(813) 308-9247 | iibaighabib@gmail.com | [linkedin.com/in/mhb](https://www.linkedin.com/in/mhb) | github.com/baighabib

Education

University of Massachusetts Amherst | *Isenberg School of Management*

Amherst, MA

Master of Science (M.Sc.) in Business Analytics

Jun 2023 – Feb 2025

NED University of Engineering and Technology

Karachi, Pakistan

Bachelor of Engineering (B.E) in Electrical Engineering

Dec 2016 – Oct 2020

Experience

PNC Financial Services

Boston, MA

Business Data Analyst

Feb 2025 – Present

- Developed and enhanced interactive financial dashboards in Power BI and Tableau to monitor loan performance, deposit trends, and credit risk exposure, enabling executives to make data-driven decisions faster
- Conducted predictive analytics on customer transaction data using Python and SQL to identify early indicators of delinquency risk and improve collections strategy by **15%**
- Streamlined monthly financial reporting by building automated ETL workflows in Alteryx and Informatica, reducing data preparation time by **40%** and improving the accuracy of regulatory submissions
- Partnered with risk management and compliance teams to analyze fraud detection patterns, using statistical modeling to enhance fraud prevention rules and reduce false positives by **12%**
- Supported budget forecasting and portfolio stress testing by integrating data from Oracle and Snowflake
- Leveraged enterprise-approved LLMs to automate data summarization and support analytical workflows

American Specialty Designs

Granby, MA

Data Analyst Intern

Aug 2024 – Jan 2025

- Spearheaded the development of an ETL data framework with integrated validation checks, using SQL and Power BI to correct erroneous attribute values in design materials, cutting the inventory error rate from **3.4%** to **0.2%**
- Designed interactive dashboard in Tableau to highlight key metrics utilized by the executive committee; facilitated a **25%** increase in informed decisions based on comprehensive analysis of historical trends within one quarter
- Identified process optimization strategies to enhance efficiency and cost-effectiveness in data analysis and reporting
- Utilized Advanced Excel and Python for quantitative data extraction, cleaning, and analysis, providing insights

Flux Energy Pvt. Ltd

Karachi, Pakistan

Data Analyst

Dec 2020 – May 2023

- Led VoC initiative, using Power BI to boost daily responses from **40 to over 100**. Achieved **4%** increase in customer satisfaction KPI scores through actionable insights, enhancing organization-wide decision-making
- Generated monthly energy consumption reports, offering recommendations that improved resource allocation and contributed to a noteworthy **10%** increase in overall efficiency optimizing the roadmap for future sprints
- Communicated with business leadership and cross-functional stakeholders to establish the logic for KPIs, subsequently built a Tableau dashboard with SQL calculated fields to monitor and visualize the key metrics
- Established comprehensive data governance and documentation protocols for renewable energy management infrastructure, ensuring data security, privacy, integrity, quality, and compliance with **ISO-27001** standards
- Performed comprehensive quality control (QC) checks on data pipelines, ensuring **100%** data integrity

Projects

BostonPulse - Predictive Analytics for Housing Markets ([Link](#)) | *MS Excel, XLMiner, Python*

- Analyzed Boston housing data (**506 data points**) with decision trees and random forest models
- Engineered and optimized predictive models, k-Nearest Neighbors and logistic regression, to forecast housing prices and classify affordability in Boston, enhancing accuracy with data normalization and validation techniques

SalaryScope - Unveiling Factors Influencing Professional Earnings ([Link](#)) | *Tableau*

- Formulated **5** research questions leveraging data wrangling techniques to extract and preprocess a raw dataset, creating an interactive dashboard revealing key insights and correlations impacting professional earnings

Technical Skills & Certifications

Programming Languages: SQL (MySQL, PostgreSQL, Oracle, Snowflake, BigQuery, AWS Redshift), R (ggplot2, plotly), Python (Matplotlib, Seaborn, Pandas, NumPy, Scikit-learn), C++, MATLAB

Tools: Microsoft Excel (VBA, XLOOKUP, Macros, PivotTables, XLMiner), Microsoft PowerBI, Tableau, Jupyter, Google Colab, Jira, Snowflake, Alteryx designer, Informatica, Microsoft Azure, Google Cloud Platform (GCP)

Methodologies: SDLC (Waterfall), Agile (Scrum, Kanban)

AI/LLM: Microsoft 365 Copilot, Gemini 3 Pro, ChatGPT 5.1, Julius AI, Claude

Data Analytics & BI: A/B testing, Business Intelligence strategy, Financial and sales analysis, Market research, Customer segmentation, Forecasting & budgeting, , Data modeling, Data mining, Statistical analysis, KPI development & tracking

Certification: [IBM Data Science](#) | [Microsoft PowerBI Data Analyst](#)
