Professional Summary

Data Analyst with 3+ years of experience delivering **end-to-end** analytics and automation across healthcare and enterprise domains. Strong expertise in SQL, Python, Excel, and BI tools, with hands-on experience optimizing ETL/ELT pipelines on AWS, Azure, and Databricks. Proven ability to improve data quality, reporting efficiency, and operational decision-making using large-scale datasets.

Technical Skills

Core Analytics: SQL (Advanced), Python (Pandas, NumPy), Excel (Advanced)

BI & Visualization: Tableau, Power BI, Looker (familiar)

Cloud & Big Data: AWS (S3, Redshift, Athena), Azure (ADF, Synapse), Databricks

Databases & Warehousing: PostgreSQL, MySQL, SQL Server, Teradata, Snowflake, BigQuery

Data Practices: EDA, Data Cleaning, ETL/ELT, Query Optimization, Data Quality, Automation

Tools & Delivery: Jira, Confluence, Agile/Scrum

Professional Experience

University of North Texas — Student Assistant

Texas, USA | May 2025 – Dec 2025

- Cleaned, validated, and standardized **12K+ academic records**, improving data accuracy by **15%** and enabling reliable reporting.
- Automated data cleaning and formatting workflows using Excel and Python, **reducing reporting turnaround time by 30%**.
- Built SQL-based ad-hoc reports and interactive dashboards used by **10+ academic departments** for operational planning.

Cognizant Technology Solutions — Data Analyst / Associate

Client: Cigna Healthcare | Hyderabad, India | Sept 2021 – Dec 2023

- Automated SQL- and Python-based reporting pipelines, reducing manual effort by 30% and accelerating reporting cycles.
- Designed and optimized complex SQL queries across MySQL, PostgreSQL, and Teradata, improving dashboard performance by up to 20%.
- Built and maintained Tableau and Power BI dashboards supporting healthcare finance operations (claims, payments, denials).
- Performed large-scale data extraction, cleansing, validation, and EDA on 20K–30K+ healthcare records per run to identify trends and operational issues.
- Collaborated with clinical, product, and engineering teams to translate business requirements into scalable analytics solutions.
- Mentored junior analysts on SQL, Python, and BI tools while contributing to Agile/Scrum ceremonies.
- Ensured data governance, PII masking, and HIPAA-aligned compliance across healthcare analytics workflows.

MillionQ Solutions Pvt. Ltd — Data Analyst Intern

Tamil Nadu, India | Jan 2020 – Aug 2020

- Designed and implemented automated **ETL workflows using SQL and Python**, increasing data delivery efficiency and reducing preparation time by **20%**.
- Built Tableau dashboards for KPI tracking, supporting **GAP/SWOT** analysis and performance monitoring.
- Optimized **MySQL & PostgreSQL queries**, improving data extraction **efficiency by 10%** and reducing runtime.
- Conducted EDA and statistical modeling using R and Excel**, generating actionable business insights.

Academic Projects

Predictive Analytics for Police Staffing & Crime Trends | Python, SQL, Power BI, CRISP-DM Aug 2025—Dec 2025

- Built an **end-to-end time-series forecasting pipeline** using **Python and SQL** to predict daily emergency call volumes, improving staffing decision accuracy by **25%**.
- Cleaned, integrated, and standardized **multi-year public safety datasets** (calls, crimes, staffing, weather, demographics) using **Python (Pandas) and SQL**, supporting reliable forecasting and analytics.
- Evaluated **ARIMA and Random Forest models** and selected the best-performing model based on **MAE and RMSE**, improving forecast reliability for peak demand periods.
- Identified **seasonal patterns and peak demand periods**, enabling proactive workforce planning and reducing understaffing risk by **15%**.
- Delivered **Power BI executive dashboards** visualizing historical trends, forecasted call volumes, and staffing recommendations for operational leadership.

Medical Claims Denial Analysis | SQL, Excel, Tableau

Aug 2025—Dec 2025

- Analyzed **10K+ medical claims records** using **SQL and Excel** to identify root causes of denials and payment delays.
 - Identified top denial drivers (procedural, coding, and eligibility issues), enabling a **reduction in denial rates by 18%**.
 - Built **Tableau dashboards** tracking denial trends by **provider, payer, procedure code, and denial reason**, improving visibility and prioritization.
 - Presented findings and recommendations to stakeholders, supporting **process improvements and faster payment cycles**.
-

Education

M.S. in Business Analytics, University of North Texas, USA (GPA: 3.9)

B.Tech in Electronics & Communication Engineering, Sri Venkateswara College of Engineering, India (GPA: 3.5)

Certifications

- Google Data Analytics Professional Certificate – **Coursera**
- Agile Project Management – **LinkedIn Learning**
- SQL – **DataCamp**
- Tableau – **Coursera**
- R Language - **DataCamp**
