

SUMMARY

Supply Chain Analyst with **8+** years of experience driving data-driven improvements across **demand planning, inventory optimization, logistics, and operations** analytics in global environments. Proven expertise in forecasting, **S&OP support, KPI reporting, root-cause analysis, and cost optimization**, delivering measurable gains in **OTIF, forecast accuracy**, and working-capital efficiency. Strong background in **Power BI, Tableau, SQL, SAP S/4HANA**, and Excel advanced analytics, and **Lean Six Sigma**, with a track record of partnering cross-functionally to improve supply chain **visibility, resilience, and decision-making**.

SKILLS

Supply Chain & Planning: Demand Forecasting, Inventory Planning, Safety Stock & EOQ, S&OP Support, Capacity Planning, SKU Rationalization, Vendor Performance Management, OTIF Improvement

Analytics & Reporting: Power BI (DAX), Tableau, Excel (Advanced), KPI Dashboards, Forecast Accuracy, Lead Time, Inventory Turnover

Systems & Tools: SAP S/4HANA (MM/IM, LE), SQL, Python, ERP/SCM Systems, Data Validation & Reconciliation

Process Improvement: Lean Six Sigma (Green Belt), Root-Cause Analysis, Continuous Improvement, Process Mapping (Visio)

Collaboration: Cross-Functional Stakeholder Management, Procurement, Logistics, 3PL Coordination, Agile/Scrum

EXPERIENCE**Hexaware Technologies****Mar 2024 – Nov 2025****Supply Chain Analyst**

- Led demand forecasting and inventory optimization using Excel and SQL, reducing excess inventory by 25% and improving forecast accuracy by 30% across multi-category portfolios.
- Built Power BI dashboards tracking OTIF, inventory turnover, lead time, and service levels, cutting reporting latency by 40% and enabling real-time decision-making.
- Supported S&OP processes through trend analysis and scenario planning, aligning procurement and supply plans to achieve 20% cost savings.
- Performed root-cause analysis on supply disruptions and vendor delays, implementing corrective actions that improved vendor performance by 35%.
- Partnered with Procurement and Logistics teams to streamline workflows using Lean principles, improving operational efficiency and compliance.
- Utilized SAP S/4HANA for sales orders, shipment tracking, invoicing, and reconciliation, ensuring accurate month-end reporting and SLA adherence.

TC Global**May 2019 – Feb 2024****Senior Analyst – Strategic Operations**

- Drove operations and supply chain analytics by developing Tableau dashboards that reduced manual reporting by 45% and accelerated executive decision-making.
- Coordinated daily logistics with 3PL partners, ensuring accurate receipts, transfers, and on-time customer dispatches across global operations.
- Applied predictive modeling (linear and logistic regression) using Python/R to forecast revenue and demand trends, driving a 23% improvement in targeted outcomes.
- Conducted inventory and SKU analysis using SQL and Excel to identify slow-moving and excess stock, improving working-capital utilization.
- Automated recurring operational reports using Python and SQL, reducing manual effort by 40% and improving data accuracy.
- Supported vendor performance reviews and supply-risk monitoring, improving OTIF and reducing fulfillment variability.

IBM**Jan 2016 – May 2017****Assistant System Engineer (Supply Chain Data)**

- Managed supply chain data extraction, validation, and reconciliation from MDM systems using SQL, improving reporting reliability by 30%.
- Built ETL workflows and automated data quality checks to ensure consistency across vendor and material master data.

- Developed APIs and automated recurring data requests, improving data accessibility for procurement and operations teams.
- Created Power BI dashboards tracking material availability, open orders, and supply chain KPIs, enhancing operational visibility.
- Supported procurement and planning teams with vendor performance metrics, material status reports, and risk assessments.

EDUCATION

Narsee Monjee Institute of Management Studies (NMIMS), India

MBA Analytics – Operations

Banasthali Vidyapith, India

Bachelor of Technology - Electronics & Communication Engineering

CERTIFICATIONS

- Six Sigma Green Belt
- SAS Predictive Modeling
