR, Inc.

Sep 2023 – Aug 2024 | Houston, TX

- **Led end-to-end inventory control** using **SAP MM**, maintaining optimal stock levels across 50+ critical and high-value SKUs and achieving 98% inventory accuracy through real-time reconciliation, cycle counting, and exception management.
- Managed material master data, purchase orders, stock transfer orders, and goods movements, ensuring seamless integration with **SAP PP and SD** to support production planning, warehouse operations, and outbound distribution.
- Reduced inventory carrying and holding costs by 20% by analyzing consumption trends, optimizing safety stock parameters, and aligning **MRP-driven planning** with production and dispatch schedules.
- **Streamlined goods receipt, invoice verification, and procure-to-pay (P2P) workflows**, improving transaction processing time by **30%** while minimizing posting errors and reconciliation gaps.
- Supported SAP MM enhancements and cross-functional process improvements, including configuration updates, UAT coordination, and end-user training, resulting in **reduction in support tickets** and higher system adoption.

Supply Chain Specialist | Larsen & Toubro

Jun 2020 – Jul 2022 | Hyderabad, India

- **Developed and executed daily production schedules** to maximize equipment utilization and labor efficiency, reducing operational downtime and improving on-time delivery performance.
- **Oversaw end-to-end warehouse operations** (goods receipt, putaway, storage, picking, and dispatch) using **SAP EWM**, maintaining 99.5% inventory accuracy through real-time system updates and cycle counting.
- **Led 5+ Lean manufacturing and continuous improvement initiatives** to reduce material waste and streamline workflows, delivering a 12% reduction in scrap rates and 8% faster order processing.
- **Supervised and mentored a team of 8–10 warehouse associates**, providing training on inventory best practices and **SAP EWM functionality**, increasing team productivity within six months.
- **Generated weekly and monthly inventory and aging reports** using **SAP EWM analytics**, identifying slow-moving and excess stock, improving demand visibility, and reducing excess inventory by 15%.

Education

Master of Science in Industrial Engineering

Lamar University

Aug 2022 – Aug 2023

Beaumont, TX
