5593093735

Frisco, TX, United States

Supply Chain Specialist with 20 years' government and defense experience in strategic procurement, logistics, and financial operations. Expert in SAP, Excel modeling, and data analytics to optimize efficiency, reduce costs, and ensure compliance. Holds a Doctorate and multiple professional certifications.

## Work Experience

### Senior Financial Crimes Intelligence Analyst

Sep 2014 - Present

*DoD/Pluribus International/Amentum/US Treasury*

- Coordinate policy development, budgeting, and financial reporting to deliver critical support for teams and government agencies, ensuring alignment with objectives, accountability, and effective resource management across complex organizational and regulatory environments.
- Performed comprehensive forensic reviews leveraging SAP data extraction tools, delivering accurate insights to support internal investigations, ensure compliance, and strengthen regulatory reporting processes.
- Developed Excel-based models to detect patterns in wire transfers, shell company operations, and high-risk jurisdictions, providing critical insights to strengthen anti-money laundering (AML) investigations.
- Subject Matter Expert in cost estimation and financial planning, providing strategic guidance and analysis to strengthen resource allocation and support critical national security missions.
- Directed expenditure tracking, resource allocation, and budget reconciliation for multi-million-dollar operations, ensuring accurate and efficient financial management to support organizational goals.
- Evaluated economic trends, assessed risks, and provided actionable insights to senior management.
- Directed collaboration between government agencies and external partners to advance FinCEN's mission, strengthening detection, prevention, and response efforts against illicit financial activities globally.
- Holds Top Secret clearance with counterintelligence (CI) background, demonstrating trusted access to sensitive information and the ability to operate securely in high-risk government and defense environments.

### Vice President, Procurement

Mar 1994 - Apr 2014

*DoD/US Navy/National Security Agency*

- Directed 435 personnel in processing more than 800 GWOT requisitions, ensuring support for 6,000 personnel and 65 F/A-18C aircraft, maintaining full operational readiness and mission capability.
- Oversaw \$225M in controlled budgets, optimizing resource allocation and enforcing fiscal responsibility through meticulous oversight, accuracy, and strategic management of financial operations.
- Leveraged SAP MM and SRM modules to oversee end-to-end procurement operations, ensuring compliance with federal acquisition regulations and alignment with Navy supply chain objectives.
- Directed supply and demand planning initiatives to ensure continuous availability of critical materials, reduce readiness gaps, and enhance fleet sustainment for optimal operational performance.
- Utilized SAP data combined with Excel-based analytical models to identify procurement inefficiencies, uncover cost-saving opportunities, and evaluate vendor performance trends, enabling data-driven decisions that enhanced efficiency, reduced costs, and optimized overall supply chain operations.
- Developed and executed comprehensive long-term supply chain strategies to support dynamic operational requirements, seamlessly integrating logistics, sourcing, and contract planning, enhancing efficiency, mission readiness, and overall organizational performance across complex operational environments.
- Led diverse teams in the management of Logistics, Supply Chain operations, and Procurement, ensuring fiscal compliance and operational success across multiple military missions.
- Oversaw a \$75M annual budget and directed logistics operations for over 1,500 personnel, ensuring timely fulfillment of 125 high-priority requisitions while maintaining operational efficiency and mission readiness.
